FOR FURTHER INFORMATION CONTACT: Dr. Ben Secunda, NAGPRA Project Manager, University of Michigan, Office of Research, 3003 South State Street, First Floor, Wolverine Tower, Ann Arbor, MI 48109-1274, telephone (734) 764-1185, email bsecunda@umich.edu.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects under the control of the University of Michigan, Ann Arbor, MI. The human remains and associated funerary objects were removed from the Moccasin Bluff site (20BE08) in Berrien County, MI.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by the University of Michigan Museum of Anthropological Archaeology (UMMAA) professional staff in consultation with representatives of the Citizen Potawatomi Nation, Oklahoma; Forest County Potawatomi Community, Wisconsin; Hannahville Indian Community, Michigan; Match-e-be-nash-she-wish Band of Pottawatomi Indians of Michigan; Miami Tribe of Oklahoma; Nottawaseppi Huron Band of the Potawatomi, Michigan (*previously* listed as Huron Potawatomi, Inc.); Pokagon Band of Potawatomi Indians, Michigan and Indiana; and the Prairie Band Potawatomi Nation (*previously* listed as Prairie Band of Potawatomi Nation, Kansas) (hereafter referred to as "The Tribes").

History and Description of the Remains

In 1948, human remains representing, at minimum, one individual were removed from the Moccasin Bluff site (20BE08) in Berrien County, MI, by UMMAA archeologist Hale Smith. Smith uncovered three burials while excavating a trench at the multi-component site. All the individuals were found buried in an extended position and oriented in the same direction. According to a publication,

Smith identified three burials at the site, but he presumably only excavated one of the burials, which he then brought to the Museum. The date range for this burial is A.D. 1400–1820, based on the extended burial treatment, with individuals facing the same direction, and the associated funerary objects. All the human remains listed in this notice were excavated by Smith in 1948. The associated funerary objects came from excavations by Smith in 1948; Joseph Birdsell, who excavated the site in 1938, and donated some of the funerary objects he recovered to the UMMAA in 1947; and Arthur Jelinek, who excavated the site in 1961. The human remains are of one child ≤13 years old, of indeterminate sex. No known individual was identified. The nine associated funerary objects are one lot of earthenware vessel sections; four lots of earthenware body sherds; one lot of lithic flakes; one lot of earthenware body sherds and small sherd crumb; one lot of lithics, ceramic sherds, and unworked faunal bone fragments; and one lot of reconstructed sections of an earthenware vessel including rim and body sherds.

The human remains have been determined to be Native American based on mortuary treatment, diagnostic artifacts, and archeological context. A relationship of shared group identity can be reasonably traced between the Native American human remains from this site and the Potawatomi and Miami, based on archeological and historical records that indicate both Tribes had a predominant presence in the St. Joseph River Valley from the time of first contact with the French through the early-1800s. Both Tribes were known to have had close and friendly relations in this area. In the early-1800s, the Potawatomi leader Moccasin presided over a village in the immediate vicinity of the site (in present-day Buchanan, MI) on a bluff that now bears his name.

Determinations Made by the University of Michigan

Officials of the University of Michigan have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(3)(A), the nine objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human

remains and associated funerary objects and The Tribes.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Dr. Ben Secunda, NAGPRA Project Manager, University of Michigan, Office of Research, 3003 South State Street, First Floor, Wolverine Tower, Ann Arbor, MI 48109-1274, telephone (734) 764-1185, email bsecunda@umich.edu, by November 14, 2022. After that date, if no additional requestors have come forward, transfer of control of the human remains and associated funerary objects to The Tribes may proceed.

The University of Michigan is responsible for notifying The Tribes that this notice has been published.

Dated: October 5, 2022.

Melanie O'Brien,

Manager, National NAGPRA Program.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provide the requested data in the desired format.

Title of Collection: "Leasing of Sulfur or Oil and Gas in the Outer Continental Shelf."

Abstract: This ICR concerns the paperwork requirements in 30 CFR parts 550, 556, and 560. This ICR also concerns the use of forms to process bonds, transfer interest in leases, and file relinquishments.

The Outer Continental Shelf Lands Act, as amended (43 U.S.C. 1331 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of the Outer Continental Shelf (OCS) and all operations conducted under a lease. Operations on the OCS must develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs; balance orderly energy resource development with protection of human, marine, and coastal environments; ensure the public a fair return on the resources of the OCS; and preserve and maintain free enterprise competition. Also, the Energy Policy and Conservation Act of 1975 prohibits certain lease bidding arrangements (42 U.S.C. 6213(a)).

OMB Control Number: 1010-0006.

Form Number:

- BOEM-0150, "Assignment of Record Title Interest in Federal OCS Oil and Gas Lease";
- BOEM-0151, "Assignment of Operating Rights Interest in Federal OCS Oil and Gas Lease";
- BOEM-0152, "Relinquishment of Federal OCS Oil and Gas Lease";
- BOEM-2028, "Outer Continental Shelf (OCS) Mineral Lessee's or Operator's Bond";

- BOEM-2028A, "Outer Continental Shelf (OCS) Mineral Lessee's or Operator's Supplemental Bond"; and
- BOEM-2030, "Outer Continental Shelf (OCS) Pipeline Right-of-Way Grant Bond".

Type of Review: Revision of a currently approved information collection.

Respondents/Affected Public: Federal oil, gas, or sulfur lessees and operators; right-of-way grant holders.

Total Estimated Number of Annual Responses: 21,826 responses.

Total Estimated Number of Annual Burden Hours: 21,935 hours.

Respondent's Obligation: Mandatory or required to obtain or retain a benefit.

Frequency of Collection: On occasion or annual.

Total Estimated Annual Non-Hour Burden Cost: \$766,053.

Estimated Reporting and Recordkeeping Hour Burden: We expect the burden estimate for the renewal will be 21,935 hours with 21,826 responses, which reflects an increase of 2,881 hours and 11,628 responses. One hour of the increase accounts for Alaska's surety bond submission (30 CFR 550.1011), which was not previously included in the annual burden hours. The remaining increase of 2,880 annual burden hours accounts for submissions of documents under 30 CFR 556.715 and 556.808. Under the current 1010-0006, BOEM accounted for the burden hours to file the requisite fees under 30 CFR 556.715 and 556.808 but did not account for the burden hours to submit the requisite documents.

The following table details the individual components and respective burden hour estimates of this ICR.
