

www.regulations.gov, docket BOEM-2020-0018). Following the close of the public comment period, BOEM assessed and considered all comments received and responded by making revisions to the EIS as appropriate. Detailed responses to comments received are provided in Appendix B to the Final EIS.

This Final EIS contains analyses of the potential environmental impacts that could result from a Cook Inlet lease sale. Additionally, BOEM's Preferred Alternative is identified. The Preferred Alternative would offer for lease 193 unleased blocks in the lease sale area, and combines the two critical habitat exclusion alternatives and three mitigation alternatives: Alternative 3A (Beluga Whale Critical Habitat Exclusion), Alternative 3C (Beluga Whale Nearshore Feeding Areas Mitigation), Alternative 4A (Northern Sea Otter Critical Habitat Exclusion), Alternative 4B (Northern Sea Otter Critical Habitat Mitigation), and Alternative 5 (Gillnet Fishery Mitigation). BOEM's announcement of Cook Inlet Lease Sale 258 will be made in a final notice of sale and record of decision.

Authority: The National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*) and 43 CFR 46.415.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-860 (Final)]

Tin- and Chromium-Coated Steel Sheet From Japan; Request for Comments Regarding the Institution of a Section 751(b) Review Concerning the Commission's Affirmative Determination

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission invites comments from the public on whether changed circumstances exist sufficient to warrant the institution of a review pursuant to section 751(b) of the Tariff Act of 1930 regarding the Commission's affirmative determination in investigation No. 731-TA-860 (Final). The purpose of the proposed review would be to determine whether revocation of the existing antidumping duty order on imports of tin- and chromium-coated steel sheet from Japan would be likely to lead to continuation or recurrence of material injury.

DATES: October 21, 2022.

FOR FURTHER INFORMATION CONTACT:

Alejandro Orozco (202-205-3177), Office of Investigations, U.S.

International Trade Commission, 500 E Street SW, Washington, DC 20436.

Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its internet server (<http://www.usitc.gov>). The public record for this matter may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—In August 2000, the Commission determined that an industry in the United States was materially injured by reason of imports of tin- and chromium-coated steel sheet from Japan found by the U.S.

Department of Commerce (Commerce) to be sold in the United States at less than fair value (65 FR 50005, August 16, 2000). Effective August 28, 2000, Commerce issued an antidumping duty order (65 FR 52067).

Following the first five-year reviews by Commerce and the Commission, effective July 21, 2006, Commerce issued a continuation of the antidumping duty order on imports of tin- and chromium-coated steel sheet from Japan (71 FR 41422). Following the second five-year reviews by Commerce and the Commission, effective June 12, 2012, Commerce issued a continuation of the antidumping duty order on imports of tin- and chromium-coated steel sheet from Japan (77 FR 34938). Following the third five-year reviews by Commerce and the Commission, effective July 11, 2018, Commerce issued a continuation of the

antidumping duty order on imports of tin- and chromium-coated steel sheet from Japan (83 FR 32074).

On August 5, 2022, the Commission received a request to review its affirmative determination in investigation No. 731-TA-860 (Final) pursuant to section 751(b) of the Act (19 U.S.C. 1675(b)). The request was filed by the Can Manufacturers Institute, Silgan Containers LLC, Sonoco Product Company, Trivium Packaging USA Inc., Crown Holdings Inc., and Nippon Steel Corporation (collectively, the “Requestors”). The Requestors argue that there have been recent and significant changes in the tin- and chromium-coated steel sheet industries in the United States and Japan that warrant a changed circumstance review. The Requestors allege that a reduction in domestic production capacity of tin- and chromium-coated steel sheet has resulted in supply shortages, which they argue “will only worsen as more domestic supply is taken off line by the end of 2023” with the complete closure of USS–POSCO Industries, a major source of tin- and chromium-coated steel sheet to West Coast companies which supply the agricultural industry in California. In addition, the Requestors allege that the largest producers of tin- and chromium-coated steel sheet in Japan have reduced their capacity and currently have only limited ability to increase their exports.

Written comments requested.—Pursuant to section 207.45(b) of the Commission’s Rules of Practice and Procedure, the Commission requests comments concerning whether the alleged changed circumstances, brought about by the aforementioned changes in the tin- and chromium-coated steel sheet industries in the United States and Japan, are sufficient to warrant institution of a review.

Written submissions.—Comments must be filed with the Secretary to the Commission by December 15, 2022. All written submissions must conform with the provisions of § 201.8 of the Commission’s rules; any submissions that contain business proprietary information must also conform with the requirements of §§ 201.6, 207.3, and 207.7 of the Commission’s rules. The Commission has not included a process for access to business proprietary information pursuant to an administrative protective order during the pre-institution comment period in this proceeding (See 56 FR 11918, 11922 (March 21, 1991)). In the event that the Commission finds sufficient changed circumstances to warrant institution of a review investigation following the comment period, access to business

proprietary information under an administrative protective order will be available at that time. The Commission’s *Handbook on Filing Procedures*, available on the Commission’s website at https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf, elaborates upon the Commission’s procedures with respect to filings.

Please note the Secretary’s Office will accept only electronic filings at this time. Filings must be made through the Commission’s Electronic Document Information System (EDIS, <https://edis.usitc.gov>). No in-person paper-based filings or paper copies of any electronic filings will be accepted until further notice.

Authority: This notice is published pursuant to section 207.45 of the Commission’s rules.

By order of the Commission.

Issued: October 21, 2022.

Katherine Hiner,

Acting Secretary to the Commission.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-1278]

Certain Radio Frequency Transmission Devices and Components Thereof; Notice of Request for Submissions on the Public Interest

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that on September 16, 2022, the presiding Chief Administrative Law Judge (“Chief ALJ”) issued an Initial Determination on Violation of Section 337. The Chief ALJ also issued a Recommended Determination on remedy and bonding should a violation be found in the above-captioned investigation. The Commission is soliciting submissions on public interest issues raised by the recommended relief should the Commission find a violation. This notice is soliciting comments from the public only.

FOR FURTHER INFORMATION CONTACT: Houda Morad, Esq., Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 708-4716. Copies of non-confidential documents filed in connection with this investigation may be viewed on the Commission’s electronic docket (EDIS) at <https://edis.usitc.gov>. For help accessing EDIS, please email

EDIS3Help@usitc.gov. General information concerning the Commission may also be obtained by accessing its internet server at <https://www.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: Section 337 of the Tariff Act of 1930 provides that, if the Commission finds a violation, it shall exclude the articles concerned from the United States:

unless, after considering the effect of such exclusion upon the public health and welfare, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, and United States consumers, it finds that such articles should not be excluded from entry.

19 U.S.C. 1337(d)(1). A similar provision applies to cease and desist orders. 19 U.S.C. 1337(f)(1).

The Commission is soliciting submissions on public interest issues raised by the recommended relief should the Commission find a violation, specifically: a limited exclusion order directed to certain radio frequency transmission devices and components thereof imported, sold for importation, and/or sold after importation by respondent OnAsset Intelligence, Inc. (“OnAsset”) of Irving, Texas; and a cease and desist order directed to OnAsset. Parties are to file public interest submissions pursuant to 19 CFR 210.50(a)(4).

The Commission is interested in further development of the record on the public interest in this investigation. Accordingly, members of the public are invited to file submissions of no more than five (5) pages, inclusive of attachments, concerning the public interest in light of the Chief ALJ’s Recommended Determination on Remedy and Bonding issued in this investigation on September 16, 2022. Comments should address whether issuance of the recommended remedial orders in this investigation, should the Commission find a violation, would affect the public health and welfare in the United States, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, or United States consumers.

In particular, the Commission is interested in comments that:

(i) explain how the articles potentially subject to the recommended remedial orders are used in the United States;
