June 2021, the Commission adopted a Second Report and Order, WC Docket No. 18-213 (FCC 21-74), that provided guidance on eligible services, competitive bidding, invoicing, and data reporting for Pilot Program participants. The information collected herein is necessary to meet the specific requirements for information that must be submitted as part of the annual and final reports to the Commission as outlined in the *Second Connected Care Report and Order*, and for the Commission to receive and evaluate data for the selected projects and ensure compliance with the Commission's rules and procedures

applicable to the Connected Care Pilot Program. This submission does not make any changes to the previously approved information collections for the COVID-19 Telehealth Program and some of the previously approved requirements for the Pilot Program.

General Description of Collection: The Community Reinvestment Act regulation requires the FDIC to assess the record of banks and thrifts in helping meet the credit needs of their entire communities, including low- and moderate-income neighborhoods, consistent with safe and sound operations; and to take this record into account in evaluating applications for mergers, branches, and certain other corporate activities. There is no change in the method or substance of the collection. The overall decrease in burden hours is a result of decreases in

the estimated number of respondents. On June 3, 2022, the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System and the FDIC (the “Agencies”) published a proposal to amend the Agencies’ Community Reinvestment Act regulations.¹ The agencies are expecting comments from the industry and other concerned parties which will be considered and addressed when a final rule is issued. The FDIC does not wish to discontinue this information collection while the proposed revisions are considered and a new rule is issued

and is, therefore, extending its Community Reinvestment Act information collection as-is, without revision, to preserve its validity.

Source: FDIC.

General Description of Collection: FDIC’s regulations at 12 CFR part 363 establish annual independent audit and reporting requirements for financial institutions with total assets of \$500 million or more. The requirements include the submission of an annual report on their financial statements, recordkeeping about management deliberations regarding external

auditing and reports about changes in auditors. The information collected is used to facilitate early identification of problems in financial management at financial institutions. There is no change in the substance or methodology of this information collection. The overall increase in burden hours is a result of the increase in the estimated number of respondents with

consolidated total assets greater than \$500 million.

3. *Title:* Funding and Liquidity Risk Management.

OMB Number: 3064–0174.

Form Number: None.

Affected Public: Businesses or other for-profits.

Burden Estimate:

Information collection description	Type of burden	Estimated number of respondents	Estimated number of responses per respondent	Estimated time per response (hours)	Estimated annual burden (hours)
Paragraph 14—Strategies, policies, procedures, and risk tolerances.	Recordkeeping (Voluntary).	3,128	1	83.94	262,564
Paragraph 20—Liquidity risk management measurement, monitoring, and reporting.	Reporting (Voluntary) ...	3,128	12	4	150,144
Total Annual Burden	412,708

General Description of Collection: The information collection includes reporting and recordkeeping burdens related to sound risk management principles applicable to insured depository institutions. To enable an institution and its supervisor to evaluate the liquidity risk exposure of an institution’s individual business lines and for the institution as a whole, the Interagency Policy Statement on Funding and Liquidity Risk Management (Interagency Statement) summarizes principles of sound liquidity risk management and advocates the establishment of policies and procedures that consider liquidity costs, benefits, and risks in strategic planning. In addition, the Interagency Statement encourages the use of liquidity risk reports that provide detailed and aggregate information on items such as cash flow gaps, cash flow projections, assumptions used in cash flow projections, asset and funding concentrations, funding availability, and early warning or risk indicators. This is intended to enable management to assess an institution’s sensitivity to changes in market conditions, the institution’s financial performance, and other important risk factors. There is no change in the method or substance of the collection. The overall reduction in burden hours is the result of economic fluctuation. In particular, the number of respondents.

B. Needs and Uses

DoD, GSA, and NASA are combining OMB Control Nos. for the Federal Acquisition Regulation (FAR) by FAR part. This consolidation is expected to improve industry’s ability to easily and efficiently identify burdens associated with a given FAR part. The review of the information collections by FAR part allows improved oversight to ensure there is no redundant or unaccounted for burden placed on industry. Lastly, combining information collections in a given FAR part is also expected to reduce the administrative burden associated with processing multiple information collections.

This justification supports the revision of OMB Control No. 9000–0082 and combines it with the previously approved information collection under OMB Control No. 9000–0114, with the new title “Federal Acquisition Regulation Part 7 Requirements”. Upon approval of this consolidated
