Overview of Information Collection

1. *Type of information collection:* Extension of Currently Approved Collection.

2. *The title of the form/collection:* Requirement that Movie Theaters Provide Notice as to the Availability of Closed Movie Captioning and Audio Description.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Sponsor: The applicable component within the Department of Justice is the Civil Rights Division.

4. *Affected public who will be required to comply, as well as a brief abstract:*

Affected Public (Primary): Businesses and not-for-profit institutions that own, operate, or lease a movie theater that has one or more auditoriums showing digital movies with closed movie captioning and audio description, and that provide notice of movie showings and times. Under the relevant regulation, "movie theater" means a facility other than a drive-in theater that is used primarily for the purpose of showing movies to the public for a fee.

Affected Public (Other): None.

Abstract: The Disability Rights Section (DRS), Civil Rights Division, Department of Justice is seeking to extend its information collection arising from a regulatory provision that requires covered movie theaters to disclose

information to the public regarding the availability of closed movie captioning and audio description for movies shown in their auditoriums.

Title III of the Americans with Disabilities Act (ADA), at 42 U.S.C. 12182, prohibits public accommodations from discriminating against individuals with disabilities. The existing ADA title III regulation, at 28 CFR 36.303(a)-(g), requires covered entities to ensure effective communication with individuals with disabilities. The title III regulation clarifies that movie theaters that provide captioning or audio description for digital movies must ensure "that all notices of movie showings and times at the box office and other ticketing locations, on websites and mobile apps, in newspapers, and over the telephone, inform potential patrons of the movies or showings that are available with captioning and audio description." 28 CFR 36.303(g). This requirement does not apply to any third-party providers of films, unless they are part of or subject to the control of the public accommodation. *Id.* Movie theaters' disclosure of this information will enable individuals with hearing and vision disabilities to readily find out where and when they can have access to movies with these features.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The Department's initial PRA request for this collection relied on U.S. Census Bureau data from 2012 and estimated that there was a total of 1,876 firms owning one or more movie theaters in the United States that were potentially subject to this disclosure. See 81 FR 37643 (June 10, 2016). The most recent U.S. Census Bureau data, from 2019, estimated that there was a total of 1,892 firms owning one or more movie theaters. See U.S. Census Bureau, 2019 SUSB Annual Data Tables by Establishment Industry, Data by Enterprise Employment Size, U.S., 6-digit NAICS (512131). As the vast majority of U.S. movie theaters now show digital movies, which typically allow for closed captioning and audio description, to the extent that each of these movie theater firms that shows digital movies provides notices of movie showings and times to the public about those films, they must provide information concerning the availability of closed movie captioning and audio description in their communications.

Estimated average time to respond: The Department acknowledges that the amount of time it will take a respondent to comply with this requirement may vary depending on the number of
