II. General Background on the Application

CSA submitted an application, dated September 24, 2021 (OSHA–2006–0042–0027), to expand the recognition to include four additional test standards. This notice covers the requested expansion to include UL 121201 only. The remaining standards in that application will be covered in a future notice. The standard requested in the expansion application and addressed here is a replacement standard for ISA 12.12.01, which is currently included in CSA’s NRTL scope of recognition. OSHA staff performed a detailed analysis of the application packet and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application.

Table 1, below, lists one appropriate test standard found in CSA’s application for expansion for testing and certification of products under the NRTL Program.

III. Preliminary Findings on the Application

CSA submitted an acceptable application for expansion of the scope of recognition. OSHA’s review of the application file, and pertinent documentation, indicate that CSA has met the requirements prescribed by 29 CFR 1910.7 for expanding the recognition to include the addition of the one test standard for NRTL testing and certification listed in Table 1. This preliminary finding does not constitute an interim or temporary approval of CSA’s application. OSHA seeks comment on this preliminary determination.

IV. Public Participation

OSHA welcomes public comment as to whether CSA meets the requirements of 29 CFR 1910.7 for expansion of recognition as a NRTL. Comments should consist of pertinent written documents and exhibits.

Comments need not be submitted in writing, stating the reasons for the request by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer time period. OSHA may deny a request for an extension if it is not adequately justified.

To review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor. These materials also are generally available online at https://www.regulations.gov under Docket No. OSHA–2006–0042 (for further information, see the “Docket” heading in the section of this notice titled ADDRESSES). OSHA staff will review all comments to the docket submitted in a timely manner. After addressing the issues raised by these comments, staff will make a recommendation to the Assistant Secretary of Labor for Occupational Safety and Health on whether to grant CSA’s application for expansion of the scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of the final decision in the Federal Register.
