

Miscellaneous Surface Coating at Area Sources (40 CFR part 63, subpart HHHHHH) are part of the EPA Integrated Urban Strategy to reduce cancer risk from area sources under Section 112(k)(3)(C) of the Clean Air Act (CAA). These standards apply to existing facilities and new facilities that conduct paint stripping operations using methylene chloride-containing paint strippers, motor vehicle and mobile equipment surface coating operations, and miscellaneous surface coating operations located at area sources. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are used by the EPA to determine compliance with the standards.

Form Numbers: None.

Respondents/affected entities: Paint stripping and miscellaneous surface coating operations.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart HHHHHH).

Estimated number of respondents: 39,812 (total).

Frequency of response: Initially and occasionally.

Total estimated burden: 102,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$12,100,000 (per year), which includes \$27,100 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. The reason for the change in burden is related to an error in the prior ICR which was corrected in this renewal package. The prior ICR assumed that all sources would submit an annual notification of changes report, but this rule does not require sources to submit an annual report unless a change has occurred in information previously submitted in either the initial notification required by § 63.11175(a), Notification of Compliance, or a previous annual notification of changes report. We have adjusted this assumption, and based on OAQPS discussions with industry, we have assumed that 20 percent of existing sources will submit a notification of

changes report each year; this includes submittal of a methylene chloride minimization plan for paint stripping sources using more than one ton of methylene chloride in the calendar year.

The prior ICR also assumed that no government-owned miscellaneous surface coating operations at area sources would need to update records of painter certification or records of filter efficiency each year. We have revised this assumption and estimate that the proportions of government-owned surface coating sources and commercial surface coating sources that must record this information each year will be the same. Therefore, in line with our assumptions for commercial surface coating sources, we have assumed that 20 percent of painters at government-owned surface coating sources will need to have their records updated each year, and that one percent of government-owned surface coating sources will opt to use filters which will require them to test and record the filter efficiency. This adjustment in the burden estimate for government-owned surface coating sources results in an increase in recordkeeping burden for those sources. However, the overall burden estimate for all types of sources, including government-owned surface coating sources, has still decreased due to our corrected assumption regarding annual notification of changes reports. Therefore, the number of sources predicted by this ICR to submit reports has been greatly reduced, and the associated labor and operation and maintenance costs have seen a corresponding reduction. However, the individual cost per respondent of submitting a notification or report has not changed.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OEM-2015-0725; FRL-9999-01-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Risk Management Program Requirements and Petitions to Modify the List of Regulated Substances Under the Clean Air Act (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is submitting an information collection request (ICR), Risk Management Program Requirements and Petitions to Modify the List of Regulated Substances under section 112(r) of the Clean Air Act (EPA ICR Number 1656.18, OMB Control Number 2050-0144) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through November 30, 2022. Public comments were previously requested via the **Federal Register** on December 14, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before August 8, 2022.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OEM-2015-0725, online using www.regulations.gov (our preferred method) or by mail to: (1) EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA. EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain.

Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Wendy Hoffman, Office of Emergency Management, Mail Code 5104A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-8794; email address: hoffman.wendy@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov. Out of an abundance of caution for members of the public and our staff, the EPA Docket Center and Reading Room is closed to the public, with limited exceptions, to reduce the risk of transmitting COVID-19. Our Docket Center staff will continue to provide remote customer service via email, phone, and webform. For further information about the EPA's public docket, Docket Center services and the current status, please visit us online at <https://www.epa.gov/dockets>. The telephone number for the Docket Center is 202-566-1744.

Abstract: This information collection is authorized by the following Clean Air Act (CAA) sections: for onsite documentation of Risk Management Plans (RMPs), section 112(r)(7)(B)(i) and (ii); for submitting an RMP, section 112(r)(7)(B)(iii); and, for onsite documentation and submittal of RMPs, section 114(a)(1). The agencies implementing the Risk Management Program use RMPs to evaluate compliance with the Chemical Accident Prevention Provisions in 40 CFR part 68 and to identify sources for inspection that may pose significant risks to the community. Citizens may use the information to assess and address chemical hazards in their communities and to respond appropriately in the event of a release of a regulated substance.

This request for comments relates to the renewal of OMB Control Number 2050-0144, which covers the Risk Management Program and is being consolidated with EPA ICR Number OMB Control Number 2050-0216, which represents the Risk Management Program information collection requirements impacted by the Final Risk

Management Program Reconsideration Rule (Reconsideration Rule), published on December 19, 2019 (84 FR 69834). The Reconsideration Rule modified changes made to the Risk Management Program by the Final Risk Management Program Amendments Rule (Amendments Rule), published on January 13, 2017 (82 FR 4594). The consolidation covers information collection requirements from the Amendments Rule that were retained or retained with modification in the Reconsideration Rule. Once this renewal ICR is approved, OMB Control Number 2050-0216 will be discontinued.

EPA received no comments on the ICR. The final ICR package is being submitted to OMB for review and approval for a 30-day review period.

Form Numbers: None.

Respondents/affected entities: Stationary sources that manufacture, react, mix, store, or use substances in processes that require equipment designed, constructed, installed, operated, or maintained in specific ways to prevent accidental releases and ensure safe operations.

Respondent's obligation to respond: Mandatory under CAA section 112(r)(7)(B)(iii).

Estimated number of respondents: 14,216.

Frequency of response: Sources are required to register and submit an RMP once every five years, unless there are significant changes in the information provided.

Total estimated burden: 704,005 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$50,147,128 (per year), which includes \$31,044 annual operation & maintenance costs. No capital costs are associated with this ICR.

Changes in Estimates: This ICR estimates a total annual respondent burden of 704,005 hours, which is a decrease of 69,872 burden hours for all

sources and States compared to the previous two ICRs being consolidated here. Three primary reasons account for this decrease in burden. First, the burden varies from one ICR renewal to the next due to different resubmission deadlines based on the sources' RMP resubmission deadlines and other regulatory deadlines. Therefore, the burden changes each year depending on how many sources must submit their RMP and comply with certain prevention program requirements. Second, the number of sources subject to the regulations fluctuates regularly and is slightly lower than in the previous ICR (12,995 sources in the previous ICR versus 12,341 sources in this ICR). Finally, the burden for rule familiarization under the Amendments rule and the Reconsideration rule is a one-time burden that was incurred at the time of implementation of the Reconsideration rule and is not included in this consolidated ICR. However, rule familiarization with the RMP requirements in general is retained for new sources in this consolidated ICR.

BILLING CODE 6560-50-P

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Termination of Receiverships

The Federal Deposit Insurance Corporation (FDIC or Receiver), as Receiver for each of the following insured depository institutions, was charged with the duty of winding up the affairs of the former institutions and liquidating all related assets. The Receiver has fulfilled its obligations and made all dividend distributions required by law.

NOTICE OF TERMINATION OF RECEIVERSHIPS

Fund	Receivership name	City	State	Termination date
10156	Greater Atlantic Bank	Reston	VA	07/01/2022
10219	Broadway Bank	Chicago	IL	07/01/2022
10229	Eurobank	San Juan	PR	07/01/2022
10232	1st Pacific Bank of California	San Diego	CA	07/01/2022
10250	Nevada Security Bank	Reno	NV	07/01/2022
10254	USA Bank	Port Chester	NY	07/01/2022
10263	First National Bank of the South	Spartanburg	SC	07/01/2022

The Receiver has further irrevocably authorized and appointed FDIC-Corporate as its attorney-in-fact to

execute and file any and all documents that may be required to be executed by the Receiver which FDIC-Corporate, in

its sole discretion, deems necessary, including but not limited to releases, discharges, satisfactions, endorsements,
