II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “NRCareers (Monster Government Solutions).” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on April 15, 2022 (87 FR 22582).

1. *The title of the information collection:* “NRCareers (Monster Government Solutions).”

2. *OMB approval number:* An OMB control number has not yet been assigned to this proposed information collection.

3. *The form number:* New.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* Information is collected as needed.

6. *Who will be required or asked to respond:* NRC applicants and selectees for hiring.

7. *The estimated number of annual responses:* 311.

8. *The estimated number of annual respondents:* 311.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 466.

10. *Abstract:* The NRC relies on webbased software for human capital management, workforce development, and candidate recruitment. Relying entirely on paper-based recruitment and hiring systems would be error-prone, time consuming and inefficient. Instead, the following information is collected electronically: Name, education information (academic institutions, years of attendance, etc.), social security number, personal cellular telephone number, personal email address, home telephone number, employment information, military status/service, mailing/home address.

Dated: August 15, 2022.

For the Nuclear Regulatory Commission.

David C. Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.
