

telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** In accordance with 43 CFR 2720.0–6, only the surface estate of the lands would be conveyed in the sale, and the United States would retain the mineral estate, including sand and gravel. The BLM will consider a direct sale of the following described lands in accordance with Section 203 of FLPMA.

**Mount Diablo Meridian, California**

T. 32 N, R. 5 W,  
Sec. 28, lots 160 and 161.

The area aggregates 4.12 acres.

These lands were identified for disposal in the BLM Redding Resource Management Plan (RMP) approved July 27, 1993, and amended November 15, 2005. The BLM also completed a plan maintenance action February 2, 2022, to identify these parcels by Assessor Parcel Number and clarify that these parcels had already been identified in the RMP for disposal, as well as more specifically outline their suitability for disposal, pursuant to Section 203(a)(1) of FLPMA.

FLPMA authorizes the sale of public lands without competitive bidding by giving preference to the adjoining landowners. These BLM parcels are small unmanageable remnants that are surrounded by Mr. Friesen's property and property owned by one other landowner. The BLM notified the other landowner of the potential sale to gauge interest. This landowner responded that they were not interested in acquiring the BLM parcels. Mr. Friesen's intent is to acquire the public land to secure access to his adjacent private lands. This sale would terminate an existing reciprocal right-of-way.

The BLM considered the criteria for disposal found in Sec. 203(a)(1) of FLPMA, which states that land is suited for disposal, “. . . because of its location or other characteristics is difficult and uneconomic to manage as part of the public lands and is not suitable for management by another Federal department or agency.” The lands were examined and have been determined to be suitable for direct sale consistent with 43 CFR 2711.3–3, which states the authorized officer can determine a direct sale best serves the public interest, for example when the adjoining land pattern indicates a direct sale would be most efficient. The identified land is not needed for any Federal purpose.

In conformance with the National Environmental Policy Act, the BLM

prepared a site-specific environmental assessment (EA) (DOI–BLM–CA–360–2021–0019–EA). Based on the EA, the BLM issued a Finding of No Significant Impact and Decision Record on August 12, 2021, to conduct the sale of the lands.

Publication of this notice in the **Federal Register** will segregate the previously described lands from all forms of appropriation under the public land laws, including the mining laws, except for the sale provisions under Section 203 of the FLPMA. The segregation will terminate automatically upon issuance of a patent or on August 2, 2024, whichever occurs first, unless extended by the BLM California State Director in accordance with 43 CFR 2711.1–2(d) prior to the termination date. If issued, the patent will include the following terms, covenants, conditions, and reservations:

1. A right-of-way thereon for ditches or canals constructed by the authority of the United States under the Act of August 30, 1890;

2. All minerals in the lands, including, without limitation, substances subject to disposition under the general mining laws, the Mineral Leasing Act, the Materials Act, and the Geothermal Steam Act, and to the United States, its permittees, licensees, lessees, and mining claimants, the right to prospect for, mine, and remove the minerals owned by, acquired by, or vested in the United States under applicable law and such regulations as the Secretary of the Interior may prescribe. This includes necessary ingress and egress rights and the right to conduct all necessary and incidental activities authorized under law and implementing regulations. Unless otherwise provided by separate agreement with the surface owner, permittees, licensees, and lessees of the United States shall reclaim disturbed areas to the extent prescribed by regulations issued by the Secretary of the Interior. All causes of action brought to enforce the rights of the surface owner under the regulations above referred to shall be instituted against mining claimants, permittees, licenses, and lessees of the United States; and the United States shall not be liable for the acts or omissions of its mining claimants, permittees, licenses, or lessees;

3. Valid existing rights of record;

4. An appropriate indemnification clause protecting the United States from claims arising out of the patentee's use, occupancy, or operations on the patented lands; and

5. Additional terms and conditions that the authorized officer deems appropriate.

The EA, appraisal, maps, and Environmental Site Assessment are available for review during business hours Monday through Friday at the address in the **ADDRESSES** section, except during federally recognized holidays. If the office is closed due to Covid prevention protocols, interested parties can make arrangements to view the documents by contacting the office at (530) 224–2100. Interested parties may submit written comments concerning the sale, including notification of any encumbrances or other claims related to the parcels, by either of the methods identified in the **ADDRESSES** section earlier.

The BLM California State Director will review adverse comments regarding the sale and may sustain, vacate, or modify this realty action in whole or in part. In the absence of timely objections, this realty action will become the final determination of the Department of the Interior.

In addition to publication in the **Federal Register**, the BLM will publish this notice in the *Redding Record Searchlight* newspaper once a week for 3 consecutive weeks.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

(Authority: 43 CFR 2711)

**DEPARTMENT OF LABOR**

**Agency Information Collection Activities; Submission for OMB Review; Comment Request; H–2A Temporary Agricultural Labor Certification Program**

**ACTION:** Notice of availability; request for comments.

---

**SUMMARY:** The Department of Labor (DOL) is submitting this Employment and Training Administration (ETA)-sponsored information collection

request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

**DATES:** The OMB will consider all written comments that the agency receives on or before September 1, 2022.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

**FOR FURTHER INFORMATION CONTACT:** Mara Blumenthal by telephone at 202–693–8538, or by email at [DOL\\_PRA\\_PUBLIC@dol.gov](mailto:DOL_PRA_PUBLIC@dol.gov).

**SUPPLEMENTARY INFORMATION:** The Immigration and Nationality Act (INA) requires the Secretary of Labor to certify, among other things, that any foreign worker seeking to enter the United States (U.S.) to perform certain skilled or unskilled labor will not, by doing so, adversely affect wages and working conditions of workers in the United States similarly employed. The Secretary must also certify there are not sufficient U.S. workers able, willing, and qualified to perform such skilled or unskilled labor. Before any employer may petition for any temporary skilled or unskilled foreign workers, it must submit a request for certification to the Secretary containing the elements prescribed by the INA and regulations. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on March 10, 2022 (87 FR 13760).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection

of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

*Agency:* DOL–ETA.

*Title of Collection:* H–2A Temporary Agricultural Labor Certification Program.

*OMB Control Number:* 1205–0466.

*Affected Public:* Private Sector—Businesses or other for-profits, not-for-profit institutions, and farms.

*Total Estimated Number of Respondents:* 14,586.

*Total Estimated Number of Responses:* 458,114.

*Total Estimated Annual Time Burden:* 88,268 hours.

*Total Estimated Annual Other Costs Burden:* \$3,692,705.

(Authority: 44 U.S.C. 3507(a)(1)(D))

Dated: July 27, 2022.

## DEPARTMENT OF LABOR

### Agency Information Collection Activities; American Time Use Survey

**ACTION:** Notice of availability; request for comments.

**SUMMARY:** The Department of Labor (DOL) is submitting this Bureau of Labor Statistics (BLS)-sponsored information request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

**DATES:** The OMB will consider all written comments that the agency receives on or before September 1, 2022.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this

notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

**FOR FURTHER INFORMATION CONTACT:** Nicole Bouchet by telephone at 202–693–0213, or by email at [DOL\\_PRA\\_PUBLIC@dol.gov](mailto:DOL_PRA_PUBLIC@dol.gov).

**SUPPLEMENTARY INFORMATION:** The American Time Use Survey (ATUS) is the Nation’s only federally administered, continuous survey on time use in the United States. It measures, for example, time spent with children, working, providing eldercare, sleeping or doing leisure activities. In the United States, several existing Federal surveys collect income and wage data for individuals and families, and analysts often use such measures of material prosperity as proxies for quality of life. Time-use data substantially augment these quality-of-life measures. The data also can be used in conjunction with wage data to evaluate the contribution of non-market work to national economies. This enables comparisons of production between nations that have different mixes of market and non-market activities. The ATUS supports the mission of the Bureau of Labor Statistics by providing data on when, where, and how much employed Americans work. Individuals aged 15 and up are selected from a nationally representative sample of approximately 2,060 sample households each month for the ATUS. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 14, 2022 (87 FR 22235).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently
