OMB Control Number: 2120-0806.

Title: Bipartisan Infrastructure Law Airport Terminal and Tower Project Information.

Form Numbers: 5100-144.

Type of Review: Renewal of an information collection.

Background: The FAA uses this collection to solicit the information necessary to evaluate and select airport terminal and tower projects for funding under the Bipartisan Infrastructure Law (BIL), signed on November 15, 2021. The BIL provides about \$1,020,000,000 annually, for five years, to award competitive discretionary grants for airport terminal and tower development. Of this amount, about \$1,000,000,000 annually, for five years, is for the Airport Terminal Program, and \$20,000,000 annually, for five years, is for an Airport-owned Contract Tower Program (referred to collectively as "Airport Terminal and Towers Programs"). The information collected is based on grant considerations and priorities outlined in the BIL. Project consideration areas include increasing terminal capacity and passenger access; replacing aging infrastructure; achieving compliance with the Americans with Disabilities Act (42 U.S.C. 12101, *et seq.*) and expanding accessibility for persons with disabilities; improving airport access for historically disadvantaged populations; improving energy efficiency, including upgrading environmental systems, upgrading plant facilities, and achieving Leadership in Energy and Environmental Design (LEED) accreditation standards; improving airfield safety through terminal relocation; encouraging actual and potential competition; and creating good paying jobs. The information FAA is collecting will include general airport information, a project overview, and narratives on project consideration areas as outlined in the BIL. Airport owners and managers who want to pursue funding and obtain benefits from the BIL Airport Terminal and Tower Programs will submit information via FAA Form 5100-144 to compete for grants. Approximately 3,075 airports are eligible to compete for this funding, but

FAA expects only a small subset of eligible airports to submit project information through this competitive discretionary grant process.

Respondents: Approximately 655 airports.

Frequency: Annually.

Estimated Average Burden per Response: 6 Hours.

Estimated Total Annual Burden: 3,930 Hours for all respondents.

Issued in Washington, DC, on May 3, 2022.

Robin K. Hunt,

Manager, BIL Implementation Team, Office of Airports.

SUPPLEMENTARY INFORMATION: On March 9, 2022, pursuant to fulfilling the FAST Act directive and section 24213 of the Bipartisan Infrastructure Law, NHTSA published an RFC notice announcing its current and future plans for updating NCAP (87 FR 13452). The RFC notice included significant upgrades to NCAP, including (1) proposing to add four new advanced driver assistance system (ADAS) technologies, (2) proposing to strengthen the current test procedures for certain existing ADAS technologies,

(3) proposing a near- and long-term roadmap for future NCAP updates, (4) discussing various approaches on the development of a new rating system for ADAS technologies, (5) discussing the rulemaking process to update the NCAP safety information on the Monroney label that includes a comprehensive consumer research, and (6) seeking comment on emerging technologies to help people make safe driving choices. The comment period for the RFC notice is scheduled to end on May 9, 2022.

Comment Period Extension Requests

The Alliance for Automotive Innovation and the Motor & Equipment Manufacturers Association submitted a joint letter on March 25, 2022, requesting a 30-day extension of the comment period. The requestors state that the RFC notice addresses several complex topics that would require conducting in-depth review and analysis to develop informed feedback. They suggest the additional time would allow them to conduct the detailed review of the notice and develop responses to the more than 100 questions and issues included in the notice. The requestors state that the additional time would allow for more fully developed feedback to support the agency's next steps.

In a joint letter submitted to the Agency on April 15, 2022, Advocates for Highway and Auto Safety, Center for Auto Safety, Public Citizen, National Association of Mutual Insurance Companies, Kids & Cars Safety, Vision Zero Network, Insurance Institute for Highway Safety, Society for the Advancement of Violence and Industry Research, and Families for Safe Streets, request a 60-day extension of the comment period. The requestors state that the RFC notice raises numerous complex technical and policy issues that requires significant analysis. They note that extending the comment period is in the public interest as it would permit the public with sufficient time to provide specific and thorough feedback on the many substantial questions raised in the notice, and provide the requestors with time to consult with a variety of experts and stakeholders.

Agency Decision

Pursuant to 49 CFR 553.19 and after thorough consideration of the requests with various extension periods, NHTSA determined that the requestors have provided sufficient justification for an extension, and that the extension is consistent with the public interest (49 CFR 553.19). NHTSA agrees that allowing additional time for the public and its stakeholders to provide

comments to the many questions raised in the RFC notice would better inform NHTSA on its final decision on the various program areas and topics discussed in the RFC notice. Therefore, NHTSA is granting the aforementioned requests to extend the comment period; however, NHTSA is extending it only for 30 days. Section 24213 of the November 2021 Bipartisan Infrastructure Law, enacted as the Infrastructure Investment and Jobs Act, requires NHTSA to publish its final decision on the NCAP upgrade by November 15, 2022. A 30-day extension appropriately balances NHTSA's interest in providing the public with sufficient time to comment on the numerous questions raised in the RFC notice, with its interest to issue a final decision on the NCAP upgrade in a timely manner.
