

Agency's receipt of the requests for voluntary cancellations of all other products listed in this cancellation order in Table 1 and Table 1A of Unit II.

IV. Cancellation Order

Pursuant to FIFRA section 6(f) (7 U.S.C. 136d(f)), EPA hereby approves the requested cancellations of the registrations identified in Table 1 and Table 1A of Unit II. Accordingly, the Agency hereby orders that the product registrations identified in Table 1 and Table 1A of Unit II, are canceled. The effective date of the cancellation listed in Table 1A of Unit II, is effective March 3, 2022. The effective date of the cancellations in Table 1 of Unit II, that are the subject of this notice is September 14, 2022. Any distribution, sale, or use of existing stocks of the products identified in Table 1 and Table 1A of Unit II, in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI, will be a violation of FIFRA.

V. What is the Agency's authority for taking this action?

FIFRA section 6(f)(1) (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request.

The notice of receipt for this action was published for comment in the **Federal Register** of April 28, 2022 (87 FR 25256) (FRL-9723-01-OCSPP). The comment period closed on May 31, 2022.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States, and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The existing stocks provisions for the products subject to this order are as follows.

For the registration MT-120005, listed in Table 1A of Unit II, the registrant requested the effective date of cancellation to be March 3, 2022. The registrant may continue to sell and distribute existing stocks of the product listed in Table 1A of Unit II, until March 3, 2023. Thereafter, the registrant is prohibited from selling or distributing the product listed in Table 1A of Unit II, except for export in accordance with FIFRA section 17 (7 U.S.C. 136o), or proper disposal.

The registrants may continue to sell and distribute existing stocks of the products listed in Table 1 of Unit II, until September 14, 2023, which is 1 year after the publication of the Cancellation Order in the **Federal Register**. Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1 of Unit II, except for export in accordance with FIFRA section 17 (7 U.S.C. 136o), or proper disposal.

Persons other than the registrants may sell, distribute, or use existing stocks of products listed in Table 1 and Table 1A of Unit II, until existing stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the cancelled products.

General Description of Collection: The Community Reinvestment Act regulation requires the FDIC to assess the record of banks and thrifts in helping meet the credit needs of their entire communities, including low- and moderate-income neighborhoods, consistent with safe and sound operations; and to take this record into account in evaluating applications for mergers, branches, and certain other corporate activities. There is no change in the method or substance of the collection. The overall decrease in burden hours is a result of decreases in

the estimated number of respondents. On June 3, 2022, the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System and the FDIC (the Agencies) published a proposal to amend the Agencies' Community Reinvestment Act regulations.¹ The agencies are expecting comments from the industry and other concerned parties which will be considered and addressed when a final rule is issued. The FDIC does not wish to discontinue this information collection while the proposed revisions are considered and a new rule is issued

and is, therefore, extending its Community Reinvestment Act information collection as-is, without revision, to preserve its validity.

Source: FDIC.

General Description of Collection: FDIC's regulations at 12 CFR part 363 establish annual independent audit and reporting requirements for financial institutions with total assets of \$500 million or more. The requirements include the submission of an annual report on their financial statements, recordkeeping about management deliberations regarding external

auditing and reports about changes in auditors. The information collected is used to facilitate early identification of problems in financial management at financial institutions. There is no change in the substance or methodology of this information collection. The overall increase in burden hours is a result of the increase in the estimated number of respondents with

consolidated total assets greater than \$500 million.

General Description of Collection: The information collection includes reporting and recordkeeping burdens related to sound risk management principles applicable to insured depository institutions. To enable an institution and its supervisor to evaluate the liquidity risk exposure of an institution's individual business lines and for the institution as a whole, the Interagency Policy Statement on Funding and Liquidity Risk Management (Interagency Statement) summarizes principles of sound liquidity risk management and advocates the establishment of policies and procedures that consider liquidity costs, benefits, and risks in strategic planning. In addition, the Interagency Statement encourages the use of liquidity risk reports that provide detailed and aggregate information on items such as cash flow gaps, cash flow projections, assumptions used in cash flow projections, asset and funding concentrations, funding availability, and early warning or risk indicators. This is intended to enable management to assess an institution's sensitivity to changes in market conditions, the institution's financial performance, and other important risk factors. There is no change in the method or substance of the collection. The overall reduction in burden hours is the result of economic fluctuation. In particular, the number of respondents
