A. Overview of Information Collection

Title of Information Collection: Public Housing Reform Act: Changes to Admission and Occupancy Requirements.

OMB Approval Number: 2577-0230.

Type of Request: Revision of currently approved collection.

Form Number: N/A.

Description of the need for the information and proposed use:

This collection of information implements changes to the admission and occupancy requirements for the public housing program made by the Quality Housing and Work Responsibility (QHWRA) Act of 1998 (Title V of the FY 1999 HUD appropriations Act, Public Law 105-276, 112 Stat. 2518, approved October 21, 1998), and the Housing Opportunity Through Modernization Act of 2016 (HOTMA), section 103, which amends the United States Housing Act of 1937. Both QHWRA and HOTMA made comprehensive changes to HUD's public housing program. These changes include defining an 'over-income family' as one having an annual income 120 percent above the median income for the area for two consecutive years and includes new mandatory annual reporting requirements on the number of over-income families residing in public housing and the total number of families on the public housing waiting lists at the end of each reporting year.

The purpose of the admission and occupancy policy requirement is to ensure that public housing agencies have written documentation of their respective admission and occupancy policies for both the public and the Department of Housing and Urban Development (HUD). Public housing authorities must have on hand and available for inspection, policies related to admission and occupancy, to respond to inquiries from tenants, legal-aid services, HUD, and other interested parties informally or through the Freedom of Information Act of policies relating to eligibility for admission and

continued occupancy, local preferences, income limitations, and rent determination. HOTMA now requires PHAs to make an update to their Admission and Occupancy policy to apply local over-income limits, and annually report on the number of over-income families living in their public housing units as well as the number of families on the public housing waiting list.

Additional revisions have been made to this collection to reflect adjustments in calculations based on the total number of current, active public housing agencies (PHAs) to date. The number of active public housing agencies has changed from 2,897 to 2,774¹ since the last approved information collection. In general, the number of PHAs can fluctuate due to many factors, including but not limited to the merging of two or more PHAs or the termination of the public housing programs due to the Rental Assistance Demonstration.

Lastly, to provide an opportunity to respondents to review, this notice includes a burden statement that will able be made available on HUD's website:

The public reporting burden for this collection of information for the Admission and Occupancy Requirements of Public Housing is estimated to average 24 hours, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information.

Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions to reduce this burden, to the Reports Management Officer, Paperwork Reduction Project, to the Office of Information Technology, U.S. Department of Housing and Urban Development, Washington, DC 20410-3600. When providing comments, please refer to OMB Approval No. 2577-0230. HUD may not conduct and sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid control number.

This collection of information is required to ensure that public housing agencies have written documentation of their respective admission and occupancy policies for both the public and HUD pursuant to regulations found at 24 CFR 903.7 and 960. The information will be used to provide HUD with sufficient information to enable a determination that HUD statutory and regulatory requirements have been met.
