### Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by July 25, 2022 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

The vaccination requirement issued pursuant to E.O. 14043, is currently the subject of a nationwide injunction. While that injunction remains in place, Department of Agriculture will not process requests for a medical exception from the COVID-19 vaccination requirement pursuant to E.O. 14043. Department of Agriculture will also not request the submission of any medical information related to a request for an

exception from the vaccination requirement pursuant to E.O. 14043 while the injunction remains in place. But Department of Agriculture may nevertheless receive information regarding a medical exception. That is because, if Department of Agriculture were to receive a request for an exception from the COVID-19 vaccination requirement pursuant to E.O. 14043 during the pendency of the injunction, Department of Agriculture will accept the request, hold it in abeyance, and notify the employee who submitted the request that implementation and enforcement of the COVID-19 vaccination requirement pursuant to E.O. 14043 is currently enjoined and that an exception therefore is not necessary so long as the injunction is in place. In other words, during the pendency of the injunction, any information collection related to requests for medical exception from the COVID-19 vaccination requirement pursuant to E.O. 14043 is not undertaken to implement or enforce the COVID-19 vaccination requirement.

### Department of Agriculture

*Title:* Request for a Medical Exemption to the COVID-19 Vaccination Requirement

*OMB Control Number:* 0503-0027

*Summary of Collection:* Section 2 of E.O. 14043 mandates that each agency "implement, to the extent consistent with applicable law, a program to require COVID-19 vaccination for all of its Federal employees, with exceptions only as required by law." This medical exemption form is necessary for USDA to determine legal exemptions to the vaccine requirement under the Rehabilitation Act. This includes the requisite confidentiality requirements, subject to the applicable Rehabilitation Act standards, and maintenance of supporting documents.

*Need and Use of the Information:* This information is being requested to promote the safety of the Federal workforce, the safety of Federal buildings, and others on site at agency facilities or those interacting with the public consistent with the COVID-19 Workplace Safety: Agency Model Safety Principles established by the Safer Federal Workforce Task Force and guidance from the Centers for Disease Control and Prevention. To request a medical exemption from the COVID-19 vaccination requirement, an employee

must provide documentation from their medical provider.

*Description of Respondents:* Federal Employees and Medical Providers.

*Number of Respondents:* 2,000.

*Frequency of Responses:* Reporting: Annually.

*Total Burden Hours:* 333.

#### SUPPLEMENTARY INFORMATION:

##### Background

The World Trade Organization (WTO) was established as the common international institutional framework for governing trade relations among its members in matters related to the Uruguay Round Agreements. The WTO is the successor organization to the General Agreement on Tariffs and Trade. U.S. membership in the WTO was approved by Congress when it enacted the Uruguay Round Agreements Act (Pub. L. 103-465), which was signed into law on December 8, 1994. The WTO Agreements, which established the WTO, entered into force with respect to the United States on January 1, 1995. The Uruguay Round Agreements Act amended Title IV of the Trade Agreements Act of 1979 (19 U.S.C. 2531 *et seq.*). Section 491 of the Trade Agreements Act of 1979, as amended (19 U.S.C. 2578), requires the President to designate an agency to be responsible for informing the public of the sanitary and phytosanitary (SPS) standard-setting activities of each international standard-setting organization. The designated agency must inform the public by publishing an annual notice in the **Federal Register** that provides the following information: (1) The SPS standards under consideration or planned for consideration by the international

standard-setting organization; and (2) for each SPS standard specified, a description of the consideration or planned consideration of that standard, a statement of whether the United States is participating or plans to participate in the consideration of that standard, the agenda for U.S. participation, if any, and the agency responsible for representing the United States with respect to that standard.

“International standard” is defined in 19 U.S.C. 2578b as any standard, guideline, or recommendation: (1) Adopted by the Codex Alimentarius Commission (Codex) regarding food safety; (2) developed under the auspices of the World Organization for Animal Health (WOAH)<sup>1</sup> regarding animal health; (3) developed under the auspices of the Secretariat of the International Plant Protection Convention (IPPC, or the Convention) and the North American Plant Protection Organization (NAPPO) regarding plant health; or (4) established by or developed under any other international organization agreed to by the member countries of the United States-Mexico-Canada Agreement (USMCA) or the member countries of the WTO.

The President, pursuant to Proclamation No. 6780 of March 23, 1995 (60 FR 15845), designated the Secretary of Agriculture as the official responsible for informing the public of the SPS standard-setting activities of Codex, WOAH, IPPC, and NAPPO. The United States Codex Office (USCO), in the United States Department of Agriculture’s (USDA’s) Trade and Foreign Affairs mission area, informs the public of standard-setting activities of Codex, and USDA’s Animal and Plant Health Inspection Service (APHIS) informs the public of WOAH, IPPC, and NAPPO standard-setting activities.

USCO publishes an annual notice in the **Federal Register** to inform the public of SPS standard-setting activities for Codex (86 FR 29987). Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. It is the principle international organization for establishing food standards that protect consumer health and promote fair practices in food trade.

APHIS is responsible for publishing an annual notice of WOAH, IPPC, and NAPPO activities related to international standards for plant and

<sup>1</sup> The World Organization for Animal Health internationally follows a British English spelling of “organisation” in its name; it was formerly the Office International des Epizooties, or OIE, but on May 28, 2022, the Organization announced that the acronym was changed from OIE to WOAH.
