

WSF at Southworth, and Kitsap Transit is working with WSF to make facility improvements to expand docking facilities. However, all three Kitsap Transit routes share two slips with the two King County Metro routes at Pier 50 on the Seattle waterfront (Kitsap Transit's fourth landing location). Pier 50's designed operating capacity is insufficient for five distinct routes, serviced by six operating vessels, arriving 20 times during both the morning and afternoon commute periods.

Kitsap Transit is the secondary user at Pier 50 and must fit their service schedule around King County Metro's schedule. Hence, the driving factor in Kitsap Transit's service schedule is docking availability. This means that landing times are limited to available docking windows rather than customer preferences for arrival and departure times. With 12 landings in the peak commute ridership periods (5 a.m. to 9 a.m. and 3 p.m. to 7 p.m.), Kitsap Transit's current schedule fully utilizes the docking times not reserved for King County Metro. Although there are a few remaining dock openings during the commute window, they cannot be accommodated within Kitsap Transit vessel headways and dwell times.

Additional challenges to maintaining service schedules occur when Kitsap Transit and King County Metro vessels experience inevitable transit delays due to weather conditions such as fog or marine traffic that lead to cascading departure delays and service disruptions that cannot be mitigated with two landing slips.

Kitsap Transit must stay within their docking windows in Seattle so as not to disrupt King County Metro's schedule. To maintain docking windows, Kitsap Transit routinely has to travel at higher than planned speeds to maintain the Seattle arrival and departure schedule. At these higher speeds, Kitsap Transit consumes more fuel leading to higher carbon emissions and increased operating costs from higher fuel expense. Higher-speed operations also place greater loads on vessel engines and other vessel systems leading to increased maintenance costs.

Kitsap Transit temporarily operated their Bremerton-Seattle route from a leased private dock at Pier 54. The lease could not be renewed, forcing Kitsap Transit to consolidate all three routes with King County Metro's two routes at Pier 50 beginning May 2, 2022. With five routes and six vessels operating from two slips, the risk of arrival and departure delays and higher operating costs will increase.

Next Steps

Following early scoping, FTA and Kitsap Transit will use the comments received from early scoping to help identify and narrow the range of Project location alternatives for further evaluation in a combined NEPA/SEPA environmental document. If the resulting range of alternatives involves the potential for significant environmental impacts requiring an environmental impact statement (EIS), FTA will publish a Notice of Intent to Prepare an EIS in the **Federal Register**, and Kitsap Transit will publish a Determination of Significance/Scoping Notice. Tribes, agencies, and the public will be invited to comment on the scope of the EIS at that time.
