

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by August 29, 2022 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Food and Nutrition Service

Title: Family Day Care Home (FDCH) Participation Study.

OMB Control Number: 0584–NEW.

Summary of Collection: The Child and Adult Care Food Program (CACFP), administered by the Food and Nutrition Service (FNS), plays a critical role in supporting the health and wellness of children by reimbursing providers for nutritious meals served to eligible children in their care. The FDCH Participation Study aims to understand FDCH provider experiences with the CACFP by asking a nationally representative sample of both current and former CACFP-participating FDCH providers about their experiences with the program.

Need and Use of the Information: The primary data collection activity will include the FDCH Provider Experience Survey, designed to gather information from FDCH providers to address the three main objectives for the study:

1. Identify and describe the reasons why FDCH providers discontinue their participation in CACFP;
2. Determine and describe CACFP program statutory and regulatory requirements, operational and financial considerations, and Federal, State, and local specifics frequently cited as burdensome by stakeholders. Classify challenges as Federal, State, and local and describe in detail; and
3. Gather and summarize recommendations from FDCH providers on how to reduce barriers or challenges to CACFP participation.

Description of Respondents: State, Local, or Tribal government, Businesses or other For-Profit and Not-for-Profit.

Number of Respondents: 5,921.

Frequency of Responses: Reporting: Once.

Total Burden Hours: 4,623.

Ruth Brown,

Departmental Information Collection Clearance Officer.

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by August 29, 2022 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number, and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: Standards for Privately Owned Quarantine Facilities for Ruminants.

OMB Control Number: 0579–0232.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law

gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The Secretary may also prohibit or restrict import or export of any animal or related material to prevent the spread of any livestock or poultry pest or disease. The Animal and Plant Health Inspection Service (APHIS) provides standards for the approval, operation, and oversight of privately owned quarantine facilities for imported ruminants prior to their release into the United States. The AHPA is contained in Title X, Subtitle E, Sections 10401–18 of Public Law 107–171, May 13, 2002, the Farm Security and Rural Investment Act of 2002 [7 U.S.C. 8301 *et seq.*].

Need and Use of the Information: APHIS uses the following information activities with its efforts to maintain a system whereby private individuals can operate (with APHIS oversight) their own facilities for the quarantine of imported ruminants: (1) Application Letter; (2) Cooperative Service Agreement; (3) Daily Log and Recordkeeping; (4) Request for Variance; and (5) Operating Procedures and Recordkeeping. Without the information, APHIS would be forced to discontinue its program of allowing the operation of privately owned quarantine facilities for ruminants, a development that would hamper U.S. animal import activities.

Description of Respondents: Business or other for-profit and State.

Number of Respondents: 5.

Frequency of Responses: Recordkeeping; Reporting; On occasion.

Total Burden Hours: 64.

Animal and Plant Health Inspection Service

Title: Irradiation Treatment; Location of Facilities in the United States.

OMB Control Number: 0579–0383.

Summary of Collection: The United States Department of Agriculture (USDA) is responsible for preventing plant diseases or insect pests from entering into the United States, preventing the spread of pests and noxious weeds not widely distributed into the United States, and eradicating those imported pests when eradication is feasible. The Plant Protection Act (7 U.S.C. 7701 *et seq.*) authorizes USDA to carry out this mission. Under the Plant Protection Act, the Animal and Plant Health Inspection Service (APHIS) is authorized, among other things, to regulate the importation of plants, plant products, and other articles to prevent the introduction of plant pests in the United States.

Need and Use of the Information: APHIS will use the following information collection activities to provide criteria for the approval/certification of irradiation treatment facilities in an effort to prevent the introduction or spread of plant pests and plant diseases in the United States: Request for Initial Certification and Inspection of Facility; Certification and Recertification of Facility; Denial and Withdrawal of Certification; Compliance Agreement; Irradiation Facilities Treating Imported Articles; Irradiation Treatment Framework Equivalency Work plan; Irradiation Facilities Notification; Recordkeeping; Facility to Maintain and Provide Updated Map Identifying Places Horticultural/Crops are Grown; Facility Contingency Plan; Letter of Concurrence or Non-Agreement; Treatment Arrangements; Pest Management Plan; and Facility Map—Detailed Layout of Facility. If the information is not collected, APHIS would have no practical way of determining that any given commodity had actually been irradiated.

Description of Respondents: Business or other for-profits; Federal Government; State, Local or Tribal Government.

Number of Respondents: 24.

Frequency of Responses: Reporting; On occasion.

Total Burden Hours: 988.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

Agency Information Collection Activities: Supplemental Nutrition Assistance Program Waivers Under the Food and Nutrition Act

AGENCY: Food and Nutrition Service (FNS), USDA.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice invites the general public and other public agencies to comment on this planned information collection. This is a revision of a currently approved collection. Section 6(o) of the Food and Nutrition Act establishes a time limit of the receipt of benefits under the Supplemental Nutrition Assistance Program (SNAP) for certain able-bodied adults without dependents (ABAWDs) who are not working. The

provision authorizes the Secretary of Agriculture, upon a State agency's request, to waive the time limit for any group of individuals if the Secretary determines "that the area in which the individuals reside has an unemployment rate of over 10 percent, or does not have a sufficient number of jobs to provide employment for the individuals." As required by the statute, to receive a waiver, the State agency must submit sufficient supporting information so that the United States Department of Agriculture (USDA) can make the required determination as to the area's unemployment rate or insufficiency of available jobs. This collection of information is, therefore, necessary to obtain waivers of the SNAP time limit. In October 2020, the U.S. District Court in District of Columbia vacated the final rule titled, "Supplemental Nutrition Assistance Program: Requirements for Able-Bodied Adults Without Dependents". USDA is revising the hours associated with this collection to reflect the return to regulations prior to the final rule.

DATES: Written comments must be received on or before September 27, 2022.

ADDRESSES: Comments may be sent to: Certification Policy Branch, Program Development Division, Food and Nutrition Service, U.S. Department of Agriculture, 1320 Braddock Place, 5th Floor, Alexandria, VA 22314. Comments may also be submitted via fax to the attention of the Certification Policy Branch or via email to SNAPCPBRules@usda.gov. Comments will also be accepted through the Federal eRulemaking Portal. Go to <http://www.regulations.gov>, and follow the online instructions for submitting comments electronically.

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will be a matter of public record.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of this information collection should be directed to the Alison Conrad at 703–305–2022.

SUPPLEMENTARY INFORMATION:

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions that were used; (c) ways to enhance the quality,
