

requirements as stated in the following clauses:

a. 52.243–4, Changes. For acquisitions for dismantling, demolition, or removal of improvements; and fixed-price construction contracts that exceed the simplified acquisition threshold (SAT), the contractor must assert its right to an adjustment under this clause within 30 days after receipt of a written change order or the furnishing of a written notice, by submitting to the contracting officer a written statement describing the general nature and amount of proposal, unless this period is extended by the Government. The written notice covers any other written or oral order (which includes direction, instruction, interpretation, or determination) from the contracting officer that causes a change. The contractor gives the contracting officer written notice stating (1) the date, circumstances, and source of the order and (2) that the contractor regards the order as a change order. The statement of proposal for adjustment may be included in the written notice.

b. 52.243–6, Change Order Accounting. The contracting officer may require change order accounting whenever the estimated cost of a change or series of related changes exceeds \$100,000. The contractor, for each change or series of related changes, shall maintain separate accounts, by job order or other suitable accounting procedure, of all incurred segregable, direct costs (less allocable credits) of work, both changed and not changed, allocable to the change. The contractor shall maintain these accounts until the parties agree to an equitable adjustment or the matter is conclusively disposed of under the Disputes clause. This requirement is necessary in order to be able to account properly for costs associated with changes in supply and research and development (R&D) contracts of significant technical complexity, if numerous changes are anticipated, or construction contracts if deemed appropriate by the contracting officer.

c. 52.243–7, Notification of Changes. The clause is available for use primarily in negotiated R&D or supply contracts for the acquisition of major weapon systems or principal subsystems. If the contract amount is expected to be less than \$1,000,000, the clause shall not be used, unless the contracting officer anticipates that situations will arise that may result in a contractor alleging that the Government has effected changes other than those identified as such in writing and signed by the contracting officer. The contractor shall notify the Administrative Contracting Officer in writing if the contractor identifies any

Government conduct (including actions, inactions, and written or oral communications) that the contractor regards as a change to the contract terms and conditions. This excludes changes identified as such in writing and signed by the contracting officer. On the basis of the most accurate information available to the contractor, the notice shall state—

(1) The date, nature, and circumstances of the conduct regarded as a change;

(2) The name, function, and activity of each Government individual and Contractor official or employee involved in or knowledgeable about such conduct;

(3) The identification of any documents and the substance of any oral communication involved in such conduct;

(4) In the instance of alleged acceleration of scheduled performance or delivery, the basis upon which it arose;

(5) The particular elements of contract performance for which the Contractor may seek an equitable adjustment under this clause, including—

(i) What line items have been or may be affected by the alleged change;

(ii) What labor or materials or both have been or may be added, deleted, or wasted by the alleged change;

(iii) To the extent practicable, what delay and disruption in the manner and sequence of performance and effect on continued performance have been or may be caused by the alleged change;

(iv) What adjustments to contract price, delivery schedule, and other provisions affected by the alleged change are estimated; and

(6) The Contractor's estimate of the time by which the Government must respond to the Contractor's notice to minimize cost, delay or disruption of performance.

Contracting officers use the notices and information provided by contractors in response to a change notice to negotiate an equitable adjustment under the contract that may result from the change order.

C. Annual Burden

Respondents & Recordkeepers: 2,611.

Total Annual Responses: 1,152.

Total Burden Hours: 9,238 (1,152 reporting hours + 8,086 recordkeeping hours).

D. Public Comment

A 60-day notice was published in the **Federal Register** at 87 FR 24163, on April 22, 2022. No comments were received.
