Abstract of Proposed Collection

This electronic collection records medical information necessary to determine whether visa applicants have medical conditions affecting the applicants' eligibility for a visa.

This collection is also used to collect medical examination information from follow-to-join refugees and certain individuals who have been paroled into or are seeking parole into the United States.

Methodology

The Department grants approved panel physicians access to an eMedical system to conduct medical examinations for determinations of eligibility for visas and other immigration benefits. The panel physician inputs the exam information into the eMedical portal, and it is transmitted to the Department for visa adjudication, follow-to-join refugee adjudication, and for the purpose of issuing boarding foils for certain individuals seeking parole from the Department of Homeland Security; it is thereafter retained in the Department's systems. The information is also transmitted to the Centers for Disease Control and Prevention's ("CDC") systems. In some instances, if the individual has been admitted to the United States as a parolee or is seeking parole into the United States, the information is transmitted directly to the CDC, bypassing the Department. In relation to parolees, the data that is transmitted to the U.S. Government depends on the nature of parole as

determined by the Department of Homeland Security.

Deputy Assistant Secretary, Bureau of Consular Affairs, Department of State.

Abstract of Proposed Collection

Forms for this collection are completed by panel physicians for refugees, noncitizens seeking a visa, and some individuals who need a boarding foil in order to be paroled into the United States. The collection records medical information necessary to determine whether noncitizens have medical conditions affecting the individual's eligibility for an immigration benefit or affecting the public health and requiring treatment.

Methodology

A panel physician, contracted by the consular post in accordance with instructions issued by the Centers for Disease Control (CDC), performs the medical examination of the applicant and completes the forms. Panel physicians complete Forms DS-3025, DS-3026, and DS-3030. Upon completing the medical examination, the examining panel physician submits a report to the consular section on Form DS-2054 and includes the DS-3024, DS-3026, and the DS-3030. The information provided in these forms assists the Department for visa adjudication, follow-to-join refugee adjudication, and for the purpose of issuing boarding foils for certain individuals seeking parole from the Department of Homeland Security, and is thereafter retained in the Department's systems. The information is also provided to the CDC.
