This third report also includes new analyses not previously included in the first and second reports.

II. Information About This Peer Review

EPA's contractor, ERG, is considering a list of candidates from which to select the independent, external, peer review panel for the RtC3. On February 1, 2022, EPA announced through an FRN (87 FR 5479; FRL-9518-01-ORD) that it was seeking nominations for the peer review panel. After considering nominations submitted by the public in response to that FRN (FRL-9518-01-ORD), ERG has identified a pool of twenty (20) candidates whose combined expertise spans the following disciplines: Economics, engineering, agronomics, land use change, remote sensing, air quality, biogeochemistry, water quality, hydrology, conservation biology, limnology, and ecology. The List of Candidates (LoC) document has been posted to the docket at <https://www.regulations.gov> (EPA-HQ-ORD-2020-0682) and is included below. After review and consideration of public comments on the candidates submitted in response to this FRN, ERG will select up to nine (9) peer reviewers from this pool in a manner consistent with EPA's Peer Review Handbook 4th Edition, 2015 (EPA/100/B-15/001) based on the following factors: (1) Demonstrated expertise in the areas listed above through relevant peer-reviewed publications; (2) professional accomplishments and recognition by professional societies; (3) demonstrated ability to work constructively and effectively in a committee setting; (4) absence of conflicts of interest; (5) no appearance of a lack of impartiality; (6) willingness to commit adequate time for a thorough review of the draft report, including preparation of individual written comments that will be made publicly available; and (7) availability to participate virtually in a public two-day or three-day peer review meeting and to provide subsequent revised individual comments. ERG will independently conduct a conflict of interest (COI) screening of candidates to ensure that the selected experts have no COI in conducting this review. EPA will announce the final peer review panel, peer review meeting information, and public comment period on the RtC3 External Review Draft in a subsequent FRN. Comments on the peer review

candidates must be submitted to the docket by May 24, 2022.

Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective May 9, 2022.
