DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Trafficking Victim Assistance Program Data (OMB #0970-0467)

AGENCY: Office on Trafficking in Persons, Administration for Children and Families, Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Office on Trafficking in Persons (OTIP), Administration for

Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is requesting renewal with revisions of an approved information collection: Trafficking Victim Assistance Program Data (Office of Management and Budget (OMB) #0970-0467).

DATES: *Comments due within 60 days of publication.* In compliance with the requirements of the Paperwork Reduction Act (PRA) of 1995, ACF is soliciting public comment on the specific aspects of the information collection described above.

ADDRESSES: You can obtain copies of the proposed collection of information and submit comments by emailing infocollection@acf.hhs.gov. Identify all requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The Trafficking Victims Protection Act of 2000 (TVPA), as amended, authorizes the Secretary of HHS to expand benefits and services to foreign nationals in the United States who are victims of severe forms of trafficking in persons. OTIP funds time-limited comprehensive case management services to foreign national adults confirmed and potential victims of a severe form of human trafficking, as defined by the TVPA of 2000, as amended, who are seeking or have received HHS certification. TVAP establishes local regional presence to coordinate project activities and direct services. Case management services must be provided to qualified persons directly by full-time case managers that are staffed by the prime recipient and may also be provided through a network of per capita service providers, which

provide direct services and community referrals.

OTIP proposes to continue to collect information to measure grant project performance, provide technical assistance to grant recipients, assess program outcomes, inform program evaluation, respond to congressional inquiries and mandated reports, and inform policy and program development that is responsive to the needs of victims.

The information collection captures information on participant demographics (e.g., age, gender identity, race/ethnicity, country of origin), type of trafficking experienced (sex, labor, or both), types of services and benefits provided, along with aggregate information on the amount of money spent on each type of service provided, outreach activities conducted, sub recipients enrolled, and the types of trainings provided to relevant audiences. Minor updates have been made to performance indicators under this collection in consultation with existing grant recipients and stakeholders, to reduce respondent burden, strengthen client privacy and confidentiality, and bring the collection into alignment with program requirements under the revised TVAP. Specifically, to reduce burden and strengthen client privacy and confidentiality, the following TVAP client-level indicators have been removed: Type of Intake, Date of Birth, Disability Status, Services Requested at Intake, Benefits Requested at Intake, Trafficker Relationship to Victim. To bring the collection into alignment with the revised TVAP requirements, outreach-specific indicators have been added, specifically: Number of Outreach
