DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

Statement of Organization, Functions, and Delegations of Authority

AGENCY: Food and Drug Administration, Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Food and Drug Administration’s (FDA), Center for Biologics Evaluation and Research (CBER), Office of Tissues and Advanced Therapies (OTAT) has modified its organizational structures.

DATES: These new organizational structures were approved by the Secretary of Health and Human Services on August 8, 2022, and effective on September 16, 2022.

FOR FURTHER INFORMATION CONTACT: Yashika Rahaman, Director, Office of Planning, Evaluation and Risk Management, Office of Finance, Budget, Acquisitions and Planning, FDA, 4041 Powder Mill Road, Beltsville, MD, 20705-4304, 301-796-3843.

SUPPLEMENTARY INFORMATION:

I. Introduction

Part D, Chapter D–B, (Food and Drug Administration), the Statement of Organization, Functions and Delegations of Authority for the Department of Health and Human Services (35 FR 3685, February 25, 1970, 60 FR 56606, November 9, 1995, 64 FR 36361, July 6, 1999, 72 FR 50112, August 30, 2007, 74 FR 41713, August 18, 2009, 76 FR 45270, July 28, 2011, and 84 FR 22854, May 20, 2019) is revised to reflect the Food and Drug Administration’s reorganization of CBER, Office of Tissues and Advanced Therapies (OTAT).

CBER’s mission is to protect and enhance public health through the regulation of biological and related products including blood, vaccines, allergenics, tissues, and cellular and

gene therapies. With substantial growth in innovative, novel products, as well as a need to address an ever-changing landscape of potential public health threats, CBER is currently facing scientific, medical, and regulatory challenges that require changes to its structure.

Utilizing key tenets of CBER’s modernization efforts, CBER will retitle OTAT to the Office of Therapeutic Products (OTP) and elevate OTP to a Super Office to manage its program at a macro level and to better position the Center to address an everchanging public health landscape. With the current and anticipated increase in workloads, the proposed structural changes will improve functional alignment, increase review capabilities, and enhance expertise on new cell and gene therapies. Additional supervisory positions will not only help to address this increased workload but will also provide advancement opportunities to facilitate recruitment and retention of highly qualified staff. The proposal creates flexibility and capacity for future growth in Full-Time Employees (FTEs) and workload, avoiding the need for continual reorganizations. The reorganization will position OTP to focus on commitments, including those negotiated with industry in the prescription drug user fee agreement (PDUFA) for FY 2023–2027, and other key priorities that protect public health. To advance the field and support the next generation of cell and gene therapies, OTP will continue to see growth in the Regenerative Medicine Advanced Therapy (RMAT) program, established in the 21st Century Cures Act.

The Food and Drug Administration’s Center for Biologics Evaluation and Research, Office of Tissues and Advanced Therapies, has been restructured as follows:

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

Statement of Organization, Functions, and Delegations of Authority

AGENCY: Office of Regulatory Affairs, Food and Drug Administration, Department of Health and Human Services.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA), Office of Regulatory Affairs (ORA), Headquarters (HQ) and Field Offices (RFO) have modified its structure.

DATES: This new organizational structure was approved by the Deputy Secretary of Health and Human Services on December 22, 2021, and became effective on February 9, 2022.

FOR FURTHER INFORMATION CONTACT: Glenda Barfell, Associate Commissioner for Regulatory Management Operations, Office of Regulatory Management Operations, Office of Regulatory Affairs, Food and Drug Administration, Element Building, Room 2002, 12420 Parklawn Drive, Rockville, MD 20857, Phone: 240-402-7562.

SUPPLEMENTARY INFORMATION: Part D, Chapter D-B, (Food and Drug

Administration), the Statement of Organization, Functions, and Delegations of Authority for the Department of Health and Human Services (35 FR 3685, February 25, 1970, 60 FR 56606, November 9, 1995, 64 FR 36361, July 6, 1999, 72 FR 50112, August 30, 2007, 74 FR 41713, August 18, 2009, 76 FR 45270, July 28, 2011, and 84 FR 22854, May 20, 2019) is amended to reflect the reorganization of the Office of Regulatory Affairs Headquarters Offices and Field Offices.

This reorganization is a continuation of the Program Alignment (PA) reorganization completed in 2017 to enhance organizational efficiencies identified after PA. The objective is to improve the Office of Regulatory Affairs (ORA) core functions, correct and enhance the structure with effective use of resources, and carry out the mission of protecting consumers by ensuring compliance of FDA-regulated products. As industry rapidly changes, the FDA must continue to evolve to ensure that public health is not negatively impacted by gaps in inspections and investigations of regulated firms.
