Substance Abuse and Mental Health Services Administration

Fiscal Year (FY) 2022 Notice of Supplemental Funding Opportunity

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Notice of intent to award supplemental funding.

SUMMARY: This is a notice of intent to award supplemental funding to the Addiction Technology Transfer Centers (ATTC) Regional Centers and ATTC National Coordinating Office (NCO) recipients funded in FY 2017 under Notice of Funding Opportunities (NOFO) TI-17-005. It will inform the public that the Substance Abuse and Mental Health Services Administration (SAMHSA) is supporting administrative supplements, which are consistent with the scope of the initial FY 2017 awards, of up to \$740,298 each for one-year to the ten ATTC Regional Centers and ATTC NCO for a total funding amount of \$8,143,285. These grant recipients were funded in FY 2017 under the ATTC Cooperative Agreements, funding announcement TI-17-005 and have a project end date of September 29, 2022. The supplemental funds will be used to extend the program services for all 11 ATTCs from September 30, 2022 to September 29, 2023. The proposed 12-month extension will allow SAMHSA to align the project periods of the ATTCs with those of the Mental Health Technology Transfer Centers (MHTTC) and Prevention Technology Transfer Centers (PTTC) networks so that all three networks can compete together for the next five-year funding cycle of the Technology Transfer Centers (TTC) program. The TTC program is comprised of the three network programs (ATTC, PTTC and MHTTC), which all use the same training and technical assistance platform. If the three networks are competed in different years and new organizations become award recipients of this cooperative agreement program, the structure of this common platform may be compromised. By competing them at the same time, if changes occur in award recipients, the new award recipients will be able to restructure the

website and training platform within the first three months of the new funding cycle without disruptions.

SUPPLEMENTARY INFORMATION:

Funding Opportunity Title: Addiction Technology Transfer Centers (ATTC) Cooperative Agreements NOFO TI-17-005.

Assistance Listing Number: 93.243

Authority: ATTC cooperative agreements are authorized under Section 509 of the Public Health Service Act, as amended.

Justification: Eligibility for this supplemental funding is limited to the ten ATTC Regional Centers and one NCO funded in FY 2017 under the ATTC Cooperative Agreements funding announcement TI-17-005, as they are currently providing regionally-focused treatment and recovery training activities that will continue to be funded through this supplement.

II. Background and Purpose

On March 31, 2022, the Coast Guard published a Notice of Study; request for comments entitled “Port Access Route Study (PARS): Approaches to Maine,

New Hampshire, and Massachusetts” in the **Federal Register** (87 FR 18800). The purpose of the MNMPARS is to evaluate the adequacy of existing vessel routing measures and determine whether additional vessel routing measures are necessary for port approaches to Maine, New Hampshire, and Massachusetts and international and domestic transit areas in the First Coast Guard District area of responsibility. This undertaking is required by 46 U.S.C. 70003, which calls for the Coast Guard to conduct a PARS prior to establishing fairways or traffic separation schemes (TSSs).

The public was afforded a 45-day comment period during which the Coast Guard received 14 comments in response to the **Federal Register** Notice and various other outreach efforts. A review of available data and submitted comments has identified additional opportunities for inquiry that may help inform several aspects of the study.

All comments and supporting documents are available in a public docket and can be viewed at <http://www.regulations.gov>. In the “Search” box insert “USCG–2022–0047” and click “Search.” Then scroll down to and click on the “notice” entitled “Port Access Route Study: Approaches to Maine, New Hampshire, and Massachusetts.” This will open to the “Document Details” page. Then click on the “Browse Comments” tab. On the comment tab, you can search and filter comments.

III. Information Requested

The Coast Guard is seeking responses to various *general* and *port specific* questions to gain additional insight into issues impacting regional navigation. Where possible and appropriate, please provide sources or other amplifying information to back up or explain your responses. Also, please provide as much relevant detail as possible when describing your position on a subject and how you’ve reached your conclusion.

A. General Questions: Have maritime community members experienced or do they anticipate any impacts to navigation in the areas within or adjacent to the Gulf of Maine, the New Hampshire Seacoast, or Massachusetts Bay?

1. How will vessel navigation routes change as a result of planned or potential future developments?
2. What current waterway operations affect navigation? In what way?
3. Are there strains on the current vessel routing systems?
4. Are modifications to existing vessel routing measures needed to address

hazards and improve efficiency? If so, please describe.

5. Does the maritime community request additional routing measures, other than those that currently exist? Please be as specific as possible.

B. Port Specific Questions: Analysis of AIS data suggests several primary vessel traffic patterns are used to access principal ports within the study area. Based on observed traffic density and public comment, the Coast Guard requests the following feedback:

1. Are alternate routes that bypass traffic lanes in the approaches to Portland used as a matter of convenience or hazard avoidance? If so, in what regard? Please be specific.

2. Should the Portland Eastern and Southern Approach TSS be amended to better accommodate inbound/outbound traffic between Portland, Boston, and Canada? In what ways would changes be beneficial or counterproductive?

3. Are additional routing measures needed to provide greater safety for towing vessel traffic transiting offshore of Massachusetts, New Hampshire, and Maine? If so, what type of measures and how would they be beneficial?

4. Are additional routing measures, such as a Northeast Approach TSS, necessary to support Massachusetts Bay/Boston commercial traffic?

5. Is a Navigational Safety Fairway necessary to accommodate vessel traffic from Boston to the Bay of Fundy?

6. Are additional or amendments to current routing measures needed for approaches to other port areas including Eastport, Searsport, and Portsmouth?

IV. Public Participation and Request for Comments

We encourage you to participate in this study by submitting responses to these questions and any other relevant comments and related materials.

A. Submitting Comments: To submit your comment online, go to <http://www.regulations.gov>, and insert “USCG–2022–0047” in the “search box.” Click “Search.” Then click “Comment.” The “Comment” button can be found on the following pages:
