### Draft Environmental Impact Statement for the Proposed Yahthumb Solar Project, Clark County, Nevada

**AGENCY:** Bureau of Indian Affairs,  
Interior.

**ACTION:** Notice of availability.

**SUMMARY:** This notice advises the public that the Bureau of Indian Affairs (BIA), as the lead Federal agency, with the Bureau of Land Management (BLM), Environmental Protection Agency (EPA), U.S. Fish and Wildlife Service (USFWS), Nevada Department of Wildlife (NDOW), Clark County, and the Moapa Band of Paiute Indians (Moapa Band) as cooperating agencies, intends to file a draft environmental impact statement (DEIS) with the EPA for the proposed Yahthumb Solar Project

(Project). The DEIS evaluates a photovoltaic (PV) solar energy generation and storage project on the Moapa River Indian Reservation (Reservation) and a generation interconnection (gen-tie) line along with the use of existing access roads located on the Reservation. Reservation lands managed by BLM, BLM lands, and private land. This notice also announces that the DEIS is now available for public review and that public meetings will be held to solicit comments on the DEIS.

**DATES:** The dates and times of the virtual public meetings will be published in the *Las Vegas Review-Journal* and *Moapa Valley Progress* and on the following website 15 days before the public meetings:

[www.YahthumbSolarProjectEIS.com](http://www.YahthumbSolarProjectEIS.com). In order to be fully considered, written comments on the DEIS must arrive no later than 45 days after EPA publishes its Notice of Availability in the **Federal Register**.

**ADDRESSES:** You may mail, email, hand carry or telefax written comments to Mr. Chip Lewis, Regional Environmental Protection Officer, BIA Western Regional Office, Branch of Environmental Quality Services, 2600 North Central Avenue, 4th Floor Mail Room, Phoenix, Arizona 85004-3008. Comment may also be sent via email to: [chip.lewis@bia.gov](mailto:chip.lewis@bia.gov) or on the Projects website at [www.YahthumbSolarProjectEIS.com](http://www.YahthumbSolarProjectEIS.com). Please see the **SUPPLEMENTARY INFORMATION** section of this notice for directions on submitting comments. The public meetings can be joined online through the Projects website at [www.YahthumbSolarProjectEIS.com](http://www.YahthumbSolarProjectEIS.com).

**FOR FURTHER INFORMATION CONTACT:** Mr. Chip Lewis, BIA Western Regional Office, Branch of Environmental Quality Services at (602) 379-6750 or Mr. Garry Cantley at (602) 379-6750. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services.

**SUPPLEMENTARY INFORMATION:** The proposed Federal action, taken under 25 U.S.C. 415, is the BIA's approval of a solar energy ground lease and associated agreements entered into by the Moapa Band with Yahthumb Solar Project, LLC (Applicant). The agreements provide for construction, operation and maintenance (O&M), and eventual decommissioning of a PV electricity generation and battery storage facilities located entirely on the Reservation and specifically on lands held in trust for the Moapa Band, in Clark County Nevada.

The PV electricity generation and battery storage facilities would be located on up to 1,400 acres within a 1,695-acre lease area on tribal trust land and would have a capacity of up to 138 megawatts (MW). The solar field and associated facilities would be in parts of Sections 29, 30, 31, and 32 in Township 15 South, Range 65 East; Section 1 in Township 16 South, Range 64 East; and Section 6 in Township 16 South, Range 65, East Mount Diablo Base Meridian.

Construction of the Project would take up to 14 months. The electricity generation and storage facilities are expected to be operated for up to 56.5 years under the terms of the lease, with time for construction and decommissioning.

Major onsite facilities include multiple blocks of solar PV panels mounted on fixed tilt or tracking systems, pad mounted inverters and transformers, battery storage, access roads, and O&M facilities. A gen-tie line approximately 8.5 to 10 miles long would interconnect the Project to the regional electrical grid at the existing Reid-Gardner Substation. This line would be built within the designated utility corridor on the Reservation that is managed by BLM, on BLM-managed federal land, and on private land near the existing substation. Water will be needed during construction for dust control and a minimal amount will be needed during operations for administrative and sanitary water use and for panel washing. The water supply required for the Project would be leased from the Moapa Band, drawn from the Band's existing water rights, and delivered to the site via temporary water pipeline or by truck. Access to the Project will be provided via I-15 to the existing Ute Road on the Reservation that would be upgraded as needed. Secondary access would be provided via an existing road within the designated utility corridor that would also be upgraded as needed.

The purposes of the proposed Project are, among other things, to: (1) provide a long-term, diverse, and viable economic revenue base and job opportunities for the Moapa Band; (2) assist Nevada to meet their State renewable energy needs; and (3) allow the Moapa Band, in partnership with the Applicant, to optimize the use of the lease site while maximizing the potential economic benefit to the Band.

The BIA and BLM will use the EIS to make decisions on the land lease and right-of-way applications under their respective jurisdiction; the EPA may use the document to make decisions under its authorities; the Moapa Band may use the DEIS to make decisions under its

Environmental Policy Ordinance; and the USFWS may use the DEIS to support its decision under the Endangered Species Act.

**Directions for Submitting Comments:** Please include your name, return address and the caption: "DEIS Comments, Proposed Yahthumb Solar Project" on the first page of your written comments.
