

not-for-profit institutions, and Federal Government.

Estimated number of respondents: 3,676.

Estimated time per response: Ten minutes.

Frequency of response: On occasion.

Estimated total annual burden hours: 609 hours (3,646 responses × 10 minutes/by 60 = 608 and 30 responses × 2 minutes/by 60 = 1).

Abstract: In order to fulfill its Government-wide statutory mission to mediate FOIA disputes between requesters and agencies, OGIS must communicate with Government departments and agencies regarding the customer's Freedom of Information Act (FOIA)/Privacy Act of 1974 request or appeal. As a result, OGIS collects intake information from customers who request OGIS's mediation services. This information includes the customer's name, contact information, FOIA case number, information on the customer's concern areas/resolution goals, and documents relating to the underlying Freedom of Information Act/Privacy Act request or appeal. Customers provide this information by phone, fax, email, or mail.

OGIS and other agencies must handle FOIA and Privacy Act-protected case information in conformity with the requirements of the FOIA and Privacy Act, including 5 U.S.C. 552a(b), which prohibits agencies from releasing Privacy Act-protected information without an already-established routine use or consent of the person to whom the information pertains. In accord with this requirement, a subset of customers also must fill out a privacy consent form, NA Form 10003, if dealing with an agency that has not published a system of records notice with a routine use for release of information to OGIS.

OGIS uses the information customers provide in this information collection to contact customers, request information on the customer's case from other Federal agencies, and provide the requested assistance. Without the information submitted in the intake process and the consent form, OGIS would be unable to get the information from other agencies or fulfill its mediation mission.

Swarnali Haldar,

Executive for Information Services/CIO.
