

collection EAC Budget Expenditures Worksheet (EAC-BEW).

**DATES:** Comments must be received by 5 p.m. Eastern on Friday, July 29, 2022.

**ADDRESSES:** To view the proposed EAC-BEW format, see: <https://www.eac.gov/payments-and-grants/reporting>.

For information on the EAC-BEW, contact Kinza Ghaznavi, Office of Grants, Election Assistance Commission, [Grants@eac.gov](mailto:Grants@eac.gov).

Written comments and recommendations for the proposed information collection should be sent directly to [Grants@eac.gov](mailto:Grants@eac.gov).

All requests and submissions should be identified by the title of the information collection.

**SUPPLEMENTARY INFORMATION:**

**Title and OMB Number**

Budget Expense Worksheet; 87 FR 24546 (Page 24546–24547, Document Number 2022–08781)

**Purpose**

This proposed information collection was previously published in the **Federal**

**Register** on Thursday, April 28, 2022 and allowed 60 days for public comment. In compliance with Section 3507(a)(1)(D) of the Paperwork Reduction Act (PRA) of 1995, EAC has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. The purpose of this notice is to allow an additional 30 days for public comment from all interested individuals and organizations.

The EAC Office of Grants Management (EAC/OGM) is responsible for distributing, monitoring, and providing technical assistance to states and grantees on the use of federal funds. EAC/OGM also reports on how the funds are spent to Congress, negotiates indirect cost rates with grantees, and resolves audit findings on the use of HAVA funds.

**Public Comments**

We are soliciting public comments to permit the EAC to:

- Evaluate whether the proposed information collection is necessary for the proper functions of the Office of Grants Management.

- Evaluate the accuracy of our estimate of burden for this proposed collection, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

*Respondents:* All EAC grantees and state governments.

**Annual Reporting Burden**

**ANNUAL BURDEN ESTIMATES**

EAC Grant	Instrument	Total number of respondents	Total number of responses per year	Average burden hours per response	Annual burden hours
TBD .....	EAC-BEW .....	56	1	.5	28
Total .....	.....	56	1	.5	28

The estimated cost of the annualized cost of this burden is: \$658, which is calculated by taking the annualized burden (28 hours) and multiplying by an hourly rate of \$23.50 (GS-8/Step 5 hourly basic rate).

**Amanda Joiner,**

*Acting General Counsel, U.S. Election Assistance Commission.*

**BILLING CODE P**

**DEPARTMENT OF ENERGY**

**Innovative Technologies Loan Guarantee Program; Extension of Comment Period**

**AGENCY:** Loan Programs Office, Department of Energy.

**ACTION:** Request for information; extension of public comment period.

**SUMMARY:** The Loan Programs Office (“LPO”) of the Department of Energy (“DOE”) is seeking information to understand how it could improve its Title XVII Innovative Technologies Loan

Guarantee Program (the “Title XVII Loan Guarantee Program”) and implement provisions of the Energy Act of 2020 and the Infrastructure Investment and Jobs Act (the “IIJA”) that expand or modify the authorities applicable to the Title XVII Loan Guarantee Program. On June 1, 2022, DOE published a request for information (“RFI”) on these subjects. The RFI provided an opportunity for submitting written comments, data, and information no later than July 1, 2022. DOE received separate requests from Holland & Knight LLP; Piedmont Lithium, Inc.; Mitsubishi Power Americas, Inc.; and American Clean Power Association for an extension of the public comment period for an additional 30 days. DOE has reviewed these requests and is granting an extension of the public comment period to allow comments to be submitted no later than August 1, 2022.

**DATES:** The comment period for the RFI published on June 1, 2022 (87 FR 33141) is extended. DOE will accept comments, data, and information regarding the RFI received no later than August 1, 2022.

**ADDRESSES:** Interested persons are encouraged to submit comments, identified by “Title XVII Loan Guarantee Program RFI,” by any of the following methods:

*Email:* [LPO.ProposedRuleComments@hq.doe.gov](mailto:LPO.ProposedRuleComments@hq.doe.gov). Include “Title XVII Loan Guarantee Program RFI” in the subject line of the message. Email attachments can be provided in PDF (preferred), Microsoft Word or Excel, WordPerfect, or text (ASCII) file format, prepared in accordance with the detailed instructions in section III of the June 1, 2022 RFI, which can be found at: <https://www.federalregister.gov/d/2022-11734>.

*Postal Mail:* Loan Programs Office, Attn: LPO Legal Department, U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585-0121. Please submit one signed original paper copy. Due to potential delays in DOE’s receipt and processing of mail sent through the U.S. Postal Service, we encourage respondents to submit comments electronically to ensure timely receipt.

**FOR FURTHER INFORMATION CONTACT:**

Steven Westhoff, Attorney-Adviser,  
Loan Programs Office, email:  
[LPO.ProposedRuleComments@hq.doe.gov](mailto:LPO.ProposedRuleComments@hq.doe.gov), or phone: (240) 220-4994.

**SUPPLEMENTARY INFORMATION:** On June 1, 2022, DOE published an RFI initiating a review to consider whether to amend DOE's Title XVII Rule at 10 CFR part 609. 87 FR 33141. In the RFI, DOE identified certain programmatic and procedural issues on which it is interested in receiving comment. These issues include the scope and application of statutory amendments under the Energy Act of 2020 and the IJA, facilitation of new or different projects and financing structures, and other potential improvements to the Title XVII Loan Guarantee Program. The RFI set a comment period deadline of July 1, 2022.

Several interested parties requested a 30-day extension of the public comment period to help investigate the request and respond appropriately with considered comments. For example, these parties referred to the diversity of topics covered in the RFI and the potential impacts that the RFI process will have on DOE's implementation of the Title XVII Loan Guarantee Program. DOE anticipates that extending the public comment period will enable additional stakeholders to submit valuable comments in response to the RFI.

DOE has determined that an extension of the public comment period is appropriate to allow interested parties additional time to submit comments for DOE's consideration. Thus, DOE is extending the comment period through August 1, 2022.

**Signing Authority**

This document of the Department of Energy was signed on June 24, 2022, by Dong Kim, Deputy Director, Loan Programs Office, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE **Federal Register Liaison Officer** has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on June 24, 2022.

**Treana V. Garrett,**

*Federal Register Liaison Officer, U.S.  
Department of Energy.*

**BILLING CODE 6450-01-P**

**DEPARTMENT OF ENERGY****Federal Energy Regulatory Commission**

[Docket Nos. CP21-1-000; CP21-458-000]

**Golden Pass Pipeline, LLC; Notice of Availability of the Final Environmental Impact Statement for the Proposed Mp66-69 Compressor Relocation and Modification Amendment and the Mp33 Compressor Station Modification Amendment Project**

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a final environmental impact statement (EIS) for the MP66-69 Compression Relocation and Modification Amendment and the MP33 Compressor Station Modification Amendment Project (Project), proposed by Golden Pass Pipeline, LLC (Golden Pass), in the above referenced dockets. Golden Pass requests authorization to amend its certificate of public convenience and necessity for the Pipeline Expansion Project (Docket No. CP14-518-000) that was issued by the Commission on December 21, 2016. Golden Pass requests authorization to modify the previously authorized facilities in Calcasieu Parish, Louisiana and Orange County, Texas.

The final EIS assesses the potential environmental effects of the construction and operation of the Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed Project, with the mitigation measures recommended in this EIS, would not result in significant environmental impacts, with the exception of climate change impacts. The EIS does not characterize the Project's greenhouse gas emissions as significant or insignificant because the Commission is conducting a generic proceeding to determine whether and how the Commission will conduct climate change significance determinations going forward.<sup>1</sup>

The final EIS incorporates by reference the Commission staff's July

<sup>1</sup> Consideration of Greenhouse Gas Emissions in Natural Gas Infrastructure Project Reviews, 178 FERC ¶ 61,108 (2022); 178 FERC ¶ 61,197 (2022).

2016 Final Environmental Impact Statement (FEIS) issued in Docket Nos. CP14-517-000 and CP14-518-000 for the Golden Pass LNG Export Project (2016 FEIS) and the Commission's findings and conclusions in its December 21, 2016 Order. The final EIS addresses the potential environmental effects of the construction and operation of the following Project facilities:

**CP21-1-000 (Calcasieu Parish, Louisiana)**

- relocate the approved Compressor Station at Milepost (MP) 66 approximately three miles, to MP69;
- increase the amount of compression at the relocated compressor station;
- eliminate approved modifications to interconnects at MP63 and MP66;
- minor changes to approved interconnect modifications at MP68; and
- eliminate the previously approved 3 miles of 24-inch-diameter pipeline loop between MP66 and MP69.

**CP21-458-000 (Orange County, Texas)**

- relocate the MP33 Compressor Station approximately fifty feet north-northwest to avoid an existing pipeline right-of-way based on a landowner request;
- increase the authorized compression at the MP33 Compressor Station;
- construct three new interconnects and appurtenant facilities adjacent to the MP33 Compressor Station; and
- eliminate receipt stations at the existing Texoma delivery interconnect on Golden Pass's existing system at MP33.

The Commission mailed a copy of the *Notice of Availability of the Final Environmental Impact Statement for the MP66-69 Compression Relocation and Modification Amendment and the MP33 Compressor Station Modification Amendment Project* to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the Project area. The final EIS is only available in electronic format. It may be viewed and downloaded from the FERC's website ([www.ferc.gov](http://www.ferc.gov)), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). In addition, the final EIS may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>) select
