

Bank. The Council may consider a change in its herring priorities to discontinue work on this action. Following herring, the Council will take up the Habitat Committee report, which will cover four items: (1) a discussion and possible initiation of a framework adjustment to facilitate offshore Atlantic salmon aquaculture; (2) a GAFRO update on the three-year review of the Dedicated Habitat Research Areas (DHRAs) contained in the Council's Omnibus Essential Fish Habitat Amendment 2; (3) a discussion of the utility of an exempted fishing permit study for management of fishing gear impacts in the Great South Channel Habitat Management Area; and (4) offshore energy and habitat-related work updates, including a Bureau of Ocean Energy Management Gulf of Maine wind update, as well as progress reports on other work. The Council then will adjourn for the day.

Thursday, September 29, 2022

The Council will lead off the fourth day of its meeting with a presentation from the Northeast Fisheries Science Center's Fishery Monitoring and Research Division. The report will cover: (1) the status of ongoing responsibilities within the division; (2) updates on at-sea monitoring and observer program activities, funding status, and coverage rates; and (3) a cooperative research update. The Council then will cover two monkfish items. First, it will receive a presentation on the final Monkfish Fishery Performance Report. This will be followed by a progress report on Framework Adjustment 13 to the Monkfish FMP, which contains 2023–25 fishery specifications and other measures. The Council then will take up the Ecosystem-Based Fishery Management (EBFM) Committee report, which will include updates on: (1) planning for EBFM informational outreach workshops; (2) contractor work to develop and conduct a prototype management strategy evaluation (MSE) for EBFM and the Georges Bank example Fishery Ecosystem Plan (eFEP); and (3) discussions with NOAA Fisheries on National Standard 1's application to the Council's eFEP catch management framework. The Council then will receive the 2022 Northeast Skate Complex Annual Monitoring Report covering the 2021 skate fishing year, as well as an overview of the Skate Plan Development Team's work to improve methods for catch accounting, specification setting, and in-season quota monitoring.

Following the lunch break, members of the public will have the opportunity

to speak during an open comment period on issues that relate to Council business but are not included on the published agenda for this meeting. The Council asks the public to limit remarks to 3–5 minutes. These comments will be received both in person and through the webinar. A guide for how to publicly comment through the webinar is available on the Council website at https://s3.amazonaws.com/nefmc.org/NEFMC-meeting-remote-participation_generic.pdf. Next, NMFS will provide a presentation on proposed regulatory changes to reduce vessel strikes to North Atlantic right whales, and the Council will have an opportunity to provide comments. The Northeast Fisheries Science Center will provide a presentation on the "Draft Ropeless Fishing Roadmap: A Strategy to Develop On-Demand Fishing," which is intended to help reduce the risk of right whale entanglements with fishing gear. The Council will have an opportunity to provide feedback. The next presentation will be on NOAA's National Saltwater Recreational Fisheries Policy. The Council will consider whether to submit comments on this updated policy. The Council then will hold its initial discussion on 2023 Council Priorities before closing out the meeting with other business.

Although non-emergency issues not contained on this agenda may come before the Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.
