SUPPLEMENTARY INFORMATION:

Agenda

The Advisory Panel plans to discuss Framework 36: Receive an update and provide input on a range of potential access area and days-at-sea (DAS) allocations for the 2023 and 2024 fishing years. Framework 36 will set specifications including ABC/ACLs, DAS, access area allocations, total allowable landings for the Northern Gulf of Maine (NGOM) management area, targets for General Category incidental catch, General Category access area trips, and set-asides for the observer and research programs for fishing year 2023 and default specifications for fishing year 2024. The panel also plans to develop recommendations for possible 2023 scallop work priorities. They will also consider recommending a control date that could be used to limit the movement of LAGC permits into the NGOM fishery. Other business will be discussed, if necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be

aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465-0492, at least 5 days prior to the meeting date.
