SUPPLEMENTARY INFORMATION: On June 9, 2022, the Bureau issued a request for information seeking information from the public on how employer-driven debt has impacted consumers. The CFPB is particularly interested in hearing from consumers, worker organizations and labor unions, employers (including employers trying to compete with other employers using employer-driven debt), social services organizations, consumer rights and advocacy organizations, legal aid attorneys, academics and researchers, small businesses, financial institutions, and state and local government officials.

The CFPB welcomes the submission of descriptive information about experiences faced by people participating in the market, as well as quantitative data about employer-driven debt. The CFPB is interested in receiving comments relating to debt incurred to an employer or an associated entity, taken on in pursuit or in the course of employment. Commenters need not answer all or any of the specific questions posed. The CFPB anticipates analyzing this information in the service of better understanding the relationship between labor practices and the market for consumer financial products or services and identifying priority areas for future action.

The Bureau has determined that it is appropriate to extend until September 23, 2022, the comment period on this request for information. This extension will allow interested persons more time to pull together the requested information for submission. The

comment period will now close on September 23, 2022.

SUPPLEMENTARY INFORMATION: Section 104(b) of the Consumer Product Safety Improvement Act of 2008 (CPSIA) requires the Commission to adopt mandatory standards for durable infant

or toddler products. 15 U.S.C. 2056a(b)(1). Mandatory standards must be “substantially the same as” voluntary standards, or may be “more stringent” than voluntary standards, if the Commission determines that more stringent requirements would further reduce the risk of injury associated with the products. *Id.* Mandatory standards may be based, in whole or in part, on a voluntary standard.

Pursuant to section 104(b)(4)(B) of the CPSIA, if a voluntary standards organization revises a standard that has been adopted, in whole or in part, as a consumer product safety standard under CPSIA section 104, it must notify the Commission. The revised voluntary standard then shall be considered to be a consumer product safety standard issued by the Commission under section 9 of the Consumer Product Safety Act (15 U.S.C. 2058), effective 180 days after the date on which the organization notifies the Commission (or a later date specified by the Commission in the **Federal Register**) unless, within 90 days after receiving that notice, the Commission responds to the organization that it has determined that the proposed revision does not improve the safety of the consumer product covered by the standard, and therefore the Commission is retaining its existing mandatory consumer product safety standard. 15 U.S.C. 2056a(b)(4)(B).

Under this authority, the Commission issued a mandatory safety rule for children’s folding chairs and children’s folding stools in 2017. The rulemaking created 16 CFR part 1232, which incorporated by reference, without modification, ASTM F2613–17a, Standard Consumer Safety Specification for Children’s Chairs and Stools. Although the voluntary standard applies to children’s chairs and children’s stools, the scope of the mandatory standard is limited to children’s folding chairs and children’s folding stools. 82 FR 59505 (Dec. 15, 2017). The mandatory standard includes performance requirements and test methods, as well as requirements for warning labels and instructions, to address hazards to children associated with children’s folding chairs and children’s folding stools. After promulgation of the final rule, ASTM revised the voluntary standard in 2019 and 2021, and the Commission issued two direct final rules to update the mandatory standard for children’s folding chairs and children’s folding stools to incorporate by reference the latest version of ASTM F2613:

- On April 1, 2020, the Commission published a direct final rule to update part 1232 to reflect incorporation by

reference of ASTM F2613–19, with no modifications (85 FR 18111).

- On May 17, 2021, the Commission published a direct final rule to update part 1232 to reflect incorporation by reference of ASTM F2613–21, with no modifications (86 FR 26654).

In August 2022, ASTM published a revised version of the incorporated voluntary standard, ASTM F2613–22. On August 22, 2022, ASTM notified the Commission that it had approved and published that revised version of the voluntary standard. CPSC staff is assessing the revised voluntary standard to determine, consistent with section 104(b)(4)(B) of the CPSIA, its effect on the safety of consumer products covered by the standard. The Commission invites public comment on that question, to inform staff’s assessment and any subsequent Commission consideration of the revisions in ASTM F2613–22.¹

The incorporated voluntary standard and the revised voluntary standard are available for review in several ways. ASTM has provided on its website (at <https://www.astm.org/CPSC.htm>), at no cost, a read-only copy of ASTM F2613–22 and a red-lined version that identifies the changes made to ASTM F2613–21. Likewise, a read-only copy of the existing, incorporated standard (ASTM F2613–21) is available for viewing, at no cost, on the ASTM website at: <https://www.astm.org/READINGLIBRARY/>. Interested parties can also download copies of the standards by purchasing them from ASTM International, 100 Barr Harbor Drive, P.O. Box C700, West Conshohocken, PA 19428–2959; phone: 610–832–9585; <https://www.astm.org>. Alternatively, interested parties can schedule an appointment to inspect copies of the standards at CPSC’s Office of the Secretary, U.S. Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814, telephone: 301–504–7479; email: <mailto:cpsc-os@cpsc.gov>.

Comments must be received by September 16, 2022. Because of the short statutory time frame Congress established for the Commission to consider revised voluntary standards under section 104(b)(4) of the CPSIA, CPSC will not consider comments received after this date.

Alberta E. Mills,
Secretary, Consumer Product Safety Commission.

Title: Generic Clearance for the Collection of Qualitative Feedback on Website Satisfaction.

Abstract: The proposed information collection activity provides a means to garner qualitative website user and stakeholder feedback in an efficient, timely manner. By qualitative feedback CIGIE means information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into website user or stakeholder perceptions, experiences, and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training, or changes in operations might improve delivery of information.
