Agency Information Collection Activities; Non-Federal Oil and Gas Operations on National Wildlife Refuge System Lands

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Fish and Wildlife Service (Service), are proposing to revise an existing collection of information.

DATES: Interested persons are invited to submit comments on or before August 1, 2022.

ADDRESSES: Send your comments on the information collection request (ICR) by one of the following methods (please reference "1018-0162" in the subject line of your comments):

- *Internet (preferred):* <http://www.regulations.gov>. Follow the instructions for submitting comments on Docket No. FWS-HQ-NWRS-2022-0063.

- *Email:* Info_Coll@fws.gov.
- *U.S. mail:* Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, 5275 Leesburg Pike, MS: PRB (JAO/3W), Falls Church, VA 22041-3803.

FOR FURTHER INFORMATION CONTACT: Madonna L. Baucum, Service Information Collection Clearance Officer, by email at Info_Coll@fws.gov, or by telephone at (703) 358-2503. Individuals in the United States who are

deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act (PRA) and its implementing regulations at 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed information collection request (ICR) that is described below. We are especially interested in public comments addressing the following issues: (1) Is the collection necessary to the proper functions of the Service; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Service enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Service minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to the Office of Management and Budget (OMB) to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The authority of the Service to regulate non-Federal oil and gas operations on National Wildlife Refuge System (NWRS) lands is broadly derived from the Property Clause of the United States Constitution (Art. IV, Sec. 3), in carrying out the statutory mandates of the Secretary of the

Interior, as delegated to the Service, to manage Federal lands and resources under the National Wildlife Refuge System Administration Act (NWRSA), as amended by the National Wildlife Refuge System Improvement Act (NWRRIA; 16 U.S.C. 668dd *et seq.*), and to specifically manage species within the NWRS under the provisions of numerous statutes, the most notable of which are the Migratory Bird Treaty Act (MBTA; 16 U.S.C. 715 *et seq.*), the Endangered Species Act (ESA; 16 U.S.C. 1531 *et seq.*), and the Fish and Wildlife Act of 1956 (FWA; 15 U.S.C. 742f).

The Service's regulations at 50 CFR, part 29, subpart D provide for the continued exercise of non-Federal oil and gas rights while avoiding or minimizing unnecessary impacts to national wildlife refuge resources and uses. Other land management agencies have regulations that address oil and gas development, including the Department of the Interior's National Park Service and Bureau of Land Management, and the U.S. Department of Agriculture's Forest Service. These agencies all require the submission of information similar to the information requested by the Service.

The collection of information is necessary for the Service to properly balance the exercise of non-Federal oil and gas rights within national wildlife refuge boundaries with the Service's responsibility to protect wildlife and habitat, water quality and quantity, wildlife-dependent recreational opportunities, and the health and safety of employees and visitors on NWRS lands.

The information collected under 50 CFR, part 29, subpart D identifies the owner and operator (the owner and operator can be the same) and details how the operator may access and develop oil and gas resources. It also identifies the steps the operator intends to take to minimize any adverse impacts of operations on refuge resources and uses. No information is submitted unless the operator wishes to conduct oil and gas operations.

We use the information collected to: (1) Evaluate proposed operations; (2) ensure that all necessary mitigation measures are employed to protect national wildlife refuge resources and values; and (3) ensure compliance with all applicable laws and regulations, including the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) and its regulations (40 CFR parts 1500-1508), and the NWRSA, as amended by the NWRRIA, and to specifically manage species within the NWRS under the provisions of numerous statutes, the most notable of which are the MBTA,

the ESA, the Fish and Wildlife Coordination Act (16 U.S.C. 661 *et seq.*), and the FWA.

Proposed Revisions

Automation of Application Form via ePermits

With this submission, we are proposing to automate FWS Form 3–2469 in the Service’s ePermits system, an automated permit application system that allows the agency to move towards a streamlined permitting process to reduce public burden. Public burden reduction is a priority for the Service; the Assistant Secretary for Fish, Wildlife, and Parks; and senior leadership at the Department of the Interior. The intent of ePermits is to fully automate the permitting process to improve the customer experience and to reduce time burden on respondents. This system enhances the user experience by allowing users to enter data from any device that has internet access, including personal computers (PCs), tablets, and smartphones. It also provides the permit applicant with a link to pay associated permit application fees via the *Pay.gov* system.

Financial Assurances Costs

With this submission, we will seek OMB approval of the costs associated with the financial assurances requirements as they are required per regulations contained in 50 CFR

29.103(b) and 50 CFR 29.150. These costs were inadvertently overlooked with previous submissions for this collection of information, so at this time we are bringing this requirement into compliance with the PRA as an annual non-hour burden cost. The estimated annual non-hour cost burden associated with the required financial assurances is captured below under “Total Estimated Annual Non-Hour Burden Cost.”

Proposed Changes to Application Form (FWS Form 3–2469)

We propose several changes to the existing FWS Form 3–2469 to improve the user collection experience and our internal processing requirements:

(1) Under the “Type of Permit” on page 1, we are adding these categories:

- a. “New”—Used by operators applying for a new permit to operate where no existing Form 3–2469 permit exists;
- b. “Renewal”—Used by operators with a currently approved permit to renew the operation without any substantial changes;
- c. “Amendment”—Used by an operator with an existing Form 3–2469 approved permit to amend their operations; and,
- d. “Extension”—Used by an operator with an existing Form 3–2469 approved permit to request an extension to one of its conditions (*e.g.*, extend the shut-in status of a well).

(2) Under the “Production Operations” on page 1, we are adding these sub-categories:

- a. “Maintenance”—Used for maintenance actions (*e.g.*, need to bring in a workover rig);
- b. “Plugging”—Used with plugging and abandoning of a well; and
- c. “Reclamation”—Used with all activities remove contaminated soils, equipment, pipe, etc., and restore the site to its original contours and vegetation.

(3) Under the “Contact Information” in Part 1 (on page 2), we propose to add two new questions:

- a. “Tax Identification Number”; and
- b. “Do you have operations on other refuges? If so, provide the names of those refuges.”
