

and label it as “Confidential Business Information” (CBI). If a person making comments wants EPA to base its decision in part on a submission labeled CBI, then a non-confidential version of the document that summarizes the key data or information should be submitted for the public docket. To ensure that proprietary information is not inadvertently placed in the docket, submissions containing such information should be sent directly to the contact person listed above and not to the public docket. Information covered by a claim of confidentiality will be disclosed by EPA only to the extent allowed and by the procedures set forth in 40 CFR part 2. If no claim of confidentiality accompanies the submission when EPA receives it, EPA will make it available to the public without further notice to the person making comments.

Sarah Dunham,

Director, Office of Transportation and Air Quality, Office of Air and Radiation.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL 9921-01-OA]

Request for Nominations for a Science Advisory Board Panel on BenMAP and Benefits Methods

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) Science Advisory Board (SAB) Staff Office is expanding its request for nominations previously announced on April 5, 2022. The EPA SAB Staff Office previously requested nominations of scientific experts to form a panel to review EPA’s new cloud-based Environmental Benefits and Mapping (BenMAP) tool, an open-source computer program that calculates estimated air pollution-related deaths and illnesses and their associated economic values. In that notice, the SAB Staff Office indicated its intention to announce a separate panel that would address the approach EPA takes for selecting and applying evidence in its PM_{2.5} and Ozone (O₃) benefits assessments. Because the two panels would require substantially similar expertise, the SAB Staff Office has now determined that it is appropriate to combine them into a single panel with a more comprehensive charge. The Science Advisory Board Staff Office is

soliciting additional candidates to complement those nominated for the review of BenMAP.

DATES: Nominations should be submitted by June 27, 2022 per the instructions below.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing further information regarding this Notice and request for nominations may contact Dr. Bryan Bloomer, Designated Federal Officer (DFO), EPA Science Advisory Board via telephone/voice mail (202) 564-4222, or email at bloomer.bryan@epa.gov. General information concerning the EPA SAB can be found at <https://sab.epa.gov>. For information concerning EPA’s technical support document, please contact Mr. Neal Fann via telephone/voice mail at (919) 541-0209 or email at fann.neal@epa.gov.

SUPPLEMENTARY INFORMATION:

Background: The SAB (42 U.S.C. 4365) is a chartered Federal Advisory Committee that provides independent scientific and technical peer review, advice, and recommendations to the EPA Administrator on the technical basis for EPA actions. As a Federal Advisory Committee, the SAB conducts business in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C. App. 2) and related regulations. The SAB Staff Office is forming an expert panel, the SAB BenMAP and Benefits Methods Panel, under the auspices of the Chartered SAB. The BenMAP and Benefits Methods Panel will provide advice through the chartered SAB. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

The SAB BenMAP and Benefits Methods Panel will conduct the review of EPA’s BenMAP tool as described previously in 87 FR 19680–19681. BenMAP is an open-source computer program that calculates the number and economic value of air pollution-related deaths and illnesses. In addition, the SAB BenMAP and Benefits Methods Panel will review EPA’s technical support document *Estimating PM_{2.5}- and Ozone-Attributable Health Benefits* as requested by the EPA’s Office of Air and Radiation. Collectively, the SAB BenMAP and Benefits Methods Panel will review both EPA’s approach for selecting and applying the evidence used to quantify and monetize air pollution-related effects and how the BenMAP tool performs these calculations. With today’s notice, the SAB Staff Office is expanding its solicitation of April 5, 2022 (87 FR 19680–19681) so that a broader panel, the BenMAP and Benefits Methods

Panel, can also review EPA’s selection of human health endpoints, risk estimates and monetized values in an air pollution benefits assessment, as well as the agency’s characterization of uncertainty inherent in EPA benefits assessments. These additional topics will be in combination with the panel’s review of the BenMAP tool.

Request for Nominations: The SAB Staff Office is seeking nominations of nationally and internationally recognized scientists with demonstrated expertise in the following disciplines: air pollution epidemiology; biostatistics; risk assessment; demographics; public health data science; uncertainty analysis; and environmental economics, particularly, the valuation of benefits from pollution reductions. The SAB Staff Office is seeking nominees from the listed disciplines above, with expertise that emphasizes the health effects of air pollution and the development of economic values for reductions in air pollution.

Process and Deadline for Submitting Nominations: Any interested person or organization may nominate qualified individuals in the areas of expertise described above for possible service on the SAB panel. Individuals may self-nominate. Nominations should be submitted in electronic format (preferred) using the online nomination form on the SAB website at <https://sab.epa.gov> (see the “Public Input on Membership” list under “Committees, Panels, and Membership” following the instructions for “Nominating Experts to Advisory Panels and Ad Hoc Committees Being Formed,” provided on the SAB website (see the “Nomination of Experts” link under “Current Activities” at <https://sab.epa.gov>). To be considered, nominations should include the information requested below. EPA values and welcomes diversity. All qualified candidates are encouraged to apply regardless of sex, race, disability, or ethnicity. Nominations should be submitted in time to arrive no later than June 27, 2022.

The following information should be provided on the nomination form: contact information for the person making the nomination; contact information for the nominee; and the disciplinary and specific areas of expertise of the nominee. Nominees will be contacted by the SAB Staff Office and will be asked to provide a recent curriculum vitae and a narrative biographical summary that include the following: current position, educational background; research activities; sources of research funding for the last two years; and recent service on other

national advisory committees or national professional organizations. Persons having questions about the nomination procedures, or who are unable to submit nominations through the SAB website, should contact the DFO at the contact information noted above. The names and biosketches of qualified nominees identified by respondents to this **Federal Register** Notice, and additional experts identified by the SAB Staff Office, will be posted in a List of Candidates for the panel on the SAB website at <https://sab.epa.gov>. Public comments on the List of Candidates will be accepted for 21 days. The public will be requested to provide relevant information or other documentation on nominees that the SAB Staff Office should consider in evaluating candidates.

For the EPA SAB Staff Office, a balanced review panel includes candidates who possess the necessary domains of knowledge, the relevant scientific perspectives (which, among other factors, can be influenced by work history and affiliation), and the collective breadth of experience to adequately address the charge. In forming the expert panel, the SAB Staff Office will consider public comments on the Lists of Candidates, information provided by the candidates themselves, and background information independently gathered by the SAB Staff Office. Selection criteria to be used for panel membership include: (a) scientific and/or technical expertise, knowledge, and experience (primary factors); (b) availability and willingness to serve; (c) absence of financial conflicts of interest; (d) absence of an appearance of a loss of impartiality; (e) skills working in committees, subcommittees and advisory panels; and (f) for the panel as a whole, diversity of expertise and scientific points of view.

The SAB Staff Office's evaluation of an absence of financial conflicts of interest will include a review of the "Confidential Financial Disclosure Form for Environmental Protection Agency Special Government Employees" (EPA Form 3110-48). This confidential form is required and allows government officials to determine whether there is a statutory conflict between a person's public responsibilities (which include membership on an EPA federal advisory committee) and private interests and activities, or the appearance of a loss of impartiality, as defined by federal regulation. The form may be viewed and downloaded through the "Ethics Requirements for Advisors" link on the SAB website at <https://sab.epa.gov>. This

form should not be submitted as part of a nomination.

The approved policy under which the EPA SAB Office selects members for subcommittees and review panels is described in the following document: *Overview of the Panel Formation Process at the Environmental Protection Agency Science Advisory Board* (EPA-SAB-EC-02-010), which is posted on the SAB website at <https://sab.epa.gov>.

Thomas H. Brennan,

Director, Science Advisory Board Staff Office.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0506 and OMB 3060-0938; FR ID 90817]

Information Collections Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before August 12, 2022. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0506.

Title: FCC Form 2100, Schedule 302-FM—FM Station License Application.

Form Number: FCC Form 2100, Schedule 302-FM.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions.

Number of Respondents and Responses: 925 respondents; 925 responses.

Estimated Time per Response: 1-2 hours.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 3,135 hours.

Total Annual Costs: \$801,500.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in Sections 154(i), 303 and 308 of the Communications Act of 1934, as amended.

Needs and Uses: The Commission adopted the *FM Broadcast Directional Antenna Performance Verification Order, FCC 22-38*, adopted May 19, 2022, and released on May 19, 2022, where the Commission revised its broadcast radio rules and procedures to allow for FM antenna directional pattern verification by computer modeling. This represents an update from the previous requirement that an FM or LPFM directional antenna's performance be verified by the "measured relative field pattern" and brings our rules for those services into regulatory conformity with our rules governing AM and DTV directional antennas. The Commission expects that this change in how the antenna manufacturer may validate its FM directional antenna studies would provide an FM license applicant with greater flexibility in antenna siting and reduce the overall costs of designing and building an FM directional antenna, and station construction.
