Kevin K. Lee, Project Manager, Division of Engineering Sciences, U.S. Consumer Product Safety Commission, 5 Research Place, Rockville, MD 20850; telephone: (301) 987–2086; email: klee@cpsc.gov.

SUPPLEMENTARY INFORMATION: Section 104(b) of the Consumer Product Safety Improvement Act of 2008 (CPSIA) requires the Commission to adopt mandatory standards for durable infant or toddler products. 15 U.S.C. 2056a(b)(1). Mandatory standards must be “substantially the same as” voluntary standards, or may be “more stringent” than voluntary standards, if the Commission determines that more stringent requirements would further reduce the risk of injury associated with the products. *Id.* Mandatory standards may be based, in whole or in part, on a voluntary standard.

Pursuant to section 104(b)(4)(B) of the CPSIA, if a voluntary standards organization revises a standard that has been adopted, in whole or in part, as a consumer product safety standard under CPSIA section 104, it must notify the Commission. The revised voluntary standard then shall be considered to be a consumer product safety standard issued by the Commission under section 9 of the Consumer Product Safety Act (15 U.S.C. 2058), effective 180 days after the date on which the organization notifies the Commission (or a later date specified by the Commission in the **Federal Register**) unless, within 90 days after receiving that notice, the Commission responds to the organization that it has determined that the proposed revision does not improve the safety of the consumer product covered by the standard, and therefore, the Commission is retaining its existing

mandatory consumer product safety standard. 15 U.S.C. 2056a(b)(4)(B).

Under this authority, in 2015 the Commission issued a mandatory safety rule for frame child carriers. The rulemaking created 16 CFR part 1230, which incorporated by reference ASTM F2549–14a, Standard Consumer Safety Specification for Frame Child Carriers. 80 FR 11121 (Mar. 2, 2015). The mandatory standard included performance requirements and test methods, as well as requirements for warning labels and instructions, to address hazards to children associated with frame child carriers. The voluntary standard has not been revised since promulgation of the final rule.

In May 2022, ASTM published a revised version of the incorporated voluntary standard. On June 6, 2022, ASTM notified the Commission that it had approved the revised version of the voluntary standard. CPSC staff is assessing the revised voluntary standard to determine, consistent with section 104(b)(4)(B) of the CPSIA, its effect on the safety of consumer products covered by the standard. The Commission invites public comment on that question to inform Staff's assessment and any subsequent Commission consideration of the revisions in ASTM F2549–22.¹

The existing voluntary standard and the revised voluntary standard are available for review in several ways. ASTM has provided on its website (<https://www.astm.org/CPSC.htm>), at no cost, a read-only copy of ASTM F2549–22 and a red-lined version that identifies the changes made to ASTM F2549–14a. Likewise, a read-only copy of the existing, incorporated standard is available for viewing, at no cost, on the ASTM website at: <https://www.astm.org/READINGLIBRARY/>. Interested parties can also download copies of the standards by purchasing them from ASTM International, 100 Barr Harbor Drive, P.O. Box C700, West Conshohocken, PA 19428–2959; phone: 610–832–9585; <https://www.astm.org>. Alternatively, interested parties can schedule an appointment to inspect copies of the standards at CPSC's Division of the Secretariat, U.S. Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814, telephone: 301–504–7479; email: cpsc-os@cpsc.gov.

Comments must be received by June 30, 2022. Because of the short statutory time frame Congress established for the Commission to consider revised

voluntary standards under section 104(b)(4) of the CPSIA, CPSC will not consider comments received after this date.

Secretary, Consumer Product Safety
Commission.

[Project No. 15275–000]

Joe Stephens; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On May 31, 2022, Mr. Joe Stephens
filed an application for a preliminary
permit, pursuant to section 4(f) of the
Federal Power Act (FPA), proposing to
study the feasibility of the Joe Stephens
Small Hydroelectric Power #1 (Small
Hydroelectric Power #1 or project) to be
located on the east coast of Baranof
Island, near Sitka, Alaska. The sole
purpose of a preliminary permit, if
issued, is to grant the permit holder
priority to file a license application
during the permit term. A preliminary
permit does not authorize the permit
holder to perform any land-disturbing
activities or otherwise enter upon lands
or waters owned by others without the
owners' express permission.

The proposed project would consist of
the following: (1) a lake with a surface
area of 148 acres, having a total storage
capacity of 45,000,000 cubic-feet at a
normal maximum operating elevation of
460 feet above mean sea level (msl); (2)
an intake structure at a set distance
below the lake level that will limit the
amount of potential draw down; (3) an
approximately 1,000 foot penstock
(engineering specifications still to be
determined); (4) a power house; (5) a
single 500-kW turbine; (6) an
approximately 100 foot tailrace conduit
connecting the turbine outlet with
Nelson Bay; (7) a charging station that
will supply power to floating vessels in
the vicinity of the project; and (8)
appurtenant facilities.

The estimated annual generation of
the Project would be 4,104 MW-hr.
