as amended (the Act).³ On June 16, 2022, Commerce received a notice of intent to participate in this review from the Committee for Fairly Traded Japanese Cement (Committee) within the deadline specified in 19 CFR 351.218(d)(1)(i).⁴ The Committee claimed interested party status under section 771(9)(E) of the Act, as a trade or business association, a majority of whose members manufacture, produce or wholesale a domestic like product in the United States. On July 1, 2022, the Committee provided a complete substantive response for this review within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).⁵ We received no substantive responses from other interested parties, nor was a hearing requested. On July 21, 2022, Commerce notified the U.S. International Trade Commission (ITC) that it did not receive an adequate substantive response from respondent interested parties.⁶ As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), Commerce has conducted an expedited (120-day) sunset review of the *Order*.

Scope of the Order

The products covered by the *Order* are cement and cement clinker from Japan. Cement is a hydraulic cement and the primary component of concrete. Cement clinker, an intermediate material produced when manufacturing cement, has no use other than grinding into finished cement. Microfine cement was specifically excluded from the *Order*. Cement is currently classifiable under the Harmonized Tariff Schedule (HTS) subheading 2523.29 and cement clinker is currently classifiable under HTS subheading 2523.10. Cement has also been entered under HTS subheading 2523.90 as “other hydraulic cements.” The HTS subheadings are provided for convenience and customs purposes. The written product description remains dispositive as to the scope of the product covered by the *Order*.⁷

⁶ See Commerce's Letter, “Sunset Reviews Initiated on June 1, 2022,” dated July 21, 2022.

⁷ Commerce has made two scope rulings regarding subject merchandise.
