

status of, and compliance with, any agreement by reason of which an investigation was suspended.” In this case, Commerce and representatives of the Mexican tomato producers/exporters accounting for substantially all imports of fresh tomatoes from Mexico signed the 2019 Agreement, which suspended the underlying antidumping duty investigation, on September 19, 2019. Pursuant to the 2019 Agreement, the Mexican signatories agreed to sell subject merchandise at or above certain minimum reference prices, and that their pricing would eliminate at least 85 percent of the dumping determined in the antidumping duty investigation.⁸ The Mexican signatories also agreed to other conditions, including quarterly audits,⁹ near-the-border inspections by the U.S. Department of Agriculture on all Round and Roma tomatoes and certain other types of tomatoes beginning on April 4, 2020,¹⁰ and limits to adjustments to the sales price due to certain changes in condition and quality after shipment.¹¹

After reviewing the information received to date from the respondent companies in their questionnaire and supplemental questionnaire responses, we preliminarily determine that the respondents have adhered to the terms of the 2019 Agreement, except for certain instances of inconsequential or inadvertent noncompliance that does not materially frustrate the purposes of the 2019 Agreement. We intend to address such noncompliance of the respondent IGP by engaging in Operations Consultations pursuant to Section VII.G of the 2019 Agreement. We also preliminarily determine that the 2019 Agreement is functioning as intended and that the 2019 Agreement continues to meet the statutory requirements under sections 734(c) and (d) of the Act.

For a full description of the analysis underlying our conclusions, see the Preliminary Decision Memorandum.
