This request provides a 30-day comment period required by OIRA. The Coast Guard published the 60-day notice (87 FR 5831, February 2, 2022) required by 44 U.S.C. 3506(c)(2). That notice elicited no comments. Accordingly, no changes have been made to the Collection.

Information Collection Request

Title: Report of Marine Casualty & Chemical Testing of Commercial Vessel Personnel.

OMB Control Number: 1625-0001.

Summary: Marine casualty information is needed for CG investigations of commercial vessel casualties involving death, vessel damage, etc., as mandated by Congress. Chemical testing information is needed to improve CG detection/reduction of drug use by mariners.

Need: Section 6101 of 46 U.S.C., as delegated by the Secretary of Homeland Security to the Commandant, authorizes the Coast Guard to prescribe regulations for the reporting of marine casualties involving death, serious injury, material loss of property, material damage affecting the seaworthiness of a vessel, or significant harm to the environment. It also requires information on the use of alcohol be included in a marine casualty report. Section 7503 of 46 U.S.C. authorizes the Coast Guard to deny the issuance of licenses, certificates of registry, and merchant mariner's documents (seaman's papers) to users of dangerous drugs. Similarly, 46 U.S.C. 7704 requires the Coast Guard to revoke such papers unless a holder provides satisfactory proofs that the holder has successfully completed a rehabilitation program acceptable to the U.S. Coast Guard and is determined to be, by a competent substance abuse professional, free from misuse of chemical substances and that the risk of subsequent misuse of chemical substances is sufficiently low to justify returning to safety-sensitive positions.

Forms:

- CG-2692, Report of Marine Casualty, Commercial Diving Casualty, or OCS-related Casualty;
- CG-2692A, Barge Addendum;
- CG-2692B, Report of Mandatory Chemical Testing Following a Serious Marine Incident Involving Vessels in Commercial Service;
- CG-2692C, Personnel Casualty Addendum;
- CG-2692D, Involved Persons and Witnesses Addendum.

Respondents: Vessel owners and operators.

Frequency: On occasion.

Hour Burden Estimate: The estimated burden has decreased from 28,597 hours to 21,525 hours a year, due to a decrease in the estimated number of responses.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. *et seq.*, chapter 35, as amended.

Dated: April 21, 2022.

including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. Abstract: The Migratory Bird Treaty Act (MBTA; 16 U.S.C. 703 *et seq.*) prohibits the unauthorized take of migratory birds and authorizes the Secretary of the Interior to regulate take of migratory birds in the United States. Under this authority, we control the hunting of migratory game birds through regulations in 50 CFR part 20. On January 1, 1991, we banned lead shot for hunting waterfowl and coots in the United States.

This is a non-form collection. Regulations at 50 CFR 20.134 outline the application and approval process for new types of nontoxic shot. When considering approval of a candidate material as nontoxic, we must ensure that it is not hazardous in the environment and that secondary exposure (ingestion of spent shot or its components) is not a hazard to migratory birds. To make that decision, we require each applicant to provide information about the solubility and toxicity of the candidate material. Additionally, for law enforcement purposes, a noninvasive field detection device must be available to distinguish candidate shot from lead shot. This information constitutes the bulk of an application for approval of nontoxic shot. The Director uses the data in the application to decide whether to approve a material as nontoxic.

Title of Collection: Approval Procedures for Nontoxic Shot and Shot Coatings (50 CFR 20.134).

OMB Control Number: 1018–0067.

Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Businesses that produce and/or market approved nontoxic shot types or nontoxic shot coatings.

Total Estimated Number of Annual Respondents: 1.

Total Estimated Number of Annual Responses: 1.

Estimated Completion Time per Response: 3,200 hours.

Total Estimated Number of Annual Burden Hours: 3,200 hours.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

Total Estimated Annual Nonhour Burden Cost: \$26,630 (\$1,630 application processing fee and \$25,000 for solubility testing).

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Information Collection Clearance Officer, U.S. Fish and Wildlife Service.
