The BLM petition/application has been approved by the Secretary of the Interior, and therefore it constitutes a withdrawal proposal of the Secretary of the Interior (43 CFR 2310.1-3(e)).

The use of a rights-of-way, interagency agreement or cooperative agreement, or surface management under 43 CFR subpart 3809 regulations would not adequately constrain non-discretionary uses and would not provide adequate protection of cultural, recreational, and biological resources, nor the financial investments in public campgrounds and other improvements on these lands.

There are no suitable alternative sites, as the described land contains the resource values that need protection.

Water rights will not be needed to fulfill the purpose of the proposed withdrawal.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the BLM Colorado State Director at the address listed earlier (see **ADDRESSES**).

Comments, including names and street addresses of respondents, will be available for public review at the BLM Colorado State Office during regular business hours, 7:45 a.m. to 4:15 p.m. Monday through Friday, except Federal holidays. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives of officials of organizations or businesses, will be made available for public inspection in their entirety.

For a period until July 1, 2024, subject to valid existing rights, the lands and mineral interests in this notice will be segregated from location and entry under the United States mining laws, unless the application is denied or canceled, or the withdrawal is approved prior to that date.

This withdrawal application will be processed in accordance with the regulations set forth in 43 CFR part 2300.

Licenses, permits, cooperative agreements, or discretionary land use authorizations of a temporary nature that will not significantly impact the values to be protected by this withdrawal may be allowed with the approval of the authorized officer of the BLM during the segregative period.

(Authority: 43 CFR 2310.3-1(a).)

Brian Achziger,

Acting BLM Colorado State Director.
