The area described contains 120,270 acres, more or less, according to the BLM National PLSS CadNSDI, the protraction diagrams, and the official plats of the surveys of the said lands, on file with the BLM.

The two-phase temporary closure area is in Pershing County, Nevada, and is necessary for the period of time from July 28, 2022, to midnight October 1, 2022, because of the Burning Man event. The event's activities begin with the golden spike, fencing the site perimeter, Black Rock City setup (July 28 to August 26), followed by the actual event (12:01 a.m. on August 27 to 12:00 p.m. on September 6), Black Rock City tear down and cleanup, and final site cleanup (12:01 p.m. on September 6 to 11:59 p.m. on October 1). This event is

authorized on public land under Special Recreation Permit #NVW03500–22–01.

The public temporary closure area comprises about 77 percent of the Black Rock Desert playa. Public access to the other 23 percent of the playa outside the temporary closure area will remain open to dispersed recreational use.

The event area is fully contained within the Phase 2 temporary closure area. The event area is defined as the portion of the temporary closure area that: (1) Is entirely contained within the event perimeter fence, including 50 feet from the outside of the event perimeter fence; (2) Lies within 25 feet from the outside edge of the event access road; and (3) Includes the entirety of the aircraft parking area outside the event perimeter fence.

The temporary closure and restrictions are necessary to provide a safe environment for the staffs/volunteers, participants and members of the public visiting the Black Rock Desert, and to protect public land resources by addressing law enforcement and public safety concerns associated with the event. The temporary closure and temporary restrictions are also necessary to enable BLM law enforcement personnel to provide for public safety and to protect the public lands.

The event attracts up to 87,000 participants to a remote, rural area, located more than 90 miles from urban infrastructure and support, including such services as public safety, emergency medical delivery, transportation, and communication. During the event, Black Rock City, the temporary city associated with the event, becomes one of the largest population areas in Nevada.

A temporary closure and restrictions order, under the authority of 43 CFR 8364.1, is appropriate for a single event. The temporary closure and restrictions are specifically tailored to the time frame that is necessary to provide a safe environment for the public and for participants at the Burning Man event and to protect public land resources while avoiding imposing restrictions that may not be necessary in the area during the remainder of the year.

The BLM will post copies of the temporary closure, temporary restrictions, and an associated map in kiosks at access points to the Black Rock Desert playa, as well as at the Gerlach Post Office, Bruno's Restaurant, Empire Store, Burning Man Project Offices, Friends of Black Rock-High Rock Office, the BLM-Nevada Black Rock Station near Gerlach, and the BLM-California Applegate Field Office. The BLM will also make the materials available on the

BLM external web page at: <http://www.blm.gov>.

In addition to the Nevada Collateral Forfeiture and Bail Schedule as authorized by the United States District Court, District of Nevada and under the authority of Section 303(a) of FLPMA, 43 CFR 8360.0–7, and 43 CFR 8364.1, the BLM will enforce a temporary public closure and the following temporary restrictions will apply within and adjacent to the Burning Man event on the Black Rock Desert playa from July 28, 2022, through October 1, 2022:

Temporary Restrictions

A. Environmental Resource Management and Protection

(1) Fires/Campfires: The ignition of fires on the surface of the Black Rock Desert playa without a burn blanket or burn pan is prohibited. Campfires may only be burned in containers that are sturdily elevated six (6) inches above the playa surface and in a manner that does not pose a risk of fire debris falling onto the playa surface. Plastic and nonflammable materials may not be burned in campfires. The ignition of fires other than a campfire is prohibited. This restriction does not apply to events sanctioned and regulated as art burns by the event organizer.

(2) Fireworks: The use or possession of personal fireworks is prohibited except for uses of fireworks approved by the permit holder and used as part of a Burning Man sanctioned art burn event.

(3) Grey and Black Water Discharge: The discharge and dumping of grey water onto the playa/ground surface is prohibited. Grey water is defined as water that has been used for cooking, washing, dishwashing, or bathing and/or contains soap, detergent, or food scraps/residue, regardless of whether such products are biodegradable or have been filtered or disinfected. Black water is defined as wastewater containing feces, urine, and/or flush water.

(4) Human Waste: The depositing of human waste (liquid and/or solid) on the playa/ground surface is prohibited.

(5) Trash: The discharge of any and all trash/litter onto the ground/playa surface is prohibited. All event participants must pack out and properly dispose of all trash at an appropriate disposal facility.

(6) Hazardous Materials: The dumping or discharge of vehicle oil, petroleum products or other hazardous household, commercial or industrial refuse or waste onto the playa surface is prohibited. This applies to all recreational vehicles, trailers, motorhomes, port-a-potties, generators, and other camp infrastructure.

(7) Fuel Storage:

(a) The storage of greater than 110 gallons of fuel in a single camp is prohibited.

(b) Each camp storing fuel must establish a designated fuel storage area at least ten (10) feet apart from combustible materials; twenty-five (25) feet from vehicles, camp trailers/RV's, generators (unless manufactured and designed to store fuel), and any sources of ignition (such as burning cigarettes, open flame, electrical connections, or trailer/RV appliances); and one hundred (100) feet from other designated fuel storage areas.

(c) Fuel containers, regardless of size or type, shall not exceed 80% capacity per container.

(d) Storage areas for ALL fuel must include a secondary containment system that can hold a liquid volume equal to or greater than 110% of the largest container being stored. Secondary containment measures must comply with the following:

(i) The secondary containment system must be free of cracks or gaps and constructed of materials impermeable to the fuel(s) being stored.

(ii) The secondary containment system must be designed to allow the removal of any liquids captured resulting from leaks, spills, or precipitation.

(8) Water Discharge: The unauthorized dumping or discharge of fresh water onto the playa surface, onto city streets and/or other public areas, or onto camp electric systems in a manner that creates a hazard or nuisance is prohibited. This provision does not prohibit the use of water trucks contracted by the event organizer to provide dust abatement measures.

B. Commercial Activities

In accordance with 43 CFR 2932: Vending and the 2022 Special Recreation Permit Additional Stipulations for the permitted event, ALL vendors and air carrier services must provide proof of authorization to operate at the event issued by the permitting agency and/or the permit holder upon request. Failure to provide such authorization could result in eviction from the event.

All pilots that use the Black Rock City Airport must agree to and abide by the published airport rules and regulations;

(b) Only fixed wing and helicopters providing emergency medical services may land at the designated Emergency Medical Services areas/pads or at other locations when required for medical incidents.

The BLM authorized officer, or an authorized State/Local Law Enforcement Officer or his/her delegated representative may approve other helicopter landings and takeoffs when deemed necessary for the benefit of the law enforcement operation; and

Extension of Duration of Withdrawal

PLO No. 7873 withdrew 694,838.84 acres of Federal land in Churchill, Lyon, Mineral, Nye, and Pershing Counties, Nevada, for up to 4 years from all forms of appropriation under the public land laws, including location and entry under the United States mining laws, and leasing under the mineral and geothermal leasing laws, subject to valid existing rights. The purpose of this withdrawal extension is to maintain the current environmental baseline, relative to mining, mineral exploration and

development, and geothermal energy development for land management evaluation purposes. The extension of PLO No. 7873 includes 68,809.44 acres of Federal land in the Dixie Valley Training Area from the mineral leasing laws (not currently withdrawn from these laws under Section 3016 of the NDAA for Fiscal Year 2000, Pub. L. 106-65), to maintain the current environmental baseline, relative to mineral exploration and development for land management evaluation purposes, subject to valid existing rights.

Including the 8,722.47 acres of Department of the Navy (DON) lands, the total Federal land included in the withdrawal extension is 772,370.75 acres. Non-Federal lands totaling 66,160.53 acres are described within the withdrawal area. Any current or future Federal estate interest in these non-Federal lands is subject to this withdrawal.

The purpose for which the withdrawal was first made requires this extension because the BLM and the DON are engaged in the evaluation of issues relating to possible future legislative transfer of the subject land to the jurisdiction of the DON in connection with the DON's modernization of Naval Air Station Fallon, Fallon Range Training Complex, Nevada (FRTC). The DON anticipates requesting a legislative withdrawal of these additional lands and requested that the Department of the Interior extend PLO No. 7873 withdrawal an additional 4 years. PLO No. 7873 is incorporated by reference (83 FR 44654).
