United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at http://www.reginfo.gov/public/do/PRAMain.

SUPPLEMENTARY INFORMATION: In accordance with the PRA (44 U.S.C. 3501 et seq.) and 5 CFR 1320.8(d)(1), we invite the public and other Federal agencies to comment on new, proposed, revised and continuing collections of information. This helps the BLM assess impacts of its information collection requirements and minimize the public’s reporting burden. It also helps the public understand BLM information collection requirements and ensure requested data are provided in the desired format.

A Federal Register notice with a 60-day public comment period soliciting comments on this collection of information was published on February 18, 2022 (87 FR 9375). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again inviting the public and other Federal agencies to comment on the proposed ICR described below. The BLM is especially interested in public comment addressing the following:

1. Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
2. The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used.
3. Ways to enhance the quality, utility, and clarity of the information to be collected; and
4. How might the agency minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments submitted in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The BLM seeks to renew the Control Number (1004–0121) pertaining to the leasing of solid minerals other than coal and oil shale other than coal and oil shale on Federal land, and the development of those lease. The BLM’s regulations at 43 CFR part 3590 apply to certain types of leasable minerals (i.e., solid minerals other than coal and oil shale), but not to Indian lands or minerals except where expressly noted. The regulations at 43 CFR part 3580 apply to gold, silver, and quicksilver in confirmed private land grants, and to leasable minerals in specified locations. The information collections contained in 43 CFR part 3590 are necessary to enable the BLM to fulfill its statutory responsibilities under certain Federal mineral leasing laws and BLM’s regulations at 43 CFR part 3590 and serve to help the BLM to govern the leasing of minerals other than coal and oil shale on Federal land, and the development of those leases.

Accordingly, the respondents affected by this information collection request are those who desire to obtain lease for Federal minerals other than coal and oil shale, and operators of such leases. The regulations at 43 CFR part 3590 apply to operations for discovery, testing, development, mining, reclamation, and processing. This OMB Control Number is scheduled to expire on October 31, 2022. The BLM is requesting that OMB renew this OMB Control Number for an additional three years.

Title of Collection: Leasing of Solid Minerals Other Than Coal and Oil Shale (43 CFR 3590–3590).
OMB Control Number: 1004–0121.
Form Numbers: BLM Form 3504–001; BLM Form 3504–003; BLM Form 3504–004; BLM Form 3510–001; BLM Form 3510–002; and BLM Form 3520–007.
Type of Review: Extension of a currently approved collection.
Respondents/Affected Public: Holders of Federal leases of solid minerals other than coal and oil shale.
Total Estimated Number of Annual Respondents: 507.
Total Estimated Number of Annual Responses: 507.
Estimated Completion Time per Response: Varies from 1 hour to 400 hours, depending on activity.
Total Estimated Number of Annual Burden Hours: 27,296.
Respondent’s Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.
Total Estimated Annual Nonhour Burden Cost: $2,051,105.

An agency may not conduct or sponsor and, notwithstanding any other provision of law, a person is not required to respond to a collection of information unless it displays a currently valid OMB Control Number. The authority for this action is the PRA of 1995 (44 U.S.C. 3501 et seq.).

Darrin King,
Information Collection Clearance Officer.

BILLING CODE 4310–64–P

DEPARTMENT OF THE INTERIOR
Bureau of Ocean Energy Management
[BOEM–2022–0031]
Notice of Availability of the 2023–2028 National Outer Continental Shelf Oil and Gas Leasing Proposed Program and Draft Programmatic Environmental Impact Statement
AGENCY: Bureau of Ocean Energy Management (BOEM), Interior.
ACTION: Notice; request for comments.
SUMMARY: BOEM is announcing the availability of, and requests comments on, the Proposed Program for the 2023–2028 National Outer Continental Shelf Oil and Gas Leasing Program (2023–2028 Program, National OCS Program, or Program), as well as the Draft Programmatic Environmental Impact Statement for the 2023–2028 Program (Draft Programmatic EIS).
DATES: Comments should be submitted by October 6, 2022 to the address specified in the ADDRESSES section of this notice. Dates of virtual public meetings to be held between now and October 6, 2022 will be posted on https://www.BOEM.gov/National-OCS-Program.
ADDRESSES: Comments on the Proposed Program or Draft Programmatic EIS may be submitted in one of the following ways:
1. Through the Regulations.gov web portal: Navigate to http://www.regulations.gov and under the Search tab, in the space provided, type in Docket ID: BOEM–2022–0031 to submit comments and to view other comments already submitted.
Information on using www.regulations.gov, including instructions for accessing documents, submitting comments, and viewing the docket after the close of the comment period, is available through the links.
under the box entitled, “Are you new to this site?”

2. Mailed in an envelope labeled “Comments for the 2023–2028 National OCS Oil and Gas Leasing Proposed Program” and mailed or sent by delivery service to Ms. Kelly Hammerle, Chief, National OCS Oil and Gas Leasing Program Development and Coordination Branch, Leasing Division, Office of Strategic Resources, Bureau of Ocean Energy Management (VAM–LD), 45600 Woodland Road, Sterling, VA 20166–9216, telephone (703) 787–1613.

FOR FURTHER INFORMATION CONTACT: For information on the 2023–2028 Program process or BOEM’s policies associated with this notice, please contact Ms. Kelly Hammerle, Chief, National OCS Oil and Gas Leasing Program Development and Coordination Branch at (703) 787–1613. For information on the 2023–2028 Draft Programmatic EIS, submission of comments related to potential environmental impacts, or Cooperating Agency status, please contact Jennifer Bosyk, Chief, Branch of Environmental Coordination, at (703) 787–1834.

SUPPLEMENTARY INFORMATION: BOEM is responsible for administering the leasing program for oil and gas resources on the Outer Continental Shelf (OCS) and advising the Secretary of the Interior on the National OCS Program. The three analytical phases required to develop a new National OCS Program are the (1) Draft Proposed Program (DPP); (2) Proposed Program; and (3) Proposed Final Program (PFP).

The 2023–2028 Program (originally proposed as the Draft 2019–2024 Program), once approved, will follow the 2017–2022 Program. The Proposed Program is the second in a series of three proposals made by the Secretary, pursuant to section 18 of the OCS Lands Act, before final action may be taken to approve the 2023–2028 National OCS Program.

The DPP was published on January 9, 2018, with a 60-day comment period and proposed a lease sale schedule of 47 lease sales in all four OCS regions. It included 25 of the 26 OCS planning areas and proposed 19 lease sales in the Alaska Region (three in the Chukchi Sea, three in the Beaufort Sea, two in Cook Inlet, and one sale each in the 11 other available planning areas in Alaska), seven lease sales in the Pacific Region (two each for Northern California, Central California, and Southern California, and one for Washington/Oregon), 12 lease sales in the Gulf of Mexico (GOM) Region (ten regionwide lease sales for the portions of the Central, Western, and Eastern GOM planning areas that are not currently under moratorium, and two sales for the remaining portions of the Central and Eastern GOM planning areas after the Congressional moratorium against leasing was set to expire), and nine lease sales in the Atlantic Region (three sales each for the Mid- and South Atlantic, two for the North Atlantic, and one for the Straits of Florida). The Proposed Program analysis and the companion Draft Programmatic EIS analyze the full lease sale schedule presented in the DPP for the purpose of informing the Secretary prior to advancing the Proposed Program.

Following the January 2018 publication of the DPP, BOEM received more than 2 million comments from stakeholders, including governors, Federal agencies, state agencies, local agencies, energy and non-energy industries, Tribal governments, non-governmental organizations, including environmental advocacy groups, and the general public (see Appendix A of the Proposed Program document for more information).

After careful consideration of the OCS Lands Act Section 18(a) factors, as well as input from governors and the public, this Proposed Program offers up to ten potential sales in the Gulf of Mexico (GOM) Region Program Area 1 (which contains the Western GOM Planning Area, most of the Central GOM Planning Area, and a small portion of the Eastern GOM Planning Area), and one potential lease sale in the northern portion of the Cook Inlet Planning Area offshore Alaska. Two Subarea Options have been identified that will be analyzed in the PFP and Final Programmatic EIS: a 15-mile no leasing buffer offshore Baldwin County, Alabama, and a targeted leasing approach in the GOM Program Area 1.

The schedule shown in Table 1 reflects the potential lease sales for the 2023–2028 Proposed Program. Figures 1 and 2 depict the program areas included in the 2023–2028 Proposed Program.

The size, timing, location, and number of potential lease sales in this Proposed Program will be robustly analyzed in the PFP and Final Programmatic EIS and may be further narrowed or excluded. The Secretary is requesting public and stakeholder input on the Proposed Program to inform the PFP and Final Programmatic EIS analyses.

BOEM also seeks feedback and input on additional data sources, reasonable assumptions and methodological approaches which could help BOEM quantitatively and/or qualitatively estimate how demand for OCS oil and gas and energy market substitutions might differ in the future under various climate pathways that would be required to reach net zero domestic greenhouse gas emissions by 2050, as President Biden and the parties to the Paris Agreement have staked out as objectives.

Chapter 5 of the Proposed Program describes BOEM’s current approach to analyzing net benefits. Section 5.3.4 provides a qualitative description of the likely impacts and changes to the net benefits that could result under a hypothetical net-zero scenario. BOEM seeks input and feedback on this approach as it continues to refine its analysis going forward.

This Proposed Program will be analyzed to inform the Secretary’s PFP, which will be published with a Final Programmatic EIS and be provided to the President and Congress. Upon consideration of the PFP and Final Programmatic EIS, and comments received as part of the National OCS Program development process, the Secretary will approve a 2023–2028 Program, determining the program areas to be potentially leased in the 2023–2028 timeframe.
The Proposed Program is the proposed action evaluated in the Draft Programmatic EIS. BOEM has elected to prepare the Draft Programmatic EIS to help address certain environmental components outlined in Section 18 of the OCS Lands Act. The National Aeronautics and Space Administration and the National Park Service are Cooperating Agencies on the Draft Programmatic EIS. BOEM analyzed several environmentally important areas in the Draft Programmatic EIS for possible exclusion from the 2023–2028 Program and is soliciting public comment on these or other areas that should be considered for exclusion.

Public Comment: All interested parties, including Federal, state, Tribal, and local governments, oil and gas producers, and others, can submit written comments on the Proposed Program and the Draft Programmatic EIS. Including any significant issues that should be addressed in the PFP and Final Programmatic EIS. Comments that provide scientific information, geospatial or other data, or other evidence to support your input are most useful, and such information can be provided as attachments to comments.

BOEM will protect privileged or proprietary information that you submit in accordance with the Freedom of Information Act (FOIA) and OCS Lands Act requirements. To avoid inadvertent release of such information, interested parties should mark all documents and every page containing such information with “Confidential—Contains Proprietary Information.” To the extent a document contains a mix of proprietary and nonproprietary information, interested parties should mark clearly the portions of the document that are proprietary and those that are not. Exemption 4 of FOIA applies to trade secrets and commercial or financial information that you submit that is privileged or confidential. Section 18 of the OCS Lands Act also states that the “Secretary shall maintain the confidentiality of all privileged or proprietary data or information for such period of time as is provided for in this subchapter, established by regulation, or agreed to by the parties” (43 U.S.C. 1344(g)).

Please be aware that BOEM’s practice is to make all other comments, including the names and addresses of individuals, available for public inspection. Before including your address, phone number, email address, or other personal identifying information in your comment, please be advised that your entire comment, including your personal identifying information, may be made publicly available at any time. Even if BOEM withholds your information in the context of this Program development process, your submission is subject to the Freedom of Information Act (FOIA), and if your submission is requested under the FOIA, your information will only be withheld if a determination is made that one of the FOIA’s exemptions to disclosure applies. Such a determination will be made in accordance with the Department’s FOIA regulations and applicable law.

In order for BOEM to consider withholding from disclosure your personal identifying information, you must identify, in a cover letter, any information contained in the submittal of your comments that, if released, would constitute a clearly unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequence(s) of the disclosure of information, such as embarrassment, injury or other harm. Note that BOEM will make available for public inspection, in their entirety, all comments submitted by organizations and businesses, or by individuals identifying themselves as representatives of organizations or businesses.

**Public Meetings:** BOEM will hold a series of virtual public meetings to provide information and the opportunity for public comment on the Proposed Program and the Draft Programmatic EIS. BOEM’s public meetings will be held online using an open house format, with several information stations, hosted by BOEM subject matter experts, each of which will focus on different aspects of BOEM’s Proposed Program and Draft Programmatic EIS analysis. The virtual open house format allows members of the public to view information, discuss the 2023–2028 National OCS Program and the Draft Programmatic EIS with BOEM staff, and to receive instructions about how to provide comments on the documents.

Virtual public meetings will be scheduled between now and October 6, 2022. Specific dates and times, will be posted on https://www.boem.gov/National-OCS-Program.

**Authority:** This Notice of Availability for the 2023–2028 Proposed Program is published in accordance with Section 18 of the OCS Lands Act and its implementing regulations (30 CFR part 556 subpart B). This Notice of Availability for the 2023–2028 Draft Programmatic EIS is published pursuant to the regulations (40 CFR 1506.6 and 43 CFR 46.435) implementing the provisions of the National Environmental Policy Act.

Amanda Lefon,
Director, Bureau of Ocean Energy Management

BILLING CODE 4340-98-P
Figure 1: Proposed Program Map – Alaska Region
INTERNATIONAL TRADE COMMISSION

Notice of Receipt of Complaint; Solicitation of Comments Relating to the Public Interest

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has received a complaint entitled Certain Video Processing Devices and Products Containing the Same. DN 3626; the Commission is soliciting comments on any public interest issues raised by the complaint or complainant’s filing pursuant to the Commission’s Rules of Practice and Procedure.

FOR FURTHER INFORMATION CONTACT: Lisa R. Barton, Secretary to the Commission, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205–2000. The public version of the complaint can be accessed on the Commission’s Electronic Document Information System (EDIS) at https://edis.usitc.gov. For help accessing EDIS, please email EDIS3Help@usitc.gov. General information concerning the Commission may also be obtained by accessing its internet server at United States International Trade Commission (USITC) at https://www.usitc.gov. The public record for this investigation may be viewed on the Commission’s Electronic Document Information System (EDIS) at https://edis.usitc.gov. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal on (202) 205–1810.

SUPPLEMENTARY INFORMATION: The Commission has received a complaint and a submission pursuant to § 210.8(b) of the Commission’s Rules of Practice and Procedure filed on behalf of VideoLabs, Inc. on July 1, 2022. The complaint alleges violations of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain video processing devices and products containing the same. The complainant names as respondents: Acer Inc. of Taiwan; Acer America Corporation of San Jose, CA; ASUSTeK Computer Inc. of Taiwan; ASUS Computer International of Fremont, CA; Lenovo Group Limited of China; Lenovo (United States) Inc. of Morrisville, NC; Micro-Star International Co., Ltd. of Taiwan; Motorola Mobility LLC of Chicago, IL; and MSI Computer Corp. of City of Industry, CA. The complainant requests that the Commission issue a limited exclusion order, a cease and desist order, and impose a bond upon respondents alleged infringing articles during the 60-day Presidential review period pursuant to 19 U.S.C. 1337(j).

Proposed respondent, other interested parties, and members of the public are invited to file comments on any public interest issues raised by the complaint or § 210.8(b) filing. Comments should
