Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) as a revision after this comment period to obtain the full three year clearance from OMB. Under this information collection, the Communications Act of 1934, as amended, requires the “preservation and advancement of universal service.” 47 U.S.C. 254(b). The information collection requirements reported under this collection are the result of the Federal Communications Commission’s (the Commission) actions to promote the Act’s universal service goals.

On November 22, 2019, the Commission adopted the *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs*, WC Docket No. 18–89, Report and Order, Order, and Further Notice of Proposed Rulemaking, 34 FCC Rcd 11423 (2019) (*Report and Order*). The *Report and Order* prohibits future use of Universal Service Fund (USF) monies to purchase, maintain, improve, modify, obtain, or otherwise support any equipment or services produced or provided by a company that poses a national security threat to the integrity of communications networks or the communications supply chain.

On March 12, 2020, the President signed into law the Secure and Trusted Communications Networks Act of 2019 (Secure Networks Act), Public Law 116–124, 133 Stat. 158 (2020) (codified as amended at 47 U.S.C. 1601–1609), which among other measures, directs the FCC to establish the Secure and Trusted Communications Networks Reimbursement Program (Reimbursement Program). This program is intended to provide funding to providers of advanced communications service for the removal, replacement and disposal of certain communications equipment and services that poses an unacceptable national security risk (*i.e.*, covered equipment and services) from their networks. The Commission has designated two entities—Huawei Technologies Company (Huawei) and ZTE Corporation (ZTE), along with their affiliates, subsidiaries, and parents—as covered companies posing such a national security threat. *See Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs—Huawei Designation*, PS Docket No. 19–351, Memorandum Opinion and Order, 35 FCC Rcd 14435 (2020); *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs—ZTE Designation*, PS Docket No. 19–352, Memorandum Opinion and Order, DA 20–1399 (PSHSB rel. Nov. 24, 2020).

Communications Supply Chain Through FCC Programs—Huawei Designation, PS Docket No. 19–351, Memorandum Opinion and Order, 35 FCC Rcd 14435 (2020); *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs—ZTE Designation*, PS Docket No. 19–352, Memorandum Opinion and Order, DA 20–1399 (PSHSB rel. Nov. 24, 2020).

On December 10, 2020, the Commission adopted the *Second Report and Order* implementing the Secure Networks Act, which contained certain new information collection requirements. *See Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs*, WC Docket No. 18–89, Second Report and Order, 35 FCC Rcd 14284 (2020) (*Second Report and Order*). These requirements will allow the Commission to receive, review and make eligibility determinations and funding decisions on applications to participate in the Reimbursement Program that are filed by certain providers of advanced communications service. These new information collection requirements will also assist the Commission in processing funding disbursement requests and in monitoring and furthering compliance with applicable program requirements to protect against waste, fraud, and abuse.

On December 27, 2020, the President signed into law the Consolidated Appropriations Act, 2021 (CAA), appropriating \$1.9 billion to “carry out” the Reimbursement Program and amending the Reimbursement Program eligibility requirements to expand eligibility to include providers of advanced communications service with 10 million or fewer subscribers and making clear that schools, libraries, and health care providers are eligible to receive Reimbursement Program support to the extent they qualify as providers of advanced communications services. *See* Public Law 116–260, Division N-Additional Coronavirus Response and Relief, Title IX-Broadband internet Access Service, §§ 901, 906, 134 Stat. 1182 (2020). The Commission has interpreted the term “provider of advanced communications service” to mean “facilities-based providers, whether fixed or mobile, with a broadband connection to end users with at least 200 kbps in one direction.” *Second Report and Order*, 35 FCC Rcd at 14332, para. 111. Participation in the Reimbursement Program is voluntary but compliance with the new information collection requirements is required to obtain Reimbursement Program support. The Commission

adopted a *Third Report and Order* on July 13, 2021, implementing the amendments to the Secure Networks Act by the CAA for the Reimbursement Program. *See Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs*, WC Docket No. 18-89, Third Report and Order, FCC 21-86 (rel. July 14, 2021) (*Third Report and Order*).

Separate from the Reimbursement Program, the Secure Networks Act requires all providers of advanced communications service to annually report, with exception, on whether they have purchased, rented, leased or otherwise obtained covered communications equipment or service on or after certain dates. 47 U.S.C. 1603(d)(2)(B). The *Second Report and Order* adopted a new information collection requirement to implement this statutory mandate. *See Secure Networks Act* § 5. If the provider certifies it does not have any covered equipment and services, then the provider is not required to subsequently file an annual report, unless it later obtains covered equipment and services. *Second Report and Order*, 35 FCC Rcd at 14370, at para. 215.

The Commission therefore propose to revise this information collection, as well as Form 5460, to reflect this new requirement contained in the *Public Notice* released by the Bureau on August 3, 2021. This Public Notice, among other things, requires providers participating in the Reimbursement Program to notify the Commission of ownership changes using the FCC Form 5640 to ensure the accuracy of information on file for program participants when there is a change in ownership.

Federal Communications Commission.
