All 12 qualified allottees reside beyond the boundary of WAPA’s LAP transmission system. As a result, delivery of the allocation will require each allottee to obtain additional transmission arrangements, acceptable to WAPA, for delivery of the proposed power allocation to the allottee’s point of delivery. By June 1, 2024, each allottee must have firm delivery arrangements in place to be effective October 1, 2024, unless otherwise agreed to in writing by WAPA. WAPA must receive a letter of commitment from each allottee’s serving utility or transmission provider by June 1, 2024, confirming that the allottee has secured the necessary transmission arrangements. If WAPA does not receive a commitment letter by June 1, 2024, unless otherwise agreed in writing by WAPA, WAPA will withdraw its offer of a power allocation.

Any long-term LAP firm electric service contract offered by WAPA to an allottee shall be executed by the allottee by December 31, 2022, unless otherwise agreed to in writing by WAPA. Allottees which are a member of a member-based organization and elect to temporarily assign their allocation to the member-based organization, will be required to execute WAPA’s assignment agreement, in lieu of a LAP long-term firm electric service contract, by December 31, 2022, unless otherwise agreed to in writing by WAPA.

**Regulatory Procedure Requirements
Environmental Compliance**

WAPA has determined this action fits within the following categorical exclusion listed in appendix B to subpart D of 10 CFR part 1021.B4.1 (Contracts, policies, and marketing and

allocation plans for electric power). Categorically excluded projects and activities do not require preparation of either an environmental impact statement or an environmental assessment.¹

Specifically, WAPA has determined this rulemaking is consistent with activities identified in part B4, Categorical Exclusions Applicable to Specific Agency Actions (see 10 CFR part 1021, appendix B to subpart D, part B4). A copy of the categorical exclusion determination is available on WAPA–RMR’s website at: <https://www.wapa.gov/regions/RM/environment/Pages/CX2021.aspx>. Look for the file entitled “2021–091 LAP 2025 Resource Pool CX.”

Determination Under Executive Order 12866

WAPA has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget is required.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action

to a particular entity, consult the information under **FOR FURTHER INFORMATION CONTACT**.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](https://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. Background

Registration review is EPA’s periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, the pesticide can

perform its intended function without unreasonable adverse effects on human health or the environment. As part of the registration review process, the Agency has completed comprehensive the revised human health and draft ecological risk assessments for dicamba. After reviewing comments received during the public comment period, EPA may issue a revised risk assessment, explain any changes to the draft risk assessment, and respond to comments and may request public input on risk mitigation before completing a proposed registration review decision for dicamba. Through this program, EPA is ensuring that each pesticide’s registration is based on current scientific and other knowledge, including its effects on human health and the environment.

III. Authority

EPA is conducting its registration review of dicamba pursuant to section 3(g) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. Section 3(g) of FIFRA provides, among other things, that the registrations of pesticides are to be reviewed every 15 years. Under FIFRA, a pesticide product may be registered or remain registered only if it meets the statutory standard for registration given in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)). When used in accordance with widespread and commonly recognized practice, the pesticide product must perform its intended function without unreasonable adverse effects on the environment; that is, without any unreasonable risk to man or the environment, or a human dietary risk from residues that result from the use of a pesticide in or on food.

IV. What action is the Agency taking?

Pursuant to 40 CFR 155.58, this notice announces the availability of EPA’s revised human health and draft ecological risk assessments for the pesticide shown in the following table and opens a 60-day public comment period on the risk assessments.

TABLE—DRAFT RISK ASSESSMENTS BEING MADE AVAILABLE FOR PUBLIC COMMENT

Registration review case name and No.	Docket ID No.	Registration review contact information
Dicamba, Case 0065	EPA-HQ-OPP-2016-0223	Cathryn Britton, britton.cathryn@epa.gov , (202) 566-2339.

Pursuant to 40 CFR 155.53(c), EPA is providing an opportunity, through this notice of availability, for interested

parties to provide comments and input concerning the Agency’s revised human health and draft ecological risk

assessments for dicamba. The Agency will consider all comments received during the public comment period and

make changes, as appropriate, to the revised human health and draft ecological risk assessment. EPA may then issue a revised risk assessment, explain any changes to the draft risk assessment, and respond to comments.

Information submission requirements.

Anyone may submit data or information in response to this document. To be considered during a pesticide's registration review, the submitted data or information must meet the following requirements:

- To ensure that EPA will consider data or information submitted, interested persons must submit the data or information during the comment period. The Agency may, at its discretion, consider data or information submitted at a later date.

- The data or information submitted must be presented in a legible and useable form. For example, an English translation must accompany any material that is not in English and a written transcript must accompany any information submitted as an audio-graphic or video-graphic record. Written material may be submitted in paper or electronic form.

- Submitters must clearly identify the source of any submitted data or information.

- Submitters may request the Agency to reconsider data or information that the Agency rejected in a previous review. However, submitters must explain why they believe the Agency should reconsider the data or information in the pesticide's registration review.

As provided in 40 CFR 155.58, the registration review docket for each pesticide case will remain publicly accessible through the duration of the registration review process; that is, until all actions required in the final decision on the registration review case have been completed.

Authority: 7 U.S.C. 136 *et seq.*

Dated: August 11, 2022.
