*Form Number:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Businesses or other for-profit entities; Not-for-profit institutions.

*Number of Respondents and Responses:* 2,677 respondents; 6,879 responses.

*Estimated Time per Response:* 0.5 hours to 40 hours.

*Frequency of Response:* Recordkeeping requirement; On occasion reporting requirement; Third-party disclosure requirement.

*Obligation to Respond:* Mandatory; Required to obtain or retain benefits. The statutory authority for this information collection is contained in sections 4(i), 303, and 612 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 303, and 532.

*Total Annual Burden:* 17,131 hours.

*Total Annual Cost:* \$118,000.

*Needs and Uses:* The information collection requirements for this collection are contained in the following rule sections:

47 CFR 76.970(h) requires cable operators to provide prospective leased access programmers with the following

information within 30 calendar days of the date on which a bona fide request for leased access information is made, provided that the programmer has remitted any application fee that the cable system operator requires up to a maximum of \$100 per system-specific bona fide request (for systems subject to small system relief, cable operators are required to provide the following information within 45 calendar days of a bona fide request):

(a) How much of the cable operator's leased access set-aside capacity is available;

(b) a complete schedule of the operator's full-time leased access rates;

(c) rates associated with technical and studio costs; and

(d) if specifically requested, a sample leased access contract.

Bona fide requests, as used in this section, are defined as requests from potential leased access programmers that have provided the following information:

(a) The desired length of a contract term;

(b) the anticipated commencement date for carriage; and

(c) the nature of the programming.

All requests for leased access must be made in writing and must specify the date on which the request was sent to the operator. Operators must maintain supporting documentation to justify scheduled rates, including supporting contracts, calculations of the implicit fees, and justifications for all adjustments.

Cable system operators must disclose on their own websites, or through alternate means if they do not have their own websites, a contact name or title, telephone number, and email address for the person responsible for responding to requests for information about leased access channels.

47 CFR 76.971 requires cable operators to provide billing and collection services to leased access programmers unless they can demonstrate the existence of third party billing and collection services which, in terms of cost and accessibility, offer leased access programmers an alternative substantially equivalent to that offered to comparable non-leased access programmers.

47 CFR 76.975(b) allows any person aggrieved by the failure or refusal of a cable operator to make commercial channel capacity available or to charge rates for such capacity in accordance with the relevant provisions of the statute or the implementing regulations to file a petition for relief with the Commission. Persons alleging that a cable operator's leased access rate is

unreasonable must receive a determination of the cable operator's maximum permitted rate from an independent accountant prior to filing a petition. If parties cannot agree on a mutually acceptable accountant within five business days of the programmer's request for a review, they must each select an independent accountant on the sixth business day. These two accountants will then have five business days to select a third independent accountant to perform the review. To account for their more limited resources, operators of systems entitled to small system relief have 14 business days to select an independent accountant when no agreement can be reached.

47 CFR 76.975(c) requires that petitioners attach a copy of the final accountant's report to their petition where the petition is based on allegations that a cable operator's leased access rates are unreasonable.

47 CFR 76.975(e) provides that the cable operator or other respondent will have 30 days from service of the petition to file an answer. If a leased access rate is disputed, the answer must show that the rate charged is not higher than the maximum permitted rate for such leased access, and must be supported by the affidavit of a responsible company official. If, after an answer is submitted, the staff finds a prima facie violation of our rules, the staff may require a respondent to produce additional information, or specify other procedures necessary for resolution of the proceeding. Replies to answers must be filed within fifteen (15) days after submission of the answer.

*Needs and Uses:* A Report and Order, FCC 02-78, adopted and released in March 2002 (Order), set forth the procedures for common carriers requiring authorization under section 214 of the Communications Act of 1934, as amended, to acquire domestic interstate transmission lines through a transfer of control. Under section 214 of the Act, carriers must obtain FCC approval before constructing, acquiring, or operating an interstate transmission line. Acquisitions involving interstate common carriers require affirmative action by the Commission before the acquisition can occur. This information collection contains filing procedures for

domestic transfer of control applications under sections 63.03 and 63.04. The FCC filing fee amount for section 214 applications is currently \$1,230 per application, which reflects an increase from the previous fee of \$1,195 per application.

(a) Sections 63.03 and 63.04 require domestic section 214 applications involving domestic transfers of control, at a minimum, should specify: (1) the name, address and telephone number of each applicant; (2) the government, state, or territory under the laws of which each corporate or partnership applicant is organized; (3) the name, title, post office address, and telephone number of the officer or contact point, such as legal counsel, to whom correspondence concerning the application is to be addressed; (4) the name, address, citizenship, and principal business of any person or entity that directly or indirectly owns at least ten percent of the equity of the applicant, and the percentage of equity owned by each of those entities (to the nearest one percent); (5) certification pursuant to 47 CFR 1.2001 that no party to the application is subject to a denial of Federal benefits pursuant to section 5301 of the Anti-Drug Abuse Act of 1988; (6) a description of the transaction; (7) a description of the geographic areas in which the transferor and transferee (and their affiliates) offer domestic telecommunications services, and what services are provided in each area; (8) a statement as to how the application fits into one or more of the presumptive streamlined categories in section 63.03 or why it is otherwise appropriate for streamlined treatment; (9) identification of all other Commission applications related to the same transaction; (10) a statement of whether the applicants are requesting special consideration because either party to the transaction is facing imminent business failure; (11) identification of any separately filed waiver request being sought in conjunction with the transaction; and (12) a statement showing how grant of the application will serve the public interest, convenience, and necessity, including any additional information that may be necessary to show the effect of the proposed transaction on competition in domestic markets.

In FCC 20–133, adopted September 30, 2020, and released October 1, 2020, the Commission, in order to reduce the need for supplemental requests and to ensure expeditious processing of applications, added the requirements in § 63.04(a)(4) for carrier applicants seeking domestic section 214 authorization to transfer control to

specify the voting interests of any person or entity owning 10 percent of the applicants, as well as provide an ownership diagram that illustrates an applicant's vertical ownership structure: (i) The name, address, citizenship, and principal business of any person or entity that directly or indirectly owns ten percent or more of the equity interests and/or voting interests, or a controlling interest, of the applicant, and the percentage of equity and/or voting interest owned by each of those entities (to the nearest one percent). Where no individual or entity directly or indirectly owns ten percent or more of the equity interests and/or voting interests, or a controlling interest, of the applicant, a statement to that effect; and (ii) An ownership diagram that illustrates the applicant's vertical ownership structure, including the direct and indirect ownership (equity and voting) interests held by the individuals and entities named in response to paragraph (a)(4)(i) of this section. Every individual or entity with ownership shall be depicted and all controlling interests must be identified. The ownership diagram shall include both the pre-transaction and post-transaction ownership of the authorization holder.

Where an applicant wishes to file a joint international section 214 transfer of control application and domestic section 214 transfer of control application, the applicant must submit information that satisfies the requirements of 47 CFR 63.18. In the attachment to the international application, the applicant must submit information described in 47 CFR 63.04(a)(6).

When the Commission, acting through the Wireline Competition Bureau, determines that applicants have submitted a complete application qualifying for streamlined treatment, it shall issue a public notice commencing a 30-day review period to consider whether the transaction serves the public interest, convenience and necessity. Parties will have 14 days to file any comments on the proposed transaction, and applicants will be given 7 days to respond. (b) Applicants are not required to file post-consummation notices of pro forma transactions, except that a post transaction notice must be filed with the Commission within 30 days of a pro forma transfer to a bankruptcy trustee or a debtor-in-possession. The notification can be in the form of a letter (in duplicate to the Secretary, Federal Communications Commission). The letter or other form of notification must also contain the information listed in sections (a)(1). A

single letter may be filed for more than one such transfer of control. The information will be used by the Commission to ensure that applicants comply with the requirements of 47 U.S.C. 214.
