DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Carrier's Report of Issuance of Policy

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Office of Workers' Compensation Programs (OWCP)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995

(PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before July 11, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT:

Nicole Bouchet by telephone at 202-693-0213, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The Office of Workers' Compensation Programs administers the Longshore and Harbor Workers' Compensation Act. The Act provides benefits to workers injured in maritime employment on the navigable waters of the United States or in an adjoining area customarily used by an employer in loading, unloading, repairing, or building a vessel. In addition, several acts extend the Longshore Act's coverage to certain other employees.

Authorized insurance carriers are required to report the issuance of policies and endorsements under the Longshore and Harbor Workers' Compensation Act and its extensions, the Defense Base Act, Outer Continental Shelf Lands Act and Non-Appropriated Fund Instrumentalities Act, to the Department of Labor's OWCP. Carriers use the form LS-570 for this purpose. Filing the Form LS-570 with OWCP's Division of Federal Employees', Longshore and Harbor Workers' Compensation binds the carrier to full liability for the named employer's obligations under the Act or its extensions.

Legal authority for this information collection is found at 33 U.S.C. 932(a)

and 33 U.S.C. 939 and regulatory authority is found at 20 CFR 703.116 and 20 CFR 703.118. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on January 20, 2022 (87 FR 3127).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Information Collection Activities; Comment Request

AGENCY: Bureau of Labor Statistics, Department of Labor.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an

opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed extension of the "Census of Fatal Occupational Injuries." A copy of the proposed information collection request can be obtained by contacting the individual listed below in the **ADDRESSES** section of this notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section of this notice on or before August 9, 2022.

ADDRESSES: Send comments to Nora Kincaid, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue NE, Washington, DC 20212. Written comments also may be transmitted by email to BLS_PRA_Public@bls.gov.

FOR FURTHER INFORMATION CONTACT: Nora Kincaid, BLS Clearance Officer, at 202-691-7628 (this is not a toll free number). (See **ADDRESSES** section.)

SUPPLEMENTARY INFORMATION:

I. Background

The Bureau of Labor Statistics (BLS) was delegated responsibility by the Secretary of Labor for implementing Section 24(a) of the Occupational Safety and Health Act of 1970. This section states that "the Secretary shall compile accurate statistics on work injuries and illnesses which shall include all disabling, serious, or significant injuries and illnesses . . ."

Prior to the implementation of the Census of Fatal Occupational Injuries (CFOI), the BLS generated estimates of occupational fatalities for private sector employers from a sample survey of about 280,000 establishments. Studies showed that occupational fatalities were underreported in those estimates as well as in those compiled by regulatory, vital statistics, and workers' compensation systems. Estimates prior to the CFOI varied widely, ranging from 3,000 to 10,000 fatal work injuries annually. In addition, information needed to develop prevention strategies were often missing from these earlier programs.

In the late 1980s, the National Academy of Sciences study, *Counting*

Injuries and Illnesses in the Workplace, and another report, *Keystone National Policy Dialogue on Work-Related Illness and Injury Recordkeeping*, emphasized the need for the BLS to compile a complete roster of work-related fatalities because of concern over the accuracy of using a sample survey to estimate the incidence of occupational fatalities. These studies also recommended the use of all available data sources to compile detailed information for fatality prevention efforts.

The BLS tested the feasibility of collecting fatality data in this manner in 1989 and 1990. The resulting CFOI was implemented in 32 states in 1991. National data covering all 50 states, New York City, the District of Columbia, and three U.S. Territories have been compiled and published annually since 1992.

The CFOI compiles comprehensive, accurate, and timely information on work-injury fatalities needed to develop effective prevention strategies. The system collects information concerning the incident, demographic information of the deceased, and characteristics of the employer.

Data are used to:

- Develop employee safety training programs.
- Develop and assess the effectiveness of safety standards.
- Conduct research for developing prevention strategies.

In addition, state partners use the data to publish state reports, to identify state-specific hazards, to allocate resources for promoting safety in the workplace, and to evaluate the quality of work life in the state.

II. Current Action

Office of Management and Budget clearance is being sought for the Census of Fatal Occupational Injuries.

In 2019 and 2020, 5,333 (pre-pandemic) and 4,764 (pandemic) workers, respectively, lost their lives because of fatal work injuries. This official systematic, verifiable count mutes controversy over the various counts from different sources. The CFOI count has been adopted by the National Safety Council and other organizations as the sole source of a comprehensive count of fatal work injuries for the U.S. If this information were not collected, confusion over the number and patterns in fatal occupational injuries would hamper prevention efforts. By providing timely occupational fatality data, the CFOI provides safety and health managers the information necessary to respond to emerging workplace hazards.

During 2020, BLS national office responded to 148 requests for CFOI data from various organizations. (This figure excludes requests received by states for state-specific data.) In addition, the CFOI page of the BLS website averaged about 7,015 users per month in 2020.

National office staff also responded to numerous requests from safety organizations for staff members to participate in safety conferences and seminars. The CFOI research file, made available to safety and health groups, is being used by 12 organizations. Study topics include fatalities by worker demographic category (young workers, older workers, Hispanic workers); by occupation or industry (construction workers, police officers, firefighters, landscaping workers, workers in oil and gas extraction); by event (heat-related fatalities, fatalities from workplace violence, suicides, falls from ladders); or other research such as safety and health program effectiveness and the impact of fatality risk on wages. A current list of research articles and reports that include CFOI data can be found at: <http://www.bls.gov/iif/publications.htm>.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Title of Collection: Census of Fatal Occupational Injuries.

OMB Number: 1220-0133

Type of Review: Extension.

Affected Public: Federal government; Individuals or households; Private sector (Business or other for-profits, Not-for-profit institutions, Farms); State, local, or tribal governments.

Form	Total respondents	Frequency	Total responses	Average time per response (minutes)	Estimated total burden (hours)
Form BLS CFOI-1	334	On Occasion	334	20	111
Source Documents	227	On Occasion	15,476	10	2,648
Totals	561	15,810	2,759

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, on June 3, 2022.
