

qualifies and how and to what degree this rule would economically affect it.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

C. Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132 (Federalism), if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this proposed rule does not have tribal implications under Executive Order 13175 (Consultation and Coordination with Indian Tribal Governments) because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this proposed rule has implications for federalism or Indian tribes, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this

proposed rule will not result in such an expenditure, we do discuss the effects of this proposed rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning Policy COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f). The Coast Guard has determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule promulgates the operating regulations or procedures for drawbridges. Normally such actions are categorically excluded from further review, under paragraph L49, of Chapter 3, Table 3–1 of the U.S. Coast Guard Environmental Planning Implementation Procedures.

Neither a Record of Environmental Consideration nor a Memorandum for the Record are required for this rule. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

C. Privacy

DOT solicits comments from the public to better inform its regulatory process, in accordance with 5 U.S.C. 553(c). DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL 14—Federal Docket Management System), which can be reviewed at <https://www.govinfo.gov/content/pkg/FR-2008-01-17/pdf/E8-785.pdf>.

II. Background

The January 24, 2022, NPRM (87 FR 3489) requested public comment on proposed reductions in the annual registration fees collected from motor carriers, motor private carriers of property, brokers, freight forwarders, and leasing companies for the UCR Plan and Agreement for the 2023 registration year and subsequent registration years.

The comment period for the NPRM closed on February 23, 2022. After that date, FMCSA contacted the UCR Plan and requested additional information to aid Agency deliberations and decision making in response to a comment submitted to the NPRM. The UCR Plan provided the requested information, and FMCSA placed both its request and the UCR Plan's response in the docket. FMCSA received a request from OOIDA

to reopen the comment period.¹ OOIDA requested the comment period be reopened for “no less than 60 days” to allow for review and comment on the response submitted by the UCR Plan. The information submitted by the UCR Plan is clearly related to the recommendation for an adjustment in the fees submitted by the UCR Plan, and the comments already received from OOIDA and others. The Agency is limiting the reopening to 14 days so that it can quickly finalize a rule adjusting UCR Plan and Agreement fees prior to the opening of the registration period on October 1, 2022, for the next registration year beginning on January 1, 2023. Accordingly, FMCSA reopens the comment period until June 28, 2022 for the limited purpose of receiving comments on the data and information submitted by the UCR Plan in its response dated May 9, 2022.

Deputy Administrator.

SUPPLEMENTARY INFORMATION:

Background

Migratory game birds are those bird species so designated in conventions between the United States and several foreign nations for the protection and management of these birds. Under the Migratory Bird Treaty Act (16 U.S.C. 703–712), the Secretary of the Interior is authorized to determine when “hunting, taking, capture, killing, possession, sale,

purchase, shipment, transportation, carriage, or export of any such bird, or any part, nest, or egg” of migratory game birds can take place and to adopt regulations for this purpose. These regulations, which are updated annually, must give due regard to “the zones of temperature and to the distribution, abundance, economic value, breeding habits, and times and lines of migratory flight of such birds” (16 U.S.C. 704(a)). The Secretary of the Interior has delegated to the Service the lead Federal responsibility for managing and conserving migratory birds in the United States; however, migratory bird management is a cooperative effort of Federal, State, and Tribal governments.

Special Migratory Bird Hunting Regulations for Indian Tribes

In response to Tribal requests for recognition of their reserved hunting rights and, for some Tribes, recognition of their authority to regulate hunting by both Tribal and nontribal members on their reservations, the Service developed guidelines for establishing special migratory bird hunting regulations for Indian Tribes (53 FR 31612, August 18, 1988). The guidelines include possibilities for:

(1) On-reservation hunting by both Tribal and nontribal members, with hunting by nontribal members on some reservations to take place within Federal frameworks but on dates different from those selected by the surrounding State(s);

(2) On-reservation hunting by Tribal members only, outside of the usual Federal frameworks for season dates and length, and for daily bag and possession limits; and

(3) Off-reservation hunting by Tribal members on ceded lands, outside of usual framework dates and season length, with some added flexibility in daily bag and possession limits.

In all cases, the regulations established under the guidelines must be consistent with the closed season on migratory game birds between March 10 and September 1 (exclusive of these dates) mandated by the 1916 Convention between the United States and Great Britain (for Canada/cackling geese) for the Protection of Migratory Birds (Treaty). The guidelines apply to those Tribes having recognized reserved hunting rights on Federal Indian reservations (including off-reservation trust lands) and on ceded lands. They also apply to establishing migratory bird hunting regulations for nontribal members on all lands within the exterior boundaries of reservations where Tribes have full wildlife management authority over such
