The purpose of the EMPM is for presentation and discussion of current issues related to modeling pesticide fate, transport, and exposure for risk assessment in a regulatory context.

III. Theme for the Meeting

The 2022 EMPM will provide a forum for presentations on the incorporation of analyses into environmental exposure and ecological risk assessments, meant to comply with the Endangered Species Act, with a focus on practical solutions to avoid, minimize or offset potential effects to Federally Listed endangered and threatened species and designated critical habitats. Potential topics: Approaches to avoid and minimize effects to listed species that inhabit pesticide use sites, label mitigations to avoid jeopardy and adverse modifications to listed species and their critical habitat; evaluation of mitigation effectiveness; and chemical specific case studies.
