Abstract of Proposed Collection

DDTC regulates the export and temporary import of defense articles and services enumerated on the USML in accordance with the Arms Export Control Act (AECA) (22 U.S.C. 2751 *et seq.*) and the International Traffic in Arms Regulations (ITAR) (22 CFR parts 120–130). In accordance with ITAR § 124.1, any person who intends to furnish defense services or technical data to a foreign person must submit a proposed technical assistance, manufacturing, or distribution license agreement and obtain prior authorization from DDTC for such agreement. Amendments to existing agreements must also be submitted for approval. The electronic mechanism utilized for submitting, reviewing, and approving agreement proposals is the Defense Export Control and Compliance System, DECCS. Specifically, this process utilizes the DSP–5 license application as the primary instrument or “vehicle” for transmitting agreements and their respective amendments from one phase of the adjudication process to the next.

The ITAR requires persons registered with DDTC to maintain records pertaining to defense trade-related transactions. This information collection approves the record-keeping requirements imposed on registrants by the ITAR. Respondents to this collection may submit their records to DDTC as supporting documentation for disclosures of potential violations of the AECA. The method by which respondents submit these records is approved under OMB control no. 1405–0179. DDTC uses these records to analyze industry compliance processes and procedures, and to help assess whether the activity in question might merit administrative sanctions or referral to the Department of Justice for possible criminal prosecution.

In accordance with part 129 of the ITAR, U.S. and foreign persons required to register as a broker shall provide annually a report to DDTC enumerating

and describing brokering activities by quantity, type, U.S. dollar value, purchaser/recipient, and license number for approved activities and any exemptions utilized for other covered activities. This information is currently used in the review of munitions export and brokering license applications and to ensure compliance with defense trade statutes and regulations. As appropriate, such information may be shared with other U.S. Government entities.

In accordance with part 129 of the International Traffic in Arms Regulations (ITAR), U.S. and foreign persons who wish to engage in ITAR-controlled brokering activity of defense articles and defense services must first register with DDTC. Brokers must then submit a written request for approval to DDTC and must receive DDTC’s consent prior to engaging in such activities unless exempted. This information is currently used in the review of the brokering request submitted for approval and to ensure compliance with defense trade statutes and regulations. It is also used to monitor and control the transfer of sensitive U.S. technology.

Methodology

Respondents will submit information as attachments to relevant license applications or requests for other approval.

Respondents may maintain records in any format consistent with the provisions in ITAR § 122.5.

Brokering Reports are submitted annually with Statement of Registration renewals.

Applicants are referred to ITAR part 129 for guidance on information to submit regarding proposed brokering activity. Applicants may submit a Brokering Prior Approval Request electronically via DDTC’s Defense Export Control and Compliance System (DECCS), using the DS–4294.

Michael Miller,

Deputy Assistant Secretary, Directorate of Defense Trade Controls, Department of State.
