hazard or exposure assessments or the risk characterization.

D. What are the next steps for finalizing revisions to the risk determination?

EPA will review and consider public comment received on the draft revised risk determination for the NMP risk evaluation and issue a final revised NMP risk determination. If finalized as drafted, EPA would also issue a new order to withdraw the TSCA section 6(l)(1) no unreasonable risk order issued in Section 5.4.1 of the 2020 NMP risk evaluation. This final revised risk determination would supersede the December 2020 risk determinations of no unreasonable risk. Consistent with the statutory requirements of TSCA section 6(a), the Agency would then propose risk management actions to address the unreasonable risk determined in the NMP risk evaluation.
