No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number. The OMB Control Number is 3060-1305.

Needs and Uses: In *Improving Competitive Broadband Access to Multiple Tenant Environments*, GN Docket No. 17-142, Report and Order and Declaratory Ruling, FCC 22-12 (Feb. 11, 2022), the Commission, among other things, adopted new rules requiring providers (common carriers and multichannel video programming distributors (MVPDs) subject to 47 U.S.C. 628(b)) to disclose the existence of exclusive marketing arrangements that they have with owners of multi-tenant premises (MTEs). An exclusive marketing arrangement is an arrangement, either written or in practice, between an MTE owner and a provider that gives the provider, usually in exchange for some consideration, the exclusive right to certain means of marketing its service to tenants of the MTE. The required disclosure must be included on all written marketing material from the provider directed at tenants or prospective tenants of an MTE subject to the arrangement. The disclosure must explain in clear, conspicuous, legible, and visible language that the provider has the right to exclusively market its communications services to tenants in the MTE, that such a right does not suggest that the provider is the only entity that can provide communications services to tenants in the MTE, and that service from an alternative provider may be available. The purposes of the compelled disclosure are to remedy tenant confusion regarding the impact of exclusive marketing arrangements, prevent the evasion of our exclusive access rules, and, in turn, promote competition for communications services in MTEs.
