

or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, USPTO is publishing notice of the proposed collection of information set forth in this document.

Whether seeking a loan, Social Security benefits, veteran's benefits, or other services provided by the Federal Government, individuals and businesses expect Government customer services to be efficient and intuitive, just like services from leading private-sector organizations. Yet the 2016 American Consumer Satisfaction Index and the 2017 Forrester Federal Customer Experience Index show that, on average, Government services lag nine percentage points behind the private sector.

A modern, streamlined, and responsive customer experience means: Raising governmentwide customer experience to the average of the private sector service industry; developing indicators for high-impact Federal programs to monitor progress towards excellent customer experience and mature digital services; and providing the structure (including increasing transparency) and resources to ensure customer experience is a focal point for agency leadership. To support this, OMB Circular A-11 Section 280 established governmentwide standards for mature customer experience organizations in government and measurement. To enable Federal programs to deliver the experience taxpayers deserve, they must undertake three general categories of activities: Conduct ongoing customer research, gather and share customer feedback, and test services and digital products.

These data collection efforts may be either qualitative or quantitative in nature or may consist of mixed methods. Additionally, data may be collected via a variety of means, including but not limited to electronic or social media, direct or indirect observation (*i.e.*, in person, video, and audio collections), interviews, questionnaires, surveys, and focus groups. USPTO will limit its inquiries to data collections that solicit strictly voluntary opinions or responses. Steps will be taken to ensure anonymity of respondents in each activity covered by this request.

The results of the data collected will be used to improve the delivery of Federal services and programs. It will include the creation of personas, customer journey maps, and reports and summaries of customer feedback data and user insights. It will also provide governmentwide data on customer experience that can be displayed on performance.gov to help build transparency and accountability of Federal programs to the customers they serve.

Method of Collection

USPTO will collect this information by electronic means when possible, as well as by mail, fax, telephone, technical discussions, and in-person interviews. USPTO may also utilize observational techniques to collect this information.

Data

Form Number(s): None.

Type of Review: New.

B. Annual Reporting Burden

Affected Public: Collections will be targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future. For the purposes of this request, "customers" are individuals, businesses, and organizations that interact with a Federal Government agency or program, either directly or via a Federal contractor. This could include individuals or households; businesses or other for-profit organizations; not-for-profit institutions; State, local or tribal governments; Federal government; and universities.

Estimated Number of Respondents: 2,001,550.

Estimated Time per Response: Varied, dependent upon the data collection method used. The possible response time to complete a questionnaire or survey may be 3 minutes or up to 1.5 hours to participate in an interview.

Estimated Total Annual Burden Hours: 101,125.

Estimated Total Annual Cost to Public: \$2,737,454.

C. Public Comments

USPTO invites comments on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the

information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Patents External Quality Survey

The United States Patent and Trademark Office (USPTO) will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The USPTO invites comment on this information collection renewal, which helps the USPTO assess the impact of its information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on March 15, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: United States Patent and Trademark Office, Department of Commerce.

Title: Patents External Quality Survey.
OMB Control Number: 0651-0057.

Needs and Uses: The USPTO's Patents External Quality Survey is an instrument designed to measure opinions about the services that USPTO provides its patent application customers. The results from this voluntary survey will assist the USPTO in guiding improvements and enhancements in the future. The USPTO conducts the Patents External Quality Survey as part of its quality improvement efforts under E.O. 14058, Transforming Federal Customer Experience and Service Delivery to

Rebuild Trust in Government (Dec. 13, 2021). This survey narrows the focus of customer satisfaction to examination quality and uses a longitudinal, rotating panel design to assess changes in customer perceptions and to identify key areas for examiner training and opportunities for improvement. The USPTO surveys patent agents, attorneys, and other individuals from large domestic corporations (including those with 500+ employees), small and medium-size businesses, independent inventors, and universities, and other non-profit research organizations. This survey does not include foreign entities. The USPTO random sample used in this survey is drawn from the Patent Application and Location Management (PALM) database. The sample population is drawn from the top filing firms and entities that have filed five or more patent applications in a 12-month period. This ongoing survey is generally conducted twice a year. The USPTO uses a rotating panel design where participants will take the survey twice in back-to-back survey periods. Half the participants in each survey period are new, completing the survey for the first time, and half are returning to complete the survey for a second time. This design allows a precise measurement of changes in customer experience over time. The Patents External Quality Survey is primarily a web-based survey, although respondents can also complete the survey via paper and mail if they prefer. The content of both versions is identical. Potential respondents are sent either an email or mailed pre-survey letter, depending on noted preferences for contact. At the beginning of each survey period, respondents are provided instructions for accessing and completing the survey electronically. After a specified response period, a survey packet containing a questionnaire, a separate cover letter prepared by the Deputy Commissioner for Patents, and a postage-paid, preaddressed return envelope are mailed to all sample members that have not yet submitted a response. Sampled members receiving a paper survey can still complete the survey electronically if they prefer. Reminder/thank you postcards and telephone calls are used to encourage responses from sample members.

Form Numbers:

- PTO/2325 (Patents External Quality Survey).

Type of Review: Extension and revision of a currently approved information collection.

Affected Public: Private sector.

Respondent's Obligation: Voluntary.

Frequency: On occasion.

Estimated Number of Annual Respondents: 1,875 respondents.

Estimated Number of Annual Responses: 3,100 responses.

Estimated Time per Response: The USPTO estimates that the responses in this information collection will take the public between 2 minutes (0.03 hours) and 10 minutes (0.17 hours) to complete. This includes the time to gather the necessary information, answer the survey prompts, and submit the completed request to the USPTO.

Estimated Total Annual Respondent Burden Hours: 444 hours.

Estimated Total Annual Respondent Non-Hourly Cost Burden: \$0.
