SUPPLEMENTARY INFORMATION:

I. Background

OHRP is announcing the availability of a draft guidance document for public comment titled "Use of a Single Institutional Review Board for Cooperative Research." The document is intended primarily for institutions, institutional review boards (IRBs), investigators, institutional officials, and other human research protection staff.

The draft guidance document applies to activities that are conducted or supported by HHS. It is intended primarily to help entities implement the requirement for use of a single IRB for cooperative research (subpart A of 45 CFR part 46.114). In particular, the draft guidance addresses the following topics:

(1) What is cooperative research?

(2) When must an institution rely on a single IRB for approval of cooperative research?

(3) Who decides which IRB will be the IRB of record for the purposes of regulatory compliance?

(4) Can an institution that is not required to comply with 45 CFR 46.114(b)(1) for a particular study still choose to rely on a single IRB for review of cooperative research?

(5) Can an institution involved in cooperative research choose to conduct its own IRB review of the research even though review is required by a single IRB that is located elsewhere?

(6) Are there documentation requirements for use of a single IRB in cooperative research?

(7) What are some of the operational capacities an IRB should have in order to serve as a single IRB?

(8) What are the responsibilities of the reviewing IRB with respect to information pertaining to sensitivity to community attitudes and the local context for proposed research?

(9) What are the responsibilities of the reviewing IRB pertaining to applicable State and local laws?

II. Electronic Access
