

Respondents: Businesses or other for-profits; State, Local, Tribal, or Federal Government.

Number of Respondents and Responses: 23,277 respondents; 167 responses.

Estimated Time per Response: 1 hour–150 hours.

Frequency of Response: On occasion and one-time reporting requirement.

Obligation to Respond: Mandatory and Voluntary. Statutory authority for this information collection is contained in 47 U.S.C. 151, 152, 154(i), 154(o), 301, 303(r), 303(v), 307, 309, 335, 403, 544(g), 606, 613, 1201, 1202, 1203, 1204 and 1206.

Total Annual Burden: 22,815 hours.

Total Annual Cost: No cost.

Privacy Act Impact Assessment: No Impact(s).

Nature and Extent of Confidentiality: There is no assurance of confidentiality associated with this collection of information.

Needs and Uses: This is a notification of OMB approval of a new information collection for two new regulations under the Commission's part 10 Wireless Emergency Alert (WEA) rules. No other information collections contained in the Commission's regulations will be impacted by the new rules described herein.

The WEA system is a mechanism under which Commercial Mobile Service (CMS) providers may elect to transmit emergency alerts to the public. The Commission created WEA (previously known as the Commercial Mobile Service Alert System) as required by Congress in the Warning Alert and Response Network (WARN) Act and to satisfy the Commission's mandate to promote the safety of life and property through the use of wire and radio communication.

On January 1, 2021, Congress passed the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (NDAA21). Section 9201 of the NDAA21 required the Commission to complete a rulemaking and adopt rules within 180 days to make certain changes to its WEA regulations (as well as to its separate Emergency Alert System (EAS) regulations governing broadcast, cable television, and direct satellite media emergency alerts).

With respect to the WEA rule changes, Section 9201 directed the Commission to ensure that the mobile devices of CMS providers that have elected to participate in WEA cannot opt out of receiving WEA alerts from the Federal Emergency Management Agency (FEMA) Administrator. Section 9201 also directed the Commission to enable

reporting by the FEMA Administrator and State, Tribal, local, and territorial governments of false WEA alerts. On June 21, 2021, the Commission released its NDAA21 Alerting Order, adopting the WEA and EAS changes directed by Congress in the NDAA21. The EAS changes are the subject of a different notice to be published separately.

The NDAA21 Alerting Order implemented Congresses' new directives for WEA, in part, with two new regulations that impose new burdens on respondents: the handset display update, and false alert reporting.

Handset Display Update

In the NDAA21 Alerting Order, the Commission combined the current non-optional class of WEA "Presidential Alerts" with FEMA Administrator Alerts into a newly renamed alert class named "National Alerts." Participating CMS providers that have chosen to display the phrase "Presidential Alert" on their handsets are required to either discontinue the handset's use of that phrase or change those displays to read "National Alert" by July 31, 2022. Network infrastructure that is technically incapable of meeting this requirement, such as legacy devices or networks that cannot be updated to support header display changes, are exempt from this requirement. The handset display changes are necessary to avoid confusion when wireless subscribers receive a non-optional emergency alert from the FEMA Administrator instead of the President.

The handset display update regulation is codified at 47 CFR 10.11(b).

False Alert Reporting

Also in the NDAA21 Alerting Order, the Commission adopted a rule permitting the FEMA Administrator or a State, local, Tribal, or territorial government to voluntarily report WEA false alerts to the FCC Operations Center at FCCOPS@fcc.gov, informing the Commission of the event and any relevant details. This rule creates a voluntary mechanism for a collection of information so that the Commission can monitor these false alert events which can undermine public confidence in the reliability of emergency alerting and WEA. Email reporting was adopted as a minimally-burdensome way for government entities to report false alerts.

The WEA false alert reporting regulation is codified at 47 CFR 10.520(d)(2).

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 11

[PS Docket Nos. 15-94, 15-91; FCC 21-77; FR ID 89691]

Emergency Alert System, Wireless Emergency Alerts; National Defense Authorization Act for Fiscal Year 2021

AGENCY: Federal Communications Commission.

ACTION: Final rule; announcement of compliance date.

SUMMARY: In this document, the Federal Communications Commission (Commission) announces that the Office of Management and Budget (OMB) has approved information collections associated with certain rules adopted in the Report and Order (NDAA21 Alerting Order). The Commission also announces that compliance with the rules is now required. The Commission also removes paragraphs advising that compliance was not required until OMB approval was obtained. This document is consistent with the NDAA21 Alerting Order and rules, which state the Commission will publish a document in the **Federal Register** announcing a compliance date for the rule sections and revise the rules accordingly.

DATES:

Effective date: These rules are effective June 6, 2022.

Compliance date: Compliance with 47 CFR 11.21 introductory text, (a) introductory text, and (a)(8) and 11.45(c), published at 86 FR 46783 on August 20, 2021, is required as of June 6, 2022.

FOR FURTHER INFORMATION CONTACT: Chris Fedeli, Attorney-Advisor, Public Safety and Homeland Security Bureau, Policy and Licensing Division at (202) 418-1514 or christopher.fedeli@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order (NDAA21 Alerting Order), FCC 21-77, in PS Dockets 15-91 and 15-94, released on June 17, 2021, published at 86 FR 46783 on August 20, 2021.

This document announces that OMB approved the information collection requirements contained in 47 CFR 11.21 introductory text, (a) introductory text, and (a)(8) and 11.45(c).

The Commission publishes this document as an announcement of the compliance date of the rules.

Separately, the Commission observes that some of the information collection requirements made effective by this notice are required to be filed with the Commission using the Alert Reporting System (ARS) on or by July 5, 2022. See Federal Communications Commission, Alert Reporting System Available for Filing of State Emergency Alert System Plans, 86 FR 35089 (July 1, 2021).

If you have any comments on the burden estimates listed below, or how the Commission can improve the collections and reduce any burdens caused thereby, please contact Nicole Ongele, Federal Communications Commission, 45 L Street NE, Washington, DC 20554, regarding OMB Control Numbers 3060-0207. Please include the relevant OMB Control Number in your correspondence. The Commission will also accept your comments via email at PRA@fcc.gov.

To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an email to fcc504@fcc.gov or call the Consumer and Governmental Affairs Bureau at (202) 418-0530 (voice).

Synopsis

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the FCC is notifying the public that it received OMB approval on April 14, 2022, for the information collection requirements contained in the Commission's rules at 47 CFR 11.21 introductory text, (a) introductory text, and (a)(8) and 11.45(c).

Under 5 CFR part 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number.

No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number.

The foregoing notification is required by the Paperwork Reduction Act of 1995, Public Law 104-13, October 1, 1995, and 44 U.S.C. 3507.

The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060-0207.

OMB Approval Date: April 14, 2022.

OMB Expiration Date: April 30, 2025.

Title: Part 11—Emergency Alert System (EAS), Order, FCC 21-77.

Form No.: N/A.

Number of Respondents and Responses: 63,084 respondents; 3,588,845 responses.

Estimated Time per Response: 0.017 hours–112 hours.

Frequency of Response: Annual, on occasion and one-time reporting requirements.

Obligation to Respond: Mandatory and Voluntary. Statutory authority for this information collection is contained in 47 U.S.C. 154(i) and 606 of the Communications Act of 1934, as amended.

Total Annual Burden: 141,414 hours.

Total Annual Cost: No Cost.

Privacy Act Impact Assessment: No Impact(s).

Nature and Extent of Confidentiality: The Commission shares aggregated and individual State Emergency Alert System (EAS) Plan data on a confidential basis with other Federal agencies and state governmental emergency management agencies that have confidentiality protection at least equal to that provided by the Freedom of Information Act.

Needs and Uses: Part 11 contains rules and regulations addressing the Nation's EAS. The EAS provides the President with the capability to provide immediate communications and information to the general public during periods of national emergency over broadcast television and radio, cable, direct broadcast radio and other EAS Participants, as defined in § 11.11(a) of the Commission's rules. The EAS also provides state and local governments and the National Weather Service with the capability to provide immediate communications and information to the public concerning emergency situations posing a threat to life and property. Part 11 includes testing requirements to

ensure proper and efficient operation of the EAS. State and local use of the EAS, alert processing requirements, and monitoring assignments covering the distribution of EAS alerts within the state, among other things, are required to be described in State EAS Plans that are administered by State Emergency Communications Committees (SECC) and submitted to the FCC annually for approval.

The NDAA Alerting Order, pursuant to the directions set forth in Section 9201 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021, Public Law 116-283, 134 Stat. 3388, section 9201 (NDAA21), among other things, (i) requires the Public Safety and Homeland Security Bureau (Bureau) to establish a State EAS Plan Content Checklist composed of the content set forth in § 11.21 of the Commission's rules, 47 CFR 11.21, post the checklist on the FCC's website, and incorporate it as an appendix in the ARS user manual; (ii) amends the State EAS Plan requirements in § 11.21 of the Commission's rules to ensure plans are updated annually, require a certification by the SECC Chairperson or Vice-Chairperson that the SECC met (in person, via teleconference, or via other methods of conducting virtual meetings) at least once in the twelve months prior to submitting the annual updated plan, and require that the Bureau approve or reject State EAS Plans submitted for approval within 60 days of receipt; and (iii) requires the Bureau to list the approval dates of State EAS Plans submitted on ARS on the Commission's website, and in the event a final decision is made to deny a plan, directly notify the chief executive of the State to which the plan applies of that determination and the reasons for such denial within 30 days of such decision. The Order also amends § 11.45 of the part 11 rules to enable voluntary reporting to the Commission by the FEMA Administrator and Tribal, State, local, and territorial governments of false EAS alerts.

The Commission notifies the public of OMB approval of these rule amendments as a modification of a previously approved information collection. Congress has determined that EAS rule changes are necessary to increase oversight over the distribution of state and local EAS alerts within states and to increase false alert reporting capabilities to help ameliorate confusion or other harmful effects that might result from false EAS alerts. The internal State EAS Plan processing requirements and rule changes adopted in the Order will improve State EAS

Plan processing and administration, thereby improving the capabilities and efficacy of EAS as a national system for distributing vital alert information to all Americans in a cost-effective manner.

The following information collections contained in part 11 may be impacted by the rule amendments described herein.

State EAS Plans (47 CFR 11.21)

The establishment of a State EAS Plan Content Checklist for SECCs should have no impact or lessen SECC burdens, and posting it on the FCC's website, and incorporating it as an appendix in the ARS user manual, are routine Bureau activities. The requirement to ensure State EAS Plans are updated annually already was contained in § 11.21, and thus does not represent a new burden.

The requirement that the State EAS Plan include a certification (which will be incorporated into the ARS) by the SECC Chairperson or Vice-Chairperson that the SECC met (in person, via teleconference, or via other methods of conducting virtual meetings) at least once in the twelve months prior to submitting the annual updated plan to review and update its State EAS Plan should promote added diligence in SECC administration of State EAS Plans. The Commission estimates the burden to SECC members in complying with this requirement to be two hours per member.

The rule amendment requiring the Bureau approve or reject State EAS Plans submitted for approval within 60 days of receipt does not impose new burdens on any entity. The Bureau already is charged with reviewing State EAS Plans. The internal requirement that the Bureau list the approval dates of State EAS Plans submitted on ARS on the Commission's website, and in the event a final decision is made to deny a plan, to directly notify the chief executive of the State to which the plan applies of that determination and the reasons for such denial within 30 days, does not impose new burdens on any entity. The Bureau already maintains a web page on the Commission's website dedicated to SECC and State EAS Plan information.

False EAS Alert Reporting (47 CFR 11.45)

The amendment enabling the FEMA Administrator and Tribal, State, local, and territorial governments to file reports of false EAS alerts provides another mechanism for the Commission to receive information concerning false EAS alerts and does not impose burdens on any entity. Should any permitted government entity voluntarily elect to

file a false EAS alert report, the burden associated with this provision amounts to composing an email, which the Commission estimates will take an hour or less to prepare, and falls within the routine activities of government employees. False alert reports help the Commission to identify, investigate, correct and prevent false EAS activations, which enhances the EAS's efficacy and the public trust in the EAS.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 220413–0094]

RIN 0648–BL28

Pacific Halibut Fisheries; Catch Sharing Plan

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary final rule.

SUMMARY: NMFS issues regulations to remove limits on the maximum amount of halibut individual fishing quota (IFQ) that may be harvested by a vessel, commonly known as vessel use caps, in IFQ regulatory Areas 4A (Eastern Aleutian Islands), 4B (Central and Western Aleutian Islands), 4C (Central

Bering Sea), and 4D (Eastern Bering Sea). This action is needed to provide additional flexibility to IFQ participants in 2022 to ensure allocations of halibut IFQ can be harvested by the limited number of vessels operating in these areas. This action is within the authority of the Secretary of Commerce to establish additional regulations governing the taking of halibut that are in addition to, and not in conflict with, those adopted by the International Pacific Halibut Commission (IPHC). This action is intended to promote the goals and objectives of the IFQ Program, the Northern Pacific Halibut Act of 1982 (Halibut Act), and other applicable laws.

DATES: Effective June 6, 2022, through December 31, 2022.

ADDRESSES: Electronic copies of the Categorical Exclusion and the Regulatory Impact Review (herein referred to as the “Analysis”) prepared for this action are available from www.regulations.gov or from the NMFS Alaska Region website at <https://www.fisheries.noaa.gov/region/alaska>.

FOR FURTHER INFORMATION CONTACT: Abby Jahn, 907–586–7228.

SUPPLEMENTARY INFORMATION:

Background

This final rule implements regulations for the 2022 IFQ fishing year to temporarily remove vessel use caps in Areas 4A, 4B, 4C, and 4D and exclude harvest of IFQ halibut in 2022 from the calculation of vessel use caps in IFQ regulatory Areas 2C, 3A, or 3B. The existing vessel use caps were recommended by the North Pacific Fishery Management Council (Council) and implemented by NMFS as part of the IFQ Program (58 FR 59375; November 9, 1993) as regulations that were in addition to, and not in conflict with, those adopted by the IPHC, consistent with the Halibut Act (16 U.S.C. 773c(c)). The following sections describe the IFQ Program; halibut IFQ vessel use caps; the rationale for and effects from temporarily removing vessel use caps in Areas 4A, 4B, 4C, and 4D; and the regulations implemented under this final rule.

IFQ Program

Commercial halibut and sablefish fisheries in Alaska are subject to regulation under the IFQ Program and the CDQ Program (50 CFR part 679). A key objective of the IFQ Program is to support the social and economic character of the fisheries and the coastal fishing communities where many of these fisheries are based. For more information about the IFQ Program, please refer to Section 2.4 of the
