SUPPLEMENTARY INFORMATION: The Commission instituted this investigation

on December 29, 2020, based on a complaint filed by US Synthetic Corporation (“USS”) of Orem, Utah. 85 FR 85661 (Dec. 29, 2020). The complaint alleged violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain polycrystalline diamond compacts and articles containing same by reason of infringement of certain claims of U.S. Patent No. 10,507,565 (“the ‘565 patent”), U.S. Patent No. 10,508,502 (“the ‘502 patent”), U.S. Patent No. 8,616,306 (“the ‘306 patent”), U.S. Patent No. 9,932,274 (“the ‘274 patent”), and U.S. Patent No. 9,315,881 (“the ‘881 patent”). *Id.* The complaint further alleged that an industry in the United States exists as required by section 337. *Id.* The notice of investigation named as respondents: SF Diamond Co., Ltd., and SF Diamond USA, Inc. Commission did not review them. ID at 2 (citing Order Nos. 6, 8, 10, and 16). Thus, the only remaining respondents are Iljin, SF Diamond, New Asia/IDS, Haimingrun, Juxin, CR Gems, Jingrui, and Wanlong.

USS also moved for partial termination of the investigation with respect to certain asserted patents and claims. All the motions were granted by non-final IDs, and the Commission did not review them. ID at 3 (citing Order Nos. 26, 32, and 57). As such, the ‘274 and ‘881 patents have been terminated from the investigation. Claims 1, 2, 4, 6, and 18 of the ‘565 patent; claims 1, 2, 11, 15, and 21 of the ‘502 patent; and claim 15 of the ‘306 patent remain in this investigation (collectively, “the Asserted Patents”).

On May 24, 2021, Order No. 23 issued, which construed certain claim terms of the asserted patents. An evidentiary hearing was held on October 18–22, 2021.

On March 3, 2022, the ALJ issued his final ID, finding no violation of section 337 by Respondents. Specifically, the ID found at least one accused product infringes all asserted claims of the Asserted Patents, but those claims are invalid under 35 U.S.C. 101 and/or 102. The ID also found that Complainants have shown that the domestic industry requirement has been satisfied with respect to the Asserted Patents.

On March 15, 2022, Complainant filed a petition for review seeking review of certain patent invalidity findings. That same day, Respondents filed two contingent petitions for review. The first petition submitted by all active Respondents seeks review of certain findings related to infringement, the technical prong of the domestic industry requirement, and invalidity. The second petition submitted by Respondents New Asia, Haimingrun, and Juxin seeks review of Order No. 46, which allowed Complainant to present evidence regarding its revenue-based investment allocation method for the economic prong of the domestic industry requirement. On March 23, 2022, the parties filed separate replies to the petitions for review. On March 31, 2022, the Iljin Respondents submitted their public interest statement. The Commission solicited submissions from the public on public interest issues raised by the recommended determination. No submissions were filed.

Having reviewed the record of the investigation, including the final ID, the parties’ submissions to the ALJ, the petitions for review, and the responses thereto, the Commission has determined to review the ID in part. Specifically, the
