In a Complaint, the United States, on behalf of the U.S. Environmental

The proposed Consent Decree in this case requires SBRSA to pay a civil penalty of \$335,750; to complete and submit a control plan and site-specific monitoring plan that include procedures to measure the mercury concentration in its sewage sludge; to conduct a Subpart LLL-compliant performance test; to develop and undertake standard operating procedures and recordkeeping and reporting obligations to minimize the use of the bypass stack; to undertake root cause analyses and corrective actions whenever there is an exceedance of the limit for the mercury concentration of the sewage sludge or the bypass stack is used; and, to pay stipulated penalties for violations of Consent Decree requirements. In addition, the Consent Decree requires a New Jersey-sponsored environmental project, to be overseen by the state, involving a contribution to the New Jersey Department of Environmental Protection's Environmental Mitigation Project Fund.
