Documentation prepared in support of this information collection request is available at www.reginfo.gov (this link becomes active on the day following publication of this notice). Select “Information Collection Review,” under “Currently Under Review,” use the dropdown menu “Select Agency” and select “Consumer Financial Protection Bureau” (recent submissions to OMB will be at the top of the list). The same documentation is also available at <http://www.regulations.gov>. Requests for additional information should be directed to Anthony May, Paperwork Reduction Act Officer, at (202) 841–0544, or email: CFPB_PRA@cfpb.gov. If you require this document in an alternative electronic format, please contact CFPB_Accessibility@cfpb.gov. Please do not submit comments to these email boxes.

SUPPLEMENTARY INFORMATION:

Title of Collection: Making Ends Meet Survey.

OMB Control Number: 3170–0066.

Type of Review: Request for approval of a generic information collection under an existing Generic Information Collection Plan.

Affected Public: Individuals or households.

Estimated Number of Respondents: 4,250.

Estimated Total Annual Burden Hours: 1,263.

Abstract: Under the Dodd-Frank Wall Street Reform and Consumer Protection Act, the Consumer Financial Protection Bureau is charged with researching, analyzing, and reporting on topics relating to the Bureau’s mission, including consumer behavior, consumer awareness, and developments in markets for consumer financial products and services. To improve its understanding of how consumers engage with financial markets, the Bureau has successfully used the Consumer Credit Panel (CCP), a proprietary sample dataset from one of the national credit reporting agencies, as a frame to survey people about their experiences in consumer credit markets. This series of surveys solicits information on the consumer’s experience related to household financial shocks, particularly shocks related to the economic effects of the COVID–19 pandemic, how households respond to those shocks, and the role of savings to help provide a financial buffer. Additional topics in this round of the survey include debt collection,

healthcare, housing, and financial decision-making, attitudes, and perspectives. The survey will go to a new random sample of consumers from the CCP. All research under this collection will be related to the household balance sheet, and, thus, will be for general, formative, and informational research on consumer financial markets and consumers’ use of financial products and will not directly provide the basis for specific policymaking at the Bureau.

Request for Comments: The Bureau is publishing this notice and soliciting comments directed to the Office of management and Budget on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information will have practical utility; (b) The accuracy of the Bureau’s estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be reviewed by OMB as part of its review of this request. All comments will become a matter of public record.

Special Request for Comments: The proposed survey contains more questions than the Bureau intends to mail, the Bureau solicits comments on which questions provide the most value. Comments submitted in response to this notice will be submitted to OMB as part of its review of this request. All comments will become a matter of public record.

Agency Information Collection Extension

AGENCY: U.S. Energy Information Administration (EIA), U.S. Department of Energy (DOE).

ACTION: Notice.

SUMMARY: EIA has submitted an information collection request for

extension as required by the Paperwork Reduction Act of 1995. The information collection requests a three-year extension of its Oil and Gas Reserves System Surveys, OMB No. 1905–0057: Extension without changes of Form EIA–64A, *Annual Report of the Origin of Natural Gas Liquids Production*; Revision of Form EIA–23L, *Annual Report of Domestic Oil and Gas Reserves, County Level Report*; and continued suspension of Form EIA–23S, *Annual Survey of Domestic Oil and Gas Reserves, Summary Level Report*. Form EIA–23L is the only form that EIA proposes to change. There are no proposed changes to Forms EIA–64A and EIA–23S. The proposed collection will be used to prepare electronic annual reports of U.S. proved reserves data that fulfill EIA’s congressional mandate to provide accurate annual estimates of U.S. proved crude oil and natural gas reserves. The U.S. Government also uses the resulting information in EIA’s reports to develop national and regional estimates of proved reserves of domestic crude oil and natural gas to facilitate national energy policy decisions.

DATES: Comments on this information collection must be received no later than July 6, 2022. If you anticipate that you will be submitting comments but find it difficult to do so within the period allowed by this notice, please advise the OMB Desk Officer of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at (202) 881–8585.

ADDRESSES: Written comments and recommendations for the information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

The forms and instructions are available on the EIA website at: Form EIA–23L, <https://www.eia.gov/survey/#eia-23l>; Form EIA–23S, <https://www.eia.gov/survey/#eia-23s>; Form EIA–64A, <https://www.eia.gov/survey/#eia-64a>

FOR FURTHER INFORMATION CONTACT: If you need additional information, contact Steven G. Grape, telephone (202) 586–1868, or by email at Steven.Grape@eia.gov.

SUPPLEMENTARY INFORMATION: This information collection request contains: (1) OMB No. 1905–0057; (2) *Information Collection Request Title:* Oil and Gas Reserves System;

(3) *Type of Request*: Three-year extension with changes; revision of the currently approved Form EIA–23L; extension without changes of Form EIA–64A; and continued suspension of collection of the currently approved Form EIA–23S;

(4) *Purpose*: In response to Public Law 95–91 Section 657, estimates of U.S. oil and gas reserves are to be reported annually. Many U.S. government agencies have an interest in proved oil and gas reserves and the quality, reliability, and usefulness of reserves estimates. Among these are the U.S. Energy Information Administration (EIA), Department of Energy; Bureau of Ocean Energy Management (BOEM), Department of Interior; Internal Revenue Service (IRS), Department of the Treasury; and the Securities and Exchange Commission (SEC). Each of these organizations has specific purposes for collecting, using, or estimating proved reserves. EIA has a congressional mandate to provide accurate annual estimates of U.S. proved crude oil, natural gas, and natural gas liquids reserves, and EIA presents annual reserves data in EIA reports to meet this requirement. The BOEM maintains estimates of proved reserves to carry out their responsibilities in leasing, collecting royalty payments, and regulating the activities of oil and gas companies on Federal lands and water. Accurate reserve estimates are important, as the BOEM is second only to the IRS in generating Federal revenue. For the IRS, proved reserves and occasionally probable reserves are an essential component of calculating taxes for companies owning or producing oil and gas. The SEC requires publicly traded petroleum companies to annually file a reserves statement as part of their 10–K filing. The basic purpose of the 10–K filing is to provide public investors with a clear and reliable financial basis to assess the relative value, as a financial asset, of a company's reserves, especially in comparison to other similar oil and gas companies. The Government also uses the resulting information to develop national and regional estimates of proved reserves of domestic crude oil and natural gas to facilitate national energy policy decisions. These estimates are essential to the development, implementation, and evaluation of energy policy and legislation. Data are used directly in EIA Web reports concerning U.S. crude oil and natural gas reserves, and are incorporated into a number of other Web reports and analyses;

(4a) *Changes to Information Collection*: EIA proposes to make the

following changes to Form EIA–23L, *Annual Report of Domestic Oil and Gas Reserves*:

- Schedule A of Form EIA–23L, which collected annual proved reserves and production data for four fuel types (crude oil, associated-dissolved natural gas, non-associated natural gas, and lease condensate) on a county-level basis will be changed to collect annual proved reserves and production data for two fuel types (crude oil plus lease condensate, and total natural gas) on a state/state subdivision-level basis.

- Schedule A of Form EIA–23L, which used three reservoir type codes (C—conventional, LP—low permeability, and SH—shale) to subdivide county-level proved reserves data within Schedule A will be changed to two separate report parts: Parts 4 and 5.

- Part 4 will list the combined total of annual proved reserves and production data on a state- and state subdivision-level basis

- Part 5 will separately list that portion of annual proved reserves and production sourced only from shale reservoirs on a state- and state subdivision-level basis.

- A fillable spreadsheet version of the new Form EIA–23L will replace the current PDF version of Form EIA–23L and its E-file software (the Reserves Information Gathering System (RIGS)).

Comments and Feedback are requested on these proposed changes to Form EIA–23L;

(5) *Annual Estimated Number of Respondents*: Forms EIA–23L/23S/64A: 1,100;

(6) *Annual Estimated Number of Total Responses*: Forms EIA–23L/23S/64A: 1,100;

(7) *Annual Estimated Number of Burden Hours*: 19,100 hours; Form EIA–23L *Annual Survey of Domestic Oil and Gas Reserves, State/State Subdivision report*: 31 hours average per response (500 operators): 15,500 hours total.

Form EIA–23S *Annual Survey of Domestic Oil and Gas Reserves, Summary Level Report*: 0 hours (Currently suspended).

Form EIA–64A *Annual Report of the Origin of Natural Gas Liquids Production*: 6 hours (600 natural gas plant operators): 3,600 hours total.

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden*: Forms EIA–23L/23S/64A: EIA estimates that there are no capital and start-up costs associated with this data collection. The information is maintained in the normal course of business. The cost of burden hours to the respondents is estimated to be \$1,592,558 (19,100 burden hours

times \$83.38 per hour). Therefore, other than the cost of burden hours, EIA estimates that there are no additional costs for generating, maintaining and providing the information.
